**Achtung-Panzer!** Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

**Suburban Remix** Jason Beske,David Dixon,2018-02 Investment has flooded back to cities because dense, walkable, mixed-use urban environments offer choices that support diverse dreams. Auto-oriented, single-use suburbs have a hard time competing. Suburban Remix brings together experts in planning, urban design, real estate development, and urban policy to demonstrate how suburbs can use growing demand for urban living to renew their appeal as places to live, work, play, and invest. The case studies and analysis show how compact new urban places are

being created in suburbs to produce health, economic, and environmental benefits, and contribute to solving a growing equity crisis.

**The Word Witch** Margaret Mahy, 2009 Do you know about the Word Witch? Has she cast her spell over you? This bestselling book now comes with a CD of poems performed by Margaret Mahy. She can lasso with a limerick, haunt with a haiku and wrap you tight in a rhyme, quick as lightning. Her cauldron is a dictionary, her wand a mighty pen, and she stirs her words at midnight, making tempting treats for children, to please and tease and tantalise them with imaginary treasures and delectable dreams. She weaves words into adventures, sets verses wildly dancing, makes similes sing and stamp their feet and poems purr like pussycats who've eaten all the cream. Her name is Margaret Mahy. These are her spells.

*Jungle Night (comes with 2 free audio downloads, Yo-Yo Ma, cello)* Sandra Boynton, 2021-03-23 Sandra Boynton and Yo-Yo Ma! Plus snoozing jungle animals! Two celebrated artists come together for JUNGLE NIGHT, a soothing bedtime board book. (Okay, MOSTLY soothing.) The book guides us through the jungle to hear the distinctive, gentle snore of each animal: Listen to the tiger: ZEEE-ZOOO-HAAA. Listen to the cheetah: CHEE-CHEE-TAAAH. A free downloadable JUNGLE NIGHT recording offers a narration of the book, with each and every animal snore interpreted by the expressive, playful cello of Yo-Yo Ma. He even does the elephant's stop-the-show snore—though admittedly that took Ma's cello PLUS the classic horn salute of the James R. Barker steamship. (Seriously.) All of this fabulousness leads into the coolest lullaby ever: Jungle Gymnopedie No. 1, a polyrhythmic jungly arrangement by Boynton of Erik Satie's renowned piece, with Yo-Yo Ma on cello, guitar played by Ron Block of Alison Krauss Union Station, and drums by Kevin MacLeod. Yo-Yo and I chose this piece because it's the most gorgeous and mesmerizing night song imaginable, explains Boynton. And there was surely nothing else that could get those animals back to sleep after that elephant blast.

*Historical Atlas of Early Railways* Derek Hayes, 2017 In a sense the very earliest railways were simply ruts caused by the passage of carts on softer ground. Railways of this nature may have been in use as early as 2200 BCE. But railways became a worldwide economic force only in the middle of the nineteenth century, some forty or fifty years after the first demonstration of a mechanically powered train. What radically changed--in the space of less than three decades--was the method of propulsion, from human or horse power to steam powered travelling engines, the forerunners of the modern railway locomotive. Such railways enabled faster, more efficient transport of people and goods, opened the world to settlement and changed the nature of war, allowing supplies and soldiers to be moved much faster than on horseback or on foot. Historical Atlas of Early Railways highlights the innovations, failures and most memorable moments of railways through the ages. Read about a variety of designs and inventions including the steam underground in 1863, rack and mountain railways, electric railways, monorails and atmospheric railways. Study the world's oldest surviving railway map. This newest addition to the popular Historical Atlas Series features 320 maps and 450 photos and other illustrations, and is a beautifully designed chronicle for anyone who has a fondness for history, maps or trains.

*The Ghastly One* Jimmy McDonough, 2001 From 1965 to 1972 Andy Milligan made 20 exploitation movies. For him exploitation was no joke; it was his reality. But *The Ghastly One* isn't just about a lunatic with a movie camera. It's an anecdotal history of exploitation films, the birth of off-

Broadway theater, the Warhol crowd, and the malevolent place called Times Square. 91 photos.

**Introducing Transformational Grammar** Jamal Ouhalla, 1999 The first edition of this book quickly established itself as one of the clearest and most readable introductions to generative grammar. Together with a complete introduction to the principles of Universal Grammar, it traced the major shifts of perspective that have influenced the developments of the theory over the last forty years. This revised and expanded new edition introduces students with no previous training to Transformational Grammar. Covering the framework known as Principles and Parameters as well as the more recent framework known as Minimalism, it includes a range of new exercises, making it ideal for students at all levels.

1001 Walks Barry Stone, 2018-10-04 1001 Walks You Must Experience Before You Die is the perfect guide to the world's most exhilarating walks. The ever-increasing passion for recreational walking is given fresh impetus with the creation of each new national park and wilderness area, the construction of every new walkway and the clearing of another fresh trail. The growth in popularity of pathways and woodland walks, and the conversion of canal banks and disused railways around the world to mixed-use walk and cycle-ways, means we now have unprecedented access to our cities and to ever-increasing tracts of our rural heritage. The wide-ranging, carefully chosen featured routes vary from the rugged delights of Wales's Pembrokeshire Coastal Path to the lush wilderness of Jamaica and the Harz Witches' Trail high in the German mountains. The hand-picked excursions cover overland paths, urban trails, mountain passes, coastal and shoreline strolls, and walks that explore the heritage of the world's most culturally rich destinations. There are gentle walks for beginners - some lasting barely an hour - and more demanding challenges for seasoned enthusiasts that will take months to achieve. Every page provides a wealth of information about a must-try walk, including start and end points, overall distance, difficulty rating, terrain and an estimation of the time it should take to complete, along with links to specially commissioned digital route maps. In short, 1001 Walks You Must Experience Before You Die is an essential reference guide for all those who love to get out of their cars, get off their bikes and lace up their walking shoes.

*Words Painting Music* Todd Board, 2021-04 We all have our own mythology, that is, our coherent system of meaning and value. Too often our myth remains safe, habitual, reductionist, and unexamined. In my sample-of-one experience, the most expansive and honest inner life emerges when we tire-kick our myths, and wade into a creative blank space not to find pat answers, but to interrogate our myth and see what recurs, and links, and echoes when you step away. As much as possible, this is a five-sense experience, which invites language, images, sounds, and other senses to engage and reflect each other. Occasionally, this process will politely nudge the inner life aside and generate some fairly memorable outer-life perceptions and experiences. Words Painting Music attempts to capture some of this flavor.
