**Heinz Guderian**

**Achtung-Panzer!** Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Dissenting Opinions Michael Sexton, 2020-06-17 The term dissenting opinions is normally used in the law to describe the judgments of those members of appellate courts who take a different view in a particular case from their colleagues who form the majority and effectively decide the question before the court. I have used it, however, in relation to this collection of articles and book reviews published over several decades because they proposed in the main a departure from what might be characterised as the conventional wisdom, that is, the views and values of those who preside over most public and private intuitions in Australia, including much of the media. I do not suggest for a moment that there has been any disadvantage to myself as a result of these publications but I have suggested in some of the pieces concerning the relatively recent phenomenon of political correctness that this climate of conformity has had a chilling effect on public debate. And that young people embarking on their careers now have to be wary of expressing unconventional opinions. This is even - and perhaps particularly - so in universities which historically were places where established ideas were always open to challenge. Although some of these pieces are from earlier periods, most concern questions that are still controversial and can be taken as a contribution to those on-going discussions. Most importantly, however, they represent the hope that there will

be much greater scope in the immediate future for the full-blooded public debate of social, economic and political issues in Australia.

Sun Bread Elisa Kleven, 2004-03-30 Winter's gray chill has set in and everyone misses the sun-especially the baker. So she decides to bring some warmth to the town by making sun bread. And as the bread bakes, rising hot and delicious, everyone comes out to share in its goodness. Everyone, including the sun itself. With a lilting, rhyming text, colorful illustrations, and a recipe for baking your own sun bread, this tasty treat from the illustrator of the best-selling *Abuela* is just right for all ages to enjoy.

*Catvinkle and the Missing Tulips* Elliot Perlman, 2020-09-29 When best friends Catvinkle and Ula are asked to defend two sheep accused of eating Amsterdam's tulips, they're not sure what to believe. The sheep say they're innocent, but they do look very sheepish. To win this case, Catvinkle will need the help of a wolfhound, a llama, two travelling koalas, a pair of Russian bears . . . and a very special bird.

**The Personal History of William Buckley** Robert Larkins, 2020 As a British soldier who fought against Napoleon, William Buckley served capably and truly but a drunken escapade led to his transportation to a short-lived settlement in Australia, and once there to his daring escape from custody and thirty years of isolation among the First People of the region, who saved and sheltered him. Known to his saviours as 'Murrangurk', Buckley learnt their language and forgot his own. He lived as they did and would later record - invaluable for us today - his understanding of their customs and traditions. When eventually Europeans returned and conflict between them and the First People flared, Buckley was at the heart of the tumult. He courageously stopped three massacres, but soon found himself disregarded by the antagonists and dangerously compromised.

*The Adventures of Catvinkle* Elliot Perlman, 2018-10-01 When a pampered cat has to share her home with a lost dog, sparks are set to fly. To her surprise, Catvinkle starts to like Ula. She even tells Ula her three secrets. But a cat and a dog can't be friends – can they? A tail-spin of a tale that will make you howl with laughter – and remind you that if you aren't open to adventure, you might never meet your best friend.

**Family Trees** Michael Farrell, 2020-04 In *Family Trees* Michael Farrell continues to question how humans relate -- to each other, and to the nonhuman, the worlds of animals, plants and objects. Inheritance can be a heavy legacy but in Farrell's expansive rendering it frees itself: how do we connect? Through affection, and through sharing, swapping and listening. *Family Trees* sees the return of familiar characters such as Pope Pinocchio, alongside new figures Lord Marmalade, Cherry the 'Kiama Scammer' and Adam, a paranoid country English teacher. Presented in film-like scenarios, Farrell's characters are often busily thinking, while also participating in more mundane forms of activity -- gossip and sleep and work. The book includes a number of South Coast poems that take a poking interest in how language blooms off-track. It's about memory, fantasy and the possibilities of living in conceptual space. Anything that has roots can be a family tree. 'Endless, rascally contortions. Read them boldly as an archaeologist...but stay quietly aware that the texts are already affecting your cognitive frame, turning you into their accomplice in the renewing of language.' -- Sydney Review of Books

**Congo Tales** S.R. Kovo N'Sonde,Wilfried N'Sondé,2019 The Congo Basin in Central Africa harbors approximately one quarter of the world's rainforests. Second in size only to that of the Amazon, the heart of this rainforest is populated by communities whose lives are vastly different from much of the rest of the world. This stunning photo series is part of the Tales of Us project, which sets out to demonstrate that the powerful but fragile ecosystems and the mythologies of the peoples who call them home are inextricably linked. In this book, local Congolese living in the Mbomo District staged and enacted the oral history of the Congo for fine art photographer Pieter Henket under the canopy of the ancient rainforest from which these stories sprang. --Page 4 of cover.

Despite toiling around the clock to make budget, he's in imminent danger of being downsized. *The Girl Who Wrote Loneliness* Kyung-Sook Shin,2016-03-01 Homesick and alone, a teenaged girl has just arrived in Seoul to work in a factory. Her family, still in the countryside, is too impoverished to keep sending her to school, so she works long, sunless days on a stereo-assembly line, struggling through night school every evening in order to achieve her dream of becoming a writer.
