**Traction Man Meets Turbo Dog** Mini Grey,2011-08-31 THAT SQUARE-JAWED CAN-DO action toy, Traction Man, is back in another hilarious adventure. The little boy, Traction Man, and his brave pet, Scrubbing Brush, are inseparable—until the boy's father throws the “unhygienic” Scrubbing Brush in the trash and replaces it with a “real” toy, the battery-operated TurboDog. It bleeps, speaks, and squeaks—but is not very smart. So Traction Man, wearing his airtight Astro-suit and armed with a bottle of SuperStrong Germo, enters the trash bin and rescues Scrubbing Brush from the Evil Bin Things (pizza crusts, spaghetti, and potato peels with eyes and mouths that hiss “Stay with us”). The Battle of the Bin is not to be missed—nor is the ignominious demise of TurboDog! With this satisfying sequel, Mini Grey has scored another smashing victory for imaginative play.

**New Perspectives on the Japanese Occupation in Malaya and Singapore, 1941-1945** Yōji Akashi,Mako Yoshimura,2008-12-01 Information on the Japanese Occupation of Malaya and Singapore is sparse, and Japanese-language materials are particularly difficult to find because the Japanese military systematically destroyed war-related documents when the war ended. The contributors to this volume participated in a Forum that spent four years locating surviving materials relating to the Occupation of Malaya. The group has three objectives: to collect primary sources, to interview Japanese military and civilian officials who took part in the military administration and people in Malaysia and Singapore who experienced the period, and to publish the results of the studies. Based on interviews with Japanese, Malaysians and Singaporeans who lived through the war years and materials gathered from archives and libraries in Britain, Malaysia, Singapore, USA, Australia, and India, the Forum has produced a number of Japanese-language publications. This book makes available some of their research findings in English. Topics covered include the Watanabe Military Administration, Japanese research activities in Malaya, Japan's Economic Policies, Malayan Communist Party Leaders and the Anti-Japanese Resistance, the Massacre of Chinese in Singapore, Railway Transportation during the Japanese Occupation Period, The Singapore internment Camp for Allied Civilian Women, and the Japanese Surrender. This volume is a revised version of Akashi Yoji, ed., Nippon Senryoka no Eiryo Maraya/Shingaporu (Tokyo: Iwanami Shoten Publishers, 2001). Book jacket.

**Sailing Made Easy** American Sailing,2010-01-01 Sailing Made Easy is the first step in a voyage that will last you the rest of your life. It is a gift from a group of dedicated sailing professionals who have committed their lives to sharing their art, their skill, and their passion for this wonderful activity. This book, which Sailing Magazine called best in class upon its release in 2010, is the most comprehensive education and boating safety learn-to-sail guide to date. It is also the official textbook for the ASA Basic Keelboat Standard (ASA 101). Incorporated in the textbook are useful illustrations and exceptional photographs of complex sailing concepts. The text's most distinguishing feature is its user friendly spreads in which instructional topics are self-contained on opposing pages throughout the book. There are also chapter end quizzes and a glossary to help those new to sailing to navigate their way through the extensive nautical terminology.

**Humble Homes, Simple Shacks, Cozy Cottages, Ramshackle Retreats, Funky Forts** Dr Derek Diedricksen,2012-02-01 This Old House meets Wayne’s World in this zany guide to designing and building tiny homes Derek Diedricksen has always had a love for small, modest houses ever since his father gave him the book Tiny Tiny Houses by Lester Walker for his tenth birthday. Combining his artistic abilities, wild imagination, and his passion for small houses, he self-published Humble Homes, Simple Shacks, Cozy Cottages, Ramshackle Retreats, Funky Forts, and Whatever the Heck Else we could Squeeze in Here in 2009. This book is a collection of Diedricksen’s creative/imaginative sketches for building small houses, shacks, cottages, and forts. The sketches are accompanied with hand-written commentary, both instructive and comical. Derek’s main purpose is to get your creative juices flowing and encourage you to get off the couch and use your hands. Believing that specific building plans squash creativity, he avoids too many detailed instructions, giving you the chance to put your own creative spin on your very own small abode (even if it is just in your imagination).

**Knock 'em Dead 2005** Martin John Yate,2004  
Twist and Tess Miguel A. Gañan,2020-10-20 With a prologue by Tomoko Fuse, the worldwide renowned Japanese origami master, the book contains 26 of my favourite tessellations, along other designs derived from those models (3 boxes and 2 omiyage/tato). The book starts with an introduction to the origins and history of tessellations and describes the techniques and materials needed by those who want to begin with this kind of origami. The models are sorted based on the twists used in each one and include suggestions based on my own folding experience. For each model, a CP (crease pattern) is included, along with step by step instructions to fold it. Those instructions contain diagrams and their related text. At the end of each model you can see the picture of the finished model (usually in the extended version). Scattered between the different models, the reader can see the original hand drawn diagrams by Alejandra Zapico, that were the base of the final computer drawn diagrams. At the end of the book, there are several appendices, such as a small english-spanish origami dictionary, the symbol guide for those used in the book and several references related to tessellations.
