When Naya thrusts herself in Adam's life to request a place on his clandestine team of guardians, he turns her away. Blah Blah Blah Dan Roam,2011-11-01 Ever been to so many meetings that you couldn't get your work done? Ever fallen asleep during a bulletpoint presentation? Ever watched the news and ended up knowing less? Welcome to the land of Blah Blah Blah. The Problem: We talk so much that we don't think very well. Powerful as words are, we fool ourselves when we think our words alone can detect, describe, and defuse the multifaceted problems of today. They can't-and that's bad, because words have become our default thinking tool. The Solution: This book offers a way out of blah-blah-blah. It's called Vivid Thinking. In Dan Roam's first acclaimed book, The Back of the Napkin, he taught readers how to solve problems and sell ideas by drawing simple pictures. Now he proves that Vivid Thinking is even more powerful. This technique combines our verbal and visual minds so that we can think and learn more quickly, teach and inspire our colleagues, and enjoy and share ideas in a whole new way. The Destination: No more blah-blah-blah. Through Vivid Thinking, we can make the most complicated subjects suddenly crystal clear. Whether trying to understand a Harvard Business School class, or what went down in the Conan versus Leno battle for late-night TV, or what Einstein thought about relativity, Vivid Thinking provides a way to clarify anything. Through dozens of guided examples, Roam proves that anyone can apply this systematic approach, from leftbrain types who hate to draw to right-brainers who hate to write. This isn't just a book about improving communications, presentations, and ideation; it's about removing the blah-blah- blah from your life for good.

The Trials Linda Nagata,2015-08-18 In the wake of nuclear terrorism, a squad of elite soldiers must combat artificial intelligence and seek justice in this military political thriller, a sequel to The Red. Lieutenant James Shelley and his squad of US Army soldiers were on a quest for justice when they carried out the unauthorized

mission known as First Light. They returned home to America to face a court-martial, determined to expose the corruption in the chain of command that compelled their actions. But in a country still reeling from the nuclear terrorism of Coma Day, the courtroom is just one battlefield of many. A new cycle of violence ignites when rumors of the elusive, rogue AI known as the Red go public—and Shelley is, once again, pulled into the fray. Challenged by his enemies, driven by ideals, Shelley feels compelled to act. But are the harrowing choices he makes really his own, or are they made for him, by the Red? And with millions of lives at stake in a game of nuclear cat-and-mouse, does the answer even matter?

Hierarchy in Natural and Social Sciences Denise Pumain, 2006-02-09 Hierarchy is a form of organisation of complex systems that rely on or produce a strong differentiation in capacity (power and size) between the parts of the system. It is frequently observed within the natural living world as well as in social institutions. According to the authors, hierarchy results from random processes, follows an intentional design, or is the result of the organisation which ensures an optimal circulation of energy for information. This book reviews ancient and modern representations and explanations of hierarchies, and compares their relevance in a variety of fields, such as language, societies, cities, and living species. It throws light on concepts and models such as scaling laws, fractals and self-organisation that are fundamental in the dynamics and morphology of complex systems. At a time when networks are celebrated for their efficiency, flexibility and better social acceptance, much can be learned about the persistent universality and adaptability of hierarchies, and from the analogies and differences between biological and social organisation and processes. This book addresses a wide audience of biologists and social scientists, as well as managers and executives in a variety of institutions.

The Violence of Modernity Debarati Sanyal, 2020-03-03 The Violence of Modernity turns to Charles Baudelaire, one of the most canonical figures of literary modernism, in order to reclaim an aesthetic legacy for ethical inquiry and historical critique. Works of modern literature are commonly theorized as symptomatic responses to the trauma of history. In a climate that tends to privilege crisis over critique, Debarati Sanyal argues that it is urgent to rethink literary experience in terms that recall its contestatory potential. Examining Baudelaire's poems afresh, she shifts the focus of critical attention toward an account of modernism as an active engagement with violence, specifically the violence of history in nineteenth-century France. Sanyal analyzes a literary current that uses the traditional hallmarks of modernism—irony, intertextuality, self-reflexivity, and formalism—to challenge the historical violence of modernity. Baudelaire and the committed ironists writing in his wake teach us how to read and resist the violence of history, and thereby to challenge the melancholy tenor of our contemporary wound culture. In a series of provocative readings, Sanyal presents Baudelaire's poetry as an aesthetic form that contests historical violence through rhetorical strategies of complicity, counterviolence, and critique. The book develops a new account of Baudelaire's significance as a modernist by dislodging him both from his traditional status as a practitioner of art for art's sake and from his more recent incarnation as the poet of trauma. Following her extended analysis of Baudelaire's poetry, Sanyal in later chapters considers a number of authors influenced by his strategies—including Rachilde, Virginie Despentes, Albert Camus, and Jean-Paul Sartre—to examine the relevance of their interventions for our current climate of trauma and terror. The result is a study that underscores how Baudelaire's legacy continues to energize literary engagements with the violence of modernity.

