**NoNonsense Feminism** Nikki van der Gaag ,2018-02-22 We were supposed to be in a 'postfeminist' age. But recently we've seen a resurgence of feminist campaigning among women (and some men). There's a new brand of feminism: young, social media savvy, militant. But there's also a new kind of backlash, driven by so-called fundamentalists and by increasingly overt misogyny. This book takes an international perspective on the new feminist movements.

**Debates in Design and Technology Education** Gwyneth Owen-Jackson,2013-08-21 Design and Technology has long held a controversial place on the school curriculum, with some arguing that it shouldn't be there at all. This book presents and questions considered arguments and judgements, and explores the major issues that all D&T teachers encounter in their daily professional lives. In exploring some of the key debates, it encourages critical reflection and aims to stimulate both novice and experienced teachers to think more deeply about their practice, and link research and evidence to what they have observed in schools. Written by expert design and technology education professionals, chapters tackle established and contemporary issues, enabling you to reach informed judgements and argue your point of view with deeper theoretical knowledge and understanding. Debates covered include: What is the purpose of design and technology? Is it a vocational or academic subject? What is the place of design and technology within the STEM agenda? What knowledge and skills do teachers really need? What does the design and technology gender divide mean for schools and pupils? Is it a 'creative' subject? What is the future for design and technology? With its combination of expert opinion and fresh insight, *Debates in Design and Technology Education* is the ideal companion for any student or practising teacher engaged in initial training, continuing professional development or Masters level study.

*Social Development* Ross D. Parke, Glenn I. Roisman, Amanda J. Rose, 2019-03-26 Social Development provides a comprehensive introduction to the multiple factors that shape a child's behavior, interaction with others, feelings about themselves, and how and why behaviors change over time. Delving into the biological, cognitive, and perceptual aspects of development and their influence on behavior, socialization, and self-image, this text also recognizes the significance of cultural and societal distinctions by emphasizing the value of context and identifying cultural variation's role in social development. Special pedagogical features in each chapter enhance the learning experience and promote student understanding: counter-intuitive examples cases challenge reader assumptions, coverage of extreme cases tell the story behind historical advancements, and profiles of current leaders in the field highlight the many paths to a career in social development. With a focus on real-world application, coupled with coverage of cutting-edge methodologies and the latest research findings, this book gives students a strong, highly relevant foundation in core concepts and practices central to the study of social development.

*Feminism and Men* Nikki van der Gaag, 2014-08-14 Feminism has changed the world; it is radically reshaping women's lives. But what about men? They still hold most of the power in the economy, in government, in religions, in the media and often in the family too. At the same time, many men are questioning traditional views about what it means to be a man. Others resent the gains women have made and want to turn back the clock. Nikki van der Gaag asks the question: how might feminism improve the lives of men as well as women? And is there a place for men in the feminist story?

**Female-Perpetrated Sex Abuse** Sherianne Kramer, 2017-06-26 Female-Perpetrated Sex Abuse is a groundbreaking study into gender, sexuality and victimhood. It examines the cultural conditions of possibility for FSA victimhood as a means to advance contemporary critical understandings of the role of gender and sexuality as instruments of modern power. As the first direct exploration of FSA victimhood, this book analyses: why victims of FSA remain so underexplored and invisible as objects of human science knowledge; the limited and overly rigid discourses in local and global psychological theory and practice that continues to treat particular subjects as 'victim worthy' through paradigms that construct victimhood as gendered; and the possibility of new discourses that could disrupt normative understandings of gender, sexuality, and power in sex abuse, and as constitutive to the beginnings of a counter-knowledge on transgressive sexualities. By tracing the historical and cultural conditions of the emergence of FSA broadly and FSA victimhood specifically, Kramer illustrates how deeply engrained constructions of gender and sexuality both produce and constrain the possibilities for reporting, disclosing and self-identifying victimhood. Female-Perpetrated Sex Abuse is essential reading for academics, researchers and students alike, in the areas of psychology, sociology, gender studies, criminology, counselling and social work.

