Diabetes Its Medical and Cultural History Dietrich v.

Engelhardt, 2012-12-06 Diabetes. Its Medical and Cultural History covers the history of scientific inquiry into this affliction from antiquity to the discovery of insulin (1921) with concurrent consideration of the history of the patient and the cultural historical background. The reprints of medical historical studies discuss general relationships as well as specific details and exceptional research achievements of the past. Included in the bibliography of primary sources are the most important historical contributions in diabetic research and diabetic therapy with the author's name and information on the place of publication. The bibliography of secondary literature consolidates international studies from the past century to the present on the history of the theory of diabetes and therapeutic approaches. Illustrations and literary texts document cultural historical relationships. In index of persons and items facilitates use of this work which is intended to provide a stimulus for the physician, medical historian, medical student, general historian as well as diabetics themselves.

Imperialism Vladimir Lenin, 1939 The pamphlet here presented to the reader was written in the spring of 1916, in Zurich. In the conditions in which I was obliged to work there I naturally suffered somewhat from a shortage of French and English literature and from a serious dearth of Russian literature. However, I made use of the principal English work on imperialism, the book by J. A. Hobson, with all the care that, in my opinion, work deserves. This pamphlet was written with an eye to the tsarist censorship. Hence, I was not only forced to confine myself strictly to an exclusively theoretical, specifically economic analysis of facts, but to formulate the few necessary observations on politics with extreme caution, by hints, in an allegorical language—in that accursed Aesopian language—to which tsarism compelled all revolutionaries to have recourse whenever they took up the pen to write a “legal” work. It is painful, in these days of liberty, to re-read the passages

of the pamphlet which have been distorted, cramped, compressed in an iron vice on account of the censor. That the period of imperialism is the eve of the socialist revolution; that social-chauvinism (socialism in words, chauvinism in deeds) is the utter betrayal of socialism, complete desertion to the side of the bourgeoisie; that this split in the working-class movement is bound up with the objective conditions of imperialism, etc.—on these matters I had to speak in a “slavish” tongue, and I must refer the reader who is interested in the subject to the articles I wrote abroad in 1914-17, a new edition of which is soon to appear. In order to show the reader, in a guise acceptable to the censors, how shamelessly untruthful the capitalists and the social-chauvinists who have deserted to their side (and whom Kautsky opposes so inconsistently) are on the question of annexations; in order to show how shamelessly they screen the annexations of their capitalists, I was forced to quote as an example—Japan! The careful reader will easily substitute Russia for Japan, and Finland, Poland, Courland, the Ukraine, Khiva, Bokhara, Estonia or other regions peopled by non-Great Russians, for Korea. I trust that this pamphlet will help the reader to understand the fundamental economic question, that of the economic essence of imperialism, for unless this is studied, it will be impossible to understand and appraise modern war and modern politics.

How Long Will South Africa Survive? Richard William

Johnson, 2015 In 1977, RW Johnson's best-selling *How Long Will South Africa Survive?* provided a controversial and highly original analysis of the survival prospects of the apartheid regime. Now, after more than twenty years of ANC rule, he believes the situation has become so critical that the question must be posed again. He moves from an analysis of Jacob Zuma's rule to the increasingly dire state of the South African economy, concluding that the

country is heading towards a likely International Monetary Fund bail-out which will in turn lead to a regime change of some kind.

Harris,2007 This catalogue accompanied an exhibition at the Groeninge Museum, Bruges, which celebrated one of the greatest European artists of the late fourteenth century, André Beauneveu, apparently born in Valenciennes c. 1335. Active throughout the Southern Netherlands, his reputation grew swiftly and in 1364 he was commissioned by the King of France, Charles V, to create a group of royal tombs at St Denis. In the 1370s he oversaw another ambitious funerary project, for Louis de Mâle, Count of Flanders, at Courtrai, whilst continuing to undertake major civic commissions at Ypres, Mechelen and his home town of Valenciennes.

Beauneveu spent the last years of his career in Bourges working for the most celebrated royal patron of all, Jean, Duc de Berry.

Riots and Pogroms Paul R. Brass,2016-07-27 Riots and Pogroms presents comparative studies of riots and pogroms in the twentieth century in Russia, Germany, Israel, India, and the United States, with a comparative, historical, and analytical introduction by the editor. The focus of the book is on the interpretive process which follows after the occurrence of riots and pogroms, rather than on the search for their causes. The concern of the editor and contributors is with the struggle for control over the meaning of riotous events, for the right to represent them properly.
