Sport, Tourism and National Identities John Harris, 2016-03-23 The role of both sport and tourism in the (re)creation and (re)presentation of national identities is well established, yet relatively little work has critically explored the inter-relationship between sport, tourism and the creation and maintenance of national identities. Despite the advances of globalization, the nation continues to be an important part of both sport and tourism discourse and offers fertile ground for the exploration of identities in postmodern society. The chapters in this collection consider the significance of important sports events and how this is understood in relation to the collective identities of some countries. Authors outline some of the ways in which the nation matters, and consider how and why national identities are important in contemporary sport tourism. This book was originally published as a special issue of the Journal of Sport & Tourism.

Global LGBTQ Activism Paromita Pain,2023-09-29 Focused on understanding and analyzing LGBTQ activism and protest globally, this edited collection brings together voices from different parts of the world to examine LGBTQ protests and their impact. Through the lens of media, culture, and sociopolitical structures, this collection highlights how cultural and technical factors like the emergence of social media and other digital platforms have impacted LGBTQ activism. This book draws on studies from countries as varied as Zimbabwe, Bangladesh, Sri Lanka, Hungary, Morocco, China, and the US. The contributions provide important insight into how social media and digital platforms have provided space for self-expression and protest and encouraged advocacy and empowerment for LGBTQ movements. It also examines the diversity and similarities between different national contexts and the various obstacles faced, while spotlighting countries that are traditionally understudied in Western academia, in an important step toward decolonizing research. Each chapter, through the voices of activists and media scholars, moves beyond an oversimplified examination of queer protests to show, in rich

detail, the exciting yet complicated terrain of queer protests throughout the globe. This book is suitable for media, communication, and cultural studies students; researchers; academics; and LGBTQ activists, as well as students and scholars from related academic disciplines.

The European Football Championship Albrecht Sonntag, Alexandra Schwell, Basak Alpan, 2015-11-08 The UEFA European football championship was the first European

mega-event to take place in post-socialist Europe. Taking this as a departure point, this volume focuses on football as a realm of constructing and negotiating identities using rich ethnographic fieldwork and in-depth media analysis.

Business Environment in a Global Context Andrew Harrison, 2009-12-17 This textbook on the business environment is written specifically for postgraduate courses, providing the theoretical rigour and international focus required. Local Music Scenes and Globalization Thomas Burkhalter, 2014-04-16 This book offers the first in-depth study of experimental and popular music scenes in Beirut, looking at musicians working towards a new understanding of musical creativity and music culture in a country that is dominated by mass-mediated pop music, and propaganda. Burkhalter studies the generation of musicians born at the beginning of the Civil War in the Lebanese capital, an urban and cosmopolitan center with a long tradition of cultural activities and exchanges with the Arab world, Europe, the US, and the former Soviet Union. These Lebanese rappers, rockers, death-metal, jazz, and electro-acoustic musicians and free improvisers choose local and transnational forms to express their connection to the broader musical, cultural, social, and political environment. Burkhalter explores how these musicians organize their own small concerts for 'insider' audiences, set up music labels, and network with like-minded musicians in Europe, the US, and the Arab world. Several key tracks are analyzed with methods from ethnomusicology, and popular music studies, and contextualized through interviews with the musicians. Discussing key references from

belly dance culture (1960s), psychedelic rock in Beirut (1970s), the noises of the Lebanese Civil war (1975-1990), and transnational Pop-Avant-Gardes and World Music 2.0 networks, this book contributes to the study of localization and globalization processes in music in an increasingly digitalized and transnational world. At the core, this music from Beirut challenges ethnocentric perceptions of locality in music. It attacks both Orientalist readings of the Arab world, the Middle East, and Lebanon, and the focus on musical difference in Euro-American music and culture markets. On theoretical grounds, this music is a small, but passionate attempt to re-shape the world into a place where modernity is not euro-modernity or euro-american modernity, but where possible new configurations of modernity exist next to each other.

Sex Segregation in Sports Adrienne N. Milner,Jomills Henry Braddock II,2016-02-12
Why isn't segregation based on sex illegal in sports just as race segregation is? This book examines the controversial issue, arguing that separate but equal is neither achievable nor constitutional. Will the creation of coed teams help mitigate issues of perceived sex discrimination in sports, or will equity among male and female athletes come from better enforcement of the separate but equal ideal? This book examines this highly charged issue, specifically challenging the effectiveness of Title IX and arguing that it be ousted in favor of sex integration. This is the first book to present both legal and social arguments for the elimination of sex segregation in sports and provide tangible solutions to address this issue. Authors Adrienne N. Milner and Jomills Henry Braddock II lay out the potential benefits of comingling male and female athletes, illustrating how this process may

translate to greater sex equality in social, economic, and political contexts. In addition, this forward-thinking work offers specific recommendations for facilitating the integration of sexes in sports and discusses the importance of changing attitudes and ideology within the sports community and the general public to achieve this goal.

Scotland Murray Stewart Leith, Duncan Sim, 2020-04-07 Scotland's future in the Union is in question. Since Devolution in 1997, there has been a sea-change in Scotland's sense of itself. A distinct Scottish political culture has emerged: confident, assertive and increasingly divergent from that of its southern neighbours. Yet, as this timely and perceptive book shows, Scottish nationalism has been on the rise since the Second World War. Today, the Scottish National Party are in the ascendant, winning nearly half of all votes cast in the 2019 General Election and most of the seats. The Scottish Parliament has been a legislative trail-blazer, enacting progressive legislation well before England and Wales. And Scotland voted overwhelmingly to remain in the European Union, putting it at odds with much of the rest of the United Kingdom on the most important political decision this century. The country has transformed from the socially and politically conservative climate of the post-war period to a nation contemplating, for the second time, a move to independence – for all the uncertainty and turmoil that would bring. At a time when the country's future has topped the agenda in Britain and abroad, this book unpicks the complex weave of Scottish politics, society and culture, providing an essential insight into Scotland's present – and its future.