Clinical Psychology and Adolescent Girls in a Postfeminist Era Rosalyn H. Shute, 2018-02-02 Adolescent girls' wellbeing is under threat. They face pressure to achieve academically while simultaneously negotiating a life dominated by social media, an unrelenting focus on appearance, cyberbullying, sexual harassment and ready access to pornography characterised by male violence to women. The sociocultural environment presents significant risks for girls' mental health, yet clinical psychology remains largely focused on the individual. Cultural factors are also overshadowed by postfeminist forces and a renewed emphasis on biological determinants of psychological sex differences. *Clinical Psychology and Adolescent Girls in a Postfeminist Era* goes back to first principles and revisits the question of the place of nature and nurture in children's development, in the light of what we now know about neural plasticity, dynamic systems and gender socialisation. Feminism and its sometimes uncomfortable relationship with psychology is discussed, as are the meaning and implications of 'postfeminism', and whether girls have 'special strengths'. Practice principles and specific ideas for practice with today's girls are all included. Finally, there is a complementary chapter on working with adolescent boys. Feminist writings about psychotherapy (with women) had their heyday some time ago, and some see boys as the ones who now need special attention. This book contends that the changing pressures of today's western world call for a renewed interest in specialised practice with girls, taking account of up-to-date theories about child development, and exploring the idea of expanding clinical practice beyond the individual.

**Equity, Equality and Diversity in the Nordic Model of Education** Tove Stjern Frønes, Andreas Pettersen, Jelena Radišić, Nils Buchholtz, 2021-01-21 Does the Nordic model of education still stand by its original principles and safeguard education for all? This Open Access volume is a carefully crafted collection of chapters that investigate the different aspects of equity,

equality and diversity across the education systems in the Nordic countries. Based on data from various national and international large-scale assessments, the volume provides a better understanding of both the functions and foundations of the Nordic model, along with how the concepts mentioned above are enacted in practice. Across the chapters, data from different national and international large-scale assessment studies are used for cross- and single-country analyses on a variety of issues related to equity, equality and inequality in diverse educational settings. The investigations address different subject domains (i.e., mathematics, science, reading), age and grade groups, but also issues related to teachers and the schools themselves. In addition to these empirical chapters, the book addresses the theoretical and methodological underpinnings of the ideas and tools embedded in the phenomena of equity and equality and how they have met in the Nordic model of education.

**Paper Dolls** Katherine H. Adams, Michael L. Keene, 2017-08-23 Paper dolls might seem the height of simplicity--quaint but simple toys, nothing more. But through the centuries paper figures have reflected religious and political beliefs, notions of womanhood, motherhood and family, the dictates of fashion, approaches to education, individual self-image and self-esteem, and ideas about death. This book examines paper dolls and their symbolism--from icons made by priests in ancient China to printable Kim Kardashians on the Internet--to show how these ephemeral objects have an enduring and sometimes surprising presence in history and culture.

The Truth About Girls and Boys Caryl Rivers, Rosalind C. Barnett, 2011-09-27 Caryl Rivers and Rosalind C. Barnett are widely acclaimed for their analyses of women, men, and society. In *The Truth About Girls and Boys*, they tackle a new, troubling trend in the theorizing of gender: that the learning styles, brain development, motivation, cognitive and spatial abilities, and natural inclinations of girls and boys are so fundamentally different, they require unique styles of parenting and education. Ignoring the science that challenges these claims, those who promote such theories make millions while frightening parents and educators into enforcing old stereotypes and reviving unhealthy attitudes in the classroom. Rivers and Barnett unmake the pseudoscientific rationale for this argument, stressing the individuality of each child and the specialness of his or her talents and desires. They recognize that in our culture, girls and boys encounter different stimuli and experiences, yet encouraging children to venture outside their comfort zones helps them realize a multifaceted character. Educating parents, teachers, and general readers in the true nature of the gender game, Rivers and Barnett enable future generations to transform if not transcend the parameters of sexual difference.

*Mapping the Field* Jane Martin, Marion Bowl, Gemma Banks, 2023-10-04 From its origins in the University of Birmingham's then Institute of Education in 1948, *Educational Review* has emerged as a leading international journal for generic educational research. Seventy-five years on, *Mapping the Field* presents a detailed account of education theory and research, policy, and practice through the lens of key articles published in the journal over this timespan. Volume II opens with Part I, a collection of articles examining teachers' job (dis/)satisfaction and stress, and the gendered composition of the teaching workforce. Articles in Part II trace a shift in academic focus from schools seen as families/communities, to the parent-school relationship.

The concepts of inclusion and equality—and strategies for their fulfilment in education—are interrogated in Part III. The volume concludes with Part IV, in which diverse identities in the education field are represented. Curated and introduced by the editors, the articles included in both volumes of Mapping the Field represent a careful selection from the work of scholars whose ideas have been, and continue to be, influential in the field of education. Overall, this major text covers a wide range of topics and offers original insights into educational policy, provision, processes, and practice from around the world.

