Nash-Healey: a Grand Alliance John Nikas,Hervé Chevalier,2023-11 Nash-Healey - A Grand Alliance examines in exquisite and exacting detail the story behind America's first postwar sports car and the unique Anglo-American partnership between Nash and Healey that gave it life, which became an international triumvirate with the later involvement of famed Italian coachbuilder Pinin Farina. Focusing on the lives and careers of the men behind these fantastic machines, this book dives into their prior accomplishments, before reviewing the design and development of the Nash-Healey roadsters and coupes. It also explores the marque's incredible competition record at iconic races like the Mille Miglia, 24 Hours of Le Mans and Alpine and Monte Carlo rallies. Lavishly illustrated with more than 1,000 images, most never before published, including several from Donald Healey's own personal photographic collection, this book is essential for all Nash-Healey enthusiasts and fans of sports cars from the breed's golden era.

The Big Healeys John Nikas,2017-07-15 The story of the iconic and powerful Big Austin-Healey sports cars.

Healey: The Men and the Machines John Nikas,2020-01-21 Written in collaboration with Gerry Coker, the designer responsible for the iconic Austin-Healey 100 and Sprite, this extraordinary volume represents the most accurate and complete account of the sports cars built at Warwick, Longbridge, Abingdon and West Bromwich. The author had unprecedented access to Donald and Geoffrey Healey's private papers, diaries, scrapbooks and photo albums, corporate and financial records from BMC, Donald Healey Motor Company and Healey Automobile Consultants, the files of Jensen Motors and Nash-Kelvinator, dozens of personal interviews and exhaustive research into previously unavailable primary source material. As a result, Healey: The Men and the Machines offers a compelling examination of the true story behind these incredible automobiles and the individuals who created them. From his early childhood and heroic service as an aviator in the Royal Flying Corps during the First World War, this book provides a comprehensive account of Donald Healey's motoring career, including competition outings and his involvement with Invicta, Riley and Triumph. The story of the Healey marque's birth during the darkest days of the Second World War is told through the words of the men involved, revealing the myriad obstacles that faced the small team during a period of strict rationing, limited resources and government meddling. Fast, elegant and endowed with excellent handling, the early Healey sports cars were among the fastest in the world, acquitted themselves admirably at events such as the Alpine Rally, Mille Miglia and the 24 Hours of Le Mans, but Warwick's survival was constantly in doubt until the landmark agreement that resulted in the Nash-Healey erased many of small firm's financial struggles. With access to Nash-Kelvinator's internal correspondence for the first time, the authors are able to set the record straight about this crucial period in the marque's history, including the controversial machinations behind the development of the Healey Hundred that made a smash debut at the 1952 London Motor Show. Lavishly illustrated with previously unpublished photographs, Austin-Healey competition and record-breaking efforts are covered in exquisite fashion, seen through the eyes of legendary names like Rauno Aaltonen, Clive Baker, Paddy Hopkirk, Count Johnny Lurani, Lance Macklin, Timo Mäkinen, Roger Menadue, Don and Erle Morley, Pat and Stirling Moss, Carroll Shelby, John Sprinzel, and Ann and Tommy Wisdom. Equally fascinating are the stories behind the troubled Jensen-Healey and Donald Healey's attempts to continue building sports cars well into the 1980s, refusing to enter a sedate retirement that would have been so richly deserved. Destined to become the definitive reference on the subject, Healey: The Men and the Machines includes over 200,000 words, more than 700 detailed footnotes, and eight appendices that cover the competition and record breaking activities of the various models, specifications for every model produced, including the limited production variants, and Donald Healey's personal musings on racing and sports car design. An instant classic, this is a work certain to inform and entertain enthusiasts of the men and machines that brought the world to its feet at a time when Britain was down on its knees.

How Bad Are Bananas? Mike Berners-Lee,2011-04-01 Part green-lifestyle guide, part popular science, How Bad Are Bananas? is the first book to provide the information we need to make carbon-savvy purchases and informed lifestyle choices and to build carbon considerations into our everyday thinking. The book puts our decisions into perspective with entries for the big things (the World Cup, volcanic eruptions, the Iraq war) as well as the small (email, ironing, a glass of beer). And it covers the range from birth (the carbon footprint of having a child) to death (the carbon impact of cremation). Packed full of surprises — a plastic bag has the smallest footprint of any item listed, while a block of cheese is bad news — the book continuously informs, delights, and engages the reader. Solidly researched and referenced, the easily digestible figures, statistics, charts, and graphs (including a section on the carbon footprint of various foods) will encourage discussion and help people to make up their own minds about their consumer choices.

Tiger Tank David Fletcher,David Willey,2020-02-18 The German Tiger I was the most feared battle tank of the Second World War. Its invincibility lay in its main 8.8cm gun and heavy defensive armour. Tiger Tank gives a rare insight into acquiring, owning and operating one of these awesome fighting machines, using the UK's Tank Museum's Tiger 131 – the only Tiger I in the world that has been restored to full running order. In addition to offering unique insights into maintenance and driving the Tiger, the book includes vivid personal recollections from wartime German tank crewmen and reveals what it was like to operate this 57-ton giant in combat. It was written by a team of experts from the Tank Museum who were closely involved with the strip-down and rebuild of the Tiger I. David Fletcher is a historian, a prolific author and a world expert on tanks. David Willey is a curator, and Mike Hayton is workshop manager. Other members of the writing team include volunteers Darren Hayton and Steven Vase, Mike Gibb of the SdKfz Military Vehicle Foundation and David Schofield, a specialist in forensic science.
