Cadillac Robert J Headrick Jr,2008-05-15 The tail fin era is one of the most recognized in automotive styling, and the influence spread worldwide. As everyone knows, designer Harley Earl took his inspiration from World War II fighter aircraft and the fins grew bolder and larger as competing manufacturers jumped on the bandwagon to produce the most striking vehicle, until they became almost outrageous and turned people off, and then became less prominent again through the 1960s. Cadillac: The Tail Fin Years, takes an in-depth look at the years from 1948 to 1964. A chapter is devoted to each model year and provides unique facts and features, historical information,

specifications, production numbers, options, prices, and more. And of course, the real heart of the book is the many colorful illustrations drawn from the exciting original sales and marketing materials, original factory photos, and examples of well-preserved originals still around today. Often the models featured are those that we all wish we had! Also featured are the famous jewelry ads through this special era in automotive history.

'53 Caddy Dick Burdette, 2016-01-20 DETROIT Late September, 1952

Mechanically, stylistically, there was nothing distinctive about the '53 Caddy four-door sedan when it came rolling off the assembly line. It was no different from scores of others emerging that day from the womb of the world's largest automobile manufacturing company. Its wheels were enhanced with shiny chrome covers, in the center of which glistened a bright round red and gold Cadillac emblem. A gold Cadillac V emblem adorned both the nose of the hood and the center of the trunk lid. Alas, some majestic birds fly higher, some mountains, some stars, some rainbows, loom larger, brighter, more regal, more imposing than others. And so it was for the '53 Caddy four-door sedan. For in the rarified air of automobile aristocracy it occupied, both in prestige and in price, the bottom of the top of the line below the two-door 62 series coup, the Coupe DeVille the 62 series convertible, Coupe DeVille convertible, and far, far below the gem of all 1953 crown-jewel models, the revolutionary, limited-edition, wrap-around-windshield El Dorado convertible. And so, as familiarity sometimes breeds contempt, so it was for

the relative snob-appeal stature of the '53 Caddy four-door sedan. It was destined to be looked up to by some, down on by others. What follows is the partially, or possibly, or at least every 50 pages or so, true story of one of them, a meandering madcap journey that began in Detroit, proceeded at one time or another to such well known places as Toledo, Ohio, Orlando, Fla., Mobile, Ala., Kansas City, Mo., Lexington, Ky. and Denver, Colorado as well as intermittent stops in such lesser and little-known spots as Otterville, Ohio; Carey, Ohio; Findlay, Ohio; Possum Hollow, Ky.; Sandy Hook, Ky.; Wakefield, Ohio; Portsmouth, Ohio; Liberty, Ky.; Corbin, Ky.; Hamilton, Ohio; Harlan County, Ky.; Calvary, Ga.; Crescent City, Fla.; Two Egg, Fla.; Hot Coffee, Miss.; Pine Ridge, Ark., Peculiar, Mo.; Oakley, Kan.; Burlington, Colo.; Red Feather Lakes, Colo. and Wellington, Colo. But '53 Caddy isn't so much the story about the car as it is that of those who adored, deplored, sold, purchased, pampered, traded, stole, wrecked, dismantled, repaired and ultimately tried to save it from the crusher; a tale of survival as well as a moveable smorgasbord of slapstick human passions, prejudices, beliefs, blunders, fears, fantasies follies, and foibles. And if that '53 Caddy could talk perhaps this is the story, or one reasonably similar, it would tell.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting

armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Machines of Youth Gary S. Cross, 2018-05-04 For American teenagers, getting a driver's license has long been a watershed moment, separating teens from their childish pasts as they accelerate toward the sweet, sweet freedom of their futures. With driver's license in hand, teens are on the road to buying and driving (and maybe even crashing) their first car, a machine which is home to many a teenage ritual—being picked up for a first date, “parking” at a

scenic overlook, or blasting the radio with a gaggle of friends in tow. So important is this car ride into adulthood that automobile culture has become a stand-in, a shortcut to what millions of Americans remember about their coming of age. *Machines of Youth* traces the rise, and more recently the fall, of car culture among American teens. In this book, Gary S. Cross details how an automobile obsession drove teen peer culture from the 1920s to the 1980s, seducing budding adults with privacy, freedom, mobility, and spontaneity. Cross shows how the automobile redefined relationships between parents and teenage children, becoming a rite of passage, producing new courtship rituals, and fueling the growth of numerous car subcultures. Yet for teenagers today the lure of the automobile as a transition to adulthood is in decline. Tinkerers are now sidelined by the advent of digital engine technology and premolded body construction, while the attention of teenagers has been captured by iPhones, video games, and other digital technology. And adults have become less tolerant of teens on the road, restricting both cruising and access to drivers' licenses. Cars are certainly not going out of style, Cross acknowledges, but how upcoming generations use them may be changing. He finds that while vibrant enthusiasm for them lives on, cars may no longer be at the center of how American youth define themselves. But, for generations of Americans, the modern teen experience was inextricably linked to this particularly American icon.