Nothing to Lose, Everything to Gain Ryan Blair, 2013-03-26 Like many entrepreneurs, Ryan Blair had no formal business education. But he had great survival instincts, tenacity, and, above all, a nothing to lose mindset. His middle-class childhood ended abruptly when his abusive father succumbed to drug addiction and abandoned the family. Blair and his mother moved to a rough neighborhood, and soon he was in and out of juvenile detention, joining a gang just to survive. Then his mother fell in love with a successful entrepreneur who took Ryan under his wing. With his mentor's guidance, Blair started his first company, 24/7 Tech, at age twenty-one. He has since created and sold several companies for hundreds of millions of dollars. This is an inspirational guide full of powerful stories and lessons and a road map for entrepreneurial success.

Weight Management Institute of Medicine, Food and Nutrition Board, Committee on Military Nutrition Research, Subcommittee on Military Weight Management, 2003-12-01 The primary purpose of fitness and body composition standards in the U.S. Armed Forces has always been to select individuals best suited to the physical demands of military service, based on the assumption that proper body weight and composition supports good health, physical

fitness, and appropriate military appearance. The current epidemic of overweight and obesity in the United States affects the military services. The pool of available recruits is reduced because of failure to meet body composition standards for entry into the services and a high percentage of individuals exceeding military weight-for-height standards at the time of entry into the service leave the military before completing their term of enlistment. To aid in developing strategies for prevention and remediation of overweight in military personnel, the U.S. Army Medical Research and Materiel Command requested the Committee on Military Nutrition Research to review the scientific evidence for: factors that influence body weight, optimal components of a weight loss and weight maintenance program, and the role of gender, age, and ethnicity in weight management.

Losing Earth Nathaniel Rich, 2020-03-05 By 1979, we knew all that we know now about the science of climate change - what was happening, why it was happening, and how to stop it. Over the next ten years, we had the very real opportunity to stop it. Obviously, we failed. Nathaniel Rich's groundbreaking account of that failure - and how tantalizingly close we came to signing binding treaties that would have saved us all before the fossil fuels industry and politicians committed to anti-scientific denialism - is already a journalistic blockbuster, a full issue of the New York Times Magazine that has earned favorable comparisons to Rachel Carson's *Silent Spring* and John Hersey's *Hiroshima*. Rich has become an instant, in-demand expert and speaker. A major movie deal is already in place. It is the story, perhaps, that can shift the conversation. In the book *Losing Earth*, Rich is able to provide more of the context for what did - and didn't - happen in the 1980s and, more important, is able to carry the story fully into the present day and wrestle with what those past failures mean for us in 2019. It is not just an agonizing revelation of historical missed opportunities, but a clear-eyed and eloquent assessment of how we got to now, and what we can and must do before it's truly too late.

Bleed Like Me C. Desir, 2014-10-07 From the author of Fault Line comes an edgy and heartbreaking novel about two self-destructive teens in a Sid and Nancy-like romance full of passion, chaos, and dyed hair. Seventeen-year-old Amelia Gannon (just "Gannon" to her friends) is invisible to almost everyone in her life. To her parents, to her teachers—even her best friend, who is more interested in bumming cigarettes than bonding. Some days the only way Gannon knows she is real is by carving bloody lines into the flesh of her stomach. Then she meets Michael Brooks, and for the first time, she feels like she is being seen to the core of her being. Obnoxious, controlling, damaged, and addictive, he inserts himself into her life until all her scars are exposed. Each moment together is a passionate, painful relief. But as the relationship deepens, Gannon starts to feel as if she's standing at the

foot of a dam about to burst. She's given up everything and everyone in her life for him, but somehow nothing is enough for Brooks—until he poses the ultimate test. *Bleed Like Me* is a piercing, intimate portrayal of the danger of a love so obsessive it becomes its own biggest threat.

No Medium Craig Dworkin, 2013-02-15 Close readings of ostensibly “blank” works—from unprinted pages to silent music—that point to a new understanding of media. In *No Medium*, Craig Dworkin looks at works that are blank, erased, clear, or silent, writing critically and substantively about works for which there would seem to be not only nothing to see but nothing to say. Examined closely, these ostensibly contentless works of art, literature, and music point to a new understanding of media and the limits of the artistic object. Dworkin considers works predicated on blank sheets of paper, from a fictional collection of poems in Jean Cocteau's *Orphée* to the actual publication of a ream of typing paper as a book of poetry; he compares Robert Rauschenberg's *Erased De Kooning Drawing* to the artist Nick Thurston's erased copy of Maurice Blanchot's *The Space of Literature* (in which only Thurston's marginalia were visible); and he scrutinizes the sexual politics of photographic representation and the implications of obscured or obliterated subjects of photographs. Reexamining the famous case of John Cage's *4'33"*, Dworkin links Cage's composition to Rauschenberg's *White Paintings*, Ken Friedman's *Zen for Record* (and Nam June Paik's *Zen for Film*), and other works, offering also a “guide to further listening” that surveys more than 100 scores and recordings of “silent” music. Dworkin argues that we should understand media not as blank, base things but as social events, and that there is no medium, understood in isolation, but only and always a plurality of media: interpretive activities taking place in socially inscribed space.
