In Steampunk circles, jewelry-makers are often master metalsmiths who combine found objects with fine metals to create elaborate pieces. Each project provides a complete materials and tools list, step-by-step instructions, and clear illustrations. This book offers a broad overview of a growing design trend that is part of the literary, industrial design, fashion, and popular culture scene. One ill-fated evening, Star jeopardizes her family's business, her relationship with her boyfriend, and her future career. To redeem herself, she agrees to participate in a national craft competition, teaming up with her best friend, Ofelia—a secretly troubled mother whose love for crafting borders on obsession—and local celebrity Chloe Chavez—a determined television personality with more than one skeleton in her professional closet.