The Crooked Scythe George Ewart Evans, 2018-08-02 George Ewart Evans was one

of the pioneers of oral history. This anthology is drawn from his writings about the memories of men and women of a past era -- farm labourers, shepherds, horsemen, blacksmiths, wheelwrights, sailors, fishermen, miners, maltsters, domestic servants and many others. Ewart Evans gathered this unique testimony in rural East Anglia in the 1950s, just as mechanisation was taking over every aspect of life, preserving a wealth of human history and language in this fascinating and often moving anthology.

Conquer the Crash Robert R. Prechter, Jr., 2009-11-20 Today's financial and economic tribulations were a long time in the making. Many people ask, Why didn't someone see it coming? A New York Times bestselling book did see it coming. Over 100,000 people read it in time to protect their wealth. The book foresaw and explained the collapse in home prices, plunge in stocks, subprime debacle, liquidity crisis, the demise of Fannie and Freddie, the Federal Reserve's failure to turn the trend, and lots more. The book was Robert

Prechter's Conquer the Crash, published in early 2002, when the Dow was above 10,000 and the financial world was partying around-the-clock. Fast forward to today: the average U.S. homeowner has suffered a decline of 30% to 40% in property value. Stocks and commodities had their biggest fall since 1929-1932. Fannie Mae is a zombie corporation under the government's protection. The Fed has pushed every button at its disposal (and then some), to no avail. If Prechter thought a whole new book would help, he'd have written one. But Conquer the Crash is a book-length forecast that's still coming true -- only some of the future has caught up with the specific predictions he published back then. There is much more to come. That means more danger, but also great opportunity. Conquer the Crash, 2nd edition offers you 188 new pages of vital information (480 pages total) plus all the original forecasts and recommendations that make the book more compelling and relevant than the day it published. In every disaster, only a very few people prepare themselves beforehand. Think about investor enthusiasm in 2005-2008, and you'll realize it's true. Even fewer people will be ready for the soon-approaching, next leg down of the unfolding depression. In this 2nd edition, Prechter gives a warning he's never had to include in 30 years of publishing -- namely, that the doors to financial safety are closing all over the world. In other words, prudent people need to act while they can. Conquer the Crash, 2nd Edition readers will receive exclusive online access to the Conquer the Crash Readers Page, where Prechter continually updates the book's recommended

services and institutions.

A Letter to Tia Don Landy, 2013-07-11 Author Don Landy provides canine and feline pet owners with a first person look at grief and grieving in a way that may surprise you. Don Landy never expected to have a dog in his life. After falling for a German shepherd named Sabrina and spending nearly eleven years together, Landy found himself sitting on the floor holding the lifeless body of his beloved dog in his arms and sobbing uncontrollably. Reeling from the loss he vows never again to take a pet, and thereby sets himself up for the inevitable pain that most pet owners experience when the end approaches. A Letter to Tia: Grief. Grieving. The Love, Pain and Loss of a Friend is his personal account of coming face-to-face with grief and grieving. Pet owners of all ages will find comfort, insight, and at times humor in this reflective, life-affirming story of love and loss. A Letter to Tia recounts Landy's past and present struggle with the loss of pets. He starts with the death of his show cat, Charlie Brown, twenty-five years ago and continues through to the recent diagnosis received by Tia, his German shepherd. After the previous loss of Sabrina, Landy and his wife accepted Tia into their lives with understandable trepidation. To insure they made the right move they test the relationship between Tia and their kitten Holly and discover they have become fast friends. However, when Tia is diagnosed with inoperable cancer at four years old, the author finds himself staring down the prospect of consuming sadness over the grim forecast for her survival. Landy chooses

to process his grief full-on, identifying the tremendous toll that loss takes on pet owners, and how best to cope with the emotions that accompany it. With a life enriched by memories of his meaningful times with Tia, Landy's book addresses this exceptional feeling of loss, while also offering proof that miracles do happen. A moving tribute to the strong love that is forged between pets and pet owners, *A Letter to Tia: Grief. Grieving. The Love, Pain and Loss of a Friend* is sure to provide readers with a good cry, and a good laugh, as his compassionate, deeply felt, and surprising book celebrates this extraordinary bond.
