1970 Plymouth Superbird Geoff Stunkard, 2018-04-16 Petty signs with Ford! Those four words tore through the racing world like a hot knife through butter while loyalists threw their hands up in disbelief. King Richard's defection was in part because Plymouth hadn't built a Dodge Daytona counterpart for the NASCAR circuit, in addition to the fact that Petty Enterprises wanted to be the sole racing parts distributor for Plymouth at the time. Plymouth weathered the backlash publically while privately scurrying to create a car to lure Richard back to Plymouth. That car? The 1970 Plymouth Superbird. Production models languished on salesroom floors due in part to NASCAR having increased the homologation requirement from 500 units to 2,000. These cars were highly specialized, seen as being in excess in proportion to the hottest street cars of the period. Fast-forward to today, Superbirds are highly collectible and are the star attractions at car shows and auctions, pulling top dollar and generating real excitement. What a difference a few decades makes! Each volume in the In Detail Series provides an introduction and historical overview, an explanation of the design and concepts involved in creating the car, a look at marketing and promotion, an in-depth study of all hardware and available options, and an examination of where the car is on the market today. Also included are paint and option codes, VIN and build tag decoders, as well as production numbers.

How to Build Max-Performance Mopar Big Blocks Andrew Finkbeiner, 2009 Naturally aspirated Mopar Wedge big-blocks are quite capable of producing between 600 to 900 horsepower. This book covers how to build Mopar's 383-, 400-, 413-ci, 440-ci engines to these power levels. Discussed is how to select a stock or aftermarket block for the desired performance level. The reciprocating assembly is examined in detail, so you select the right design and material for durability and performance requirements. Cylinder heads and valve train configurations are crucial for generating maximum horsepower and torque and this volume provides special treatment in this area. Camshafts and lifters are compared and contrasted using hydraulic flat tappet, hydraulic roller and solid flat tappet cams. Also, detailed engine builds at 600, 700, 800, and 900 horsepower levels provide insight and reveal what can be done with real-world component packages.

Iacocca Lee Iacocca, William Novak, 1986-06-01 "Vintage Iacocca . . . He is fast-talking, blunt, boastful, and unabashedly patriotic. Lee Iacocca is also a genuine folk hero. . . . His career is breathtaking."—Business Week He's an American legend, a straight-shooting businessman who brought Chrysler back from the brink and in the process became a media celebrity, newsmaker, and a man many had urged to run for president. The son of Italian immigrants, Lee Iacocca rose spectacularly through the ranks of Ford Motor Company to become its president, only to be toppled eight years later in a power play that should have shattered him. But Lee Iacocca didn't get mad, he got even. He led a battle for Chrysler's survival that made his name a symbol of integrity, know-how, and guts for millions of Americans. In his classic hard-hitting style, he tells us how he changed the automobile industry in the 1960s by creating the phenomenal Mustang. He goes behind the scenes for a look at Henry Ford's reign of intimidation and manipulation. He recounts the miraculous rebirth of Chrysler from near bankruptcy to repayment of its \$1.2 billion government loan

so early that Washington didn't know how to cash the check.

Chrysler's Turbine Car Steve Lehto, Jay Leno, 2010-10-01 Offering a behind-the-scenes look into the world of automotive research and development in the 1960s, this engaging narrative traces the birth of Chrysler's alternative "jet" car and reveals the story behind its sudden and mysterious demise. Relying on extensive research and firsthand accounts from surviving members of the turbine car program—including the metallurgist who created the exotic metals for the engine and the test driver who drove it at Chrysler's proving grounds—this chronicle documents the bold development of an automobile with a jet turbine engine. In addition to running well on virtually any flammable liquid—including kerosene, vodka, heating oil, and Chanel N°5 perfume—the pioneering engines had one fifth the number of moving parts and required less maintenance than conventional engines. Despite the fleet's amazing performance over millions of miles by test drivers, Chrysler pulled the plug on the project and crushed almost all of the cars. The reasons behind the surprising end to the jet car fleet are finally explained here.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Don "The Snake" Prudhomme: My Life Beyond the 1320 Elana Scherr, Don Prudhomme, 2020-10-16 Don The Snake Prudhomme reveals for the first time ever his incredible life and career on and off of the drag strip.

Imagine spending a year with Don The Snake Prudhomme, having coffee together and talking about his life, his racing, his friends, and his family. He'd tell you about how he rose from being a high school drop-out who was painting cars to a respected Top Fuel dragster driver and successful businessman. You'd hear how he toured the country with Tommy Ivo and The Hawaiian Roland Leong, racing all the legends from Big Daddy Don Garlits to The Golden Greek [Chris] Karamesines. He'd say how he met Tom McEwen and recall how they became the Snake and the Mongoose, leading to a career in Funny Cars that netted him four championships in a row. He'd talk about the thrill of first wins and owning his own teams but also the struggles of bad seasons, crashes and fires, broken parts, and broken contracts. Along the way, he'd speak about the people in his life, such as engine-builder Keith Black and NHRA president Wally Parks, and those who were killed in the wild and unpredictable sport of nitro racing. It wouldn't be only racing, though. Prudhomme would

share lessons he learned about business and life from such varied sources as a neighbor in Granada Hills to Ford GT40 driver Dan Gurney. He also would talk about the importance of family: how his wife, Lynn, and daughter, Donna, changed his world and how finding out about his African-American roots opened his eyes to a culture and inheritance he'd always wanted. This is the experience you'll get in *Don The Snake Prudhomme: My Life Beyond the 1320*.

Glory Days Paul Zazarine, Jim Wangers, Paul Zazarrine, 1998 Any car maker's greatest asset is their perceived image in the marketplace. Wangers knows what he is talking about, for he was part of the most successful brand marketing campaign to ever come out of Detroit. At a time when such automotive legends as Bunkie Knudsen, Pete Estes, and John DeLorean held sway in the Motor City, Jim Wangers created and defined the American musclecar image, devising savvy brand marketing strategies to promote the car that started it all and became a cultural icon: the Pontiac GTO.