**Global Problems, Global Solutions** JoAnn Chirico, 2018-10-11 *Global Problems, Global Solutions: Prospects for a Better World* approaches social problems from a global perspective with an emphasis on using one's sociological imagination. Perfect for instructors who involve students in research, this text connects problems borne by individuals to regional, global and historical forces, and stresses the importance of evidence in forming opinions and policies addressing social issues. The book introduces readers to the complexities of the major problems that confront us today such as violent conflict, poverty, climate change, human trafficking and other issues that we encounter in our lives. It book concludes with a chapter on politics and government, underscoring the need for good governance at all levels—and cooperation among many layers of government—to build a better world.

**Becoming Sexual** R. Danielle Egan, 2013-05-13 The sexualization of girls has captured the attention of the media, advocacy groups and politicians in recent years. This prolific discourse sets alarm bells ringing: sexualization is said to lead to depression, promiscuity and compassion deficit disorder, and rob young girls of their childhood. However, measuring such claims against a wide range of data sources reveals a far more complicated picture. *Becoming Sexual* begins with a simple question: why does this discourse feel so natural? Analyzing potent cultural and historical assumptions, and subjecting them to measured investigation, R. Danielle Egan illuminates the implications of dominant thinking on sexualization. The sexualized girl functions as a metaphor for cultural decay and as a common enemy through which adult rage, discontent and anxiety regarding class, gender, sexuality, race and the future can be expressed. Egan argues that, ultimately, the popular literature on sexualization is more reflective of adult disquiet than it is about the lives and practices of girls. *Becoming Sexual* will be a welcome intervention into these fraught polemics for anyone interested in engaging with a high-profile contemporary debate, and will be particularly useful for students of sociology, cultural studies, childhood studies, gender studies and media studies.

**Singapore Literature and Culture** Angelia Mui Cheng Poon,Angus Whitehead,2017-03-03 Since the nation-state sprang into being in 1965, Singapore literature in English has blossomed energetically, and yet there have been few books focusing on contextualizing and analyzing Singapore literature despite the increasing international attention garnered by Singaporean writers. This volume brings Anglophone Singapore literature to a wider global audience for the first time, embedding it more closely within literary developments worldwide. Drawing upon postcolonial studies, Singapore studies, and critical discussions in transnationalism and globalization, essays unearth and introduce neglected writers, cast new light on established writers, and examine texts in relation to their specific Singaporean local-historical contexts while also engaging with contemporary issues in Singapore society. Singaporean writers are producing work informed by debates and trends in queer studies, feminism, multiculturalism and social justice -- work which urgently calls for scholarly engagement. This groundbreaking collection of essays aims to set new directions for further scholarship in this exciting and various body of writing from a place that, despite being just a small 'red dot' on the global map, has much to say to scholars and students worldwide interested in issues of nationalism, diaspora, cosmopolitanism, neoliberalism, immigration, urban space, as well as literary form and content. This book brings Singapore literature and literary criticism into greater global legibility and charts pathways for future developments.

**Inclusive Education** Vicky Plows,Ben Whitburn,2017-01-28 Inclusive education has emerged internationally over the past thirty years as a way of developing democratic citizenship. Core to inclusive principles are that improved equity

in education can only be achieved by eliminating the economic, cultural and physical barriers that currently impede learning for particular students. To strengthen inclusive practice to this end inexorably requires that we attempt to make sense of it in its current form: to examine how it is enacted in educational settings from early childhood, schools, and communities and further and higher education; to contemplate the restrictions that it might inadvertently create; and to consider its effects on members of educational communities. Contributions to this edited collection represent diverse perspectives, yet share a commitment to challenging existing forms of educational marginalisation through policy, practice, theory and pedagogy. The chapters emerged from discussions at the inaugural Inclusive Education Summit that was held at Victoria University, Australia in 2015. They present research that was conducted in Australia, New Zealand, Indonesia, Bangladesh, Spain and the UK—illustrating transnational interests and diverse approaches to practice. Presented in four sections—provocations, pushing boundaries, diverse voices, and reflections, the chapters explore everyday practice across a range of contexts: from educating culturally and linguistically diverse, refugee, and/or socially and economically disadvantaged students, to issues of diversity brought about by and through gender, giftedness and disability. The book will appeal to academics, students and practitioners in disciplines including: education, sociology, social work, social policy, early childhood, disability studies, and youth studies.
