Museums and Social Change Adele Chynoweth,Bernadette Lynch,Klaus Petersen,Sarah Smed,2020-07-09 Museums and Social Change explores the ways museums can work in collaboration with marginalised groups to work for social change and, in so doing, rethink the museum. Drawing on the first-hand experiences of museum practitioners and their partners around the world, the volume demonstrates the impact of a shared commitment to collaborative, reflective practice. Including analytical discussion from practitioners in their collegial work with women, the homeless, survivors of institutionalised child abuse and people with disabilities, the book draws attention to the significant contributions of small, specialist museums in bringing about social change. It is here, the book argues, that the new museum emerges: when museum practitioners see themselves as partners, working with others to lead social change, this is where museums can play a distinct and important role. Emerging in response to ongoing calls for museums to be more inclusive and participate in meaningful engagement, Museums and Social Change will be essential reading for academics and students working in museum and gallery studies, librarianship, archives, heritage studies and arts management. It will also be of great interest to those working in history and cultural studies, as well as museum practitioners and social activists around the world.

Creating Value Through Corporate Restructuring Stuart C. Gilson,2010-04-05 An updated look at how corporate restructuring really works Stuart Gilson is one of the leading corporate restructuring experts in the United States, teaching thousands of students and consulting with numerous companies. Now, in the second edition of this bestselling book, Gilson returns to present new insight into corporate restructuring. Through real-world case studies that involve some of the most prominent restructurings of the last ten years, and highlighting the increased role of hedge funds in distressed investing, you'll develop a better sense of the restructuring process and how it can truly create value. In addition to classic buyout and structuring case studies, this second edition includes coverage of Delphi, General Motors, the Finova Group and Warren Buffett, Kmart and Sears, Adelphia Communications, Seagate Technology, Dupont-Conoco, and even the Eurotunnel debt restructuring. Covers corporate bankruptcy reorganization, debt workouts, vulture investing, equity spin-offs, asset divestitures, and much more Addresses the effect of employee layoffs and corporate downsizing Examines how companies allocate value and when a corporation should pull the trigger From hedge funds to financial fraud to subprime busts, this second edition offers a rare look at some of the most innovative and controversial restructurings ever.

Regenerative Strategies for Maxillary and Mandibular Reconstruction James C. Melville,Jonathan W. Shum,Simon Young,Mark E. Wong,2019-03-25 This book is designed as a comprehensive and up-to-date instructional guide to the strategies employed for regeneration of the maxillomandibular region, with emphasis on allogeneic and tissue engineering principles. Readers will find information on indications and contraindications for procedures, pertinent anatomy, surgical techniques, postoperative management, and management of complications. Current surgical techniques utilizing biotechnology for regeneration and reconstruction are described in depth, with explanation of their benefits in minimizing patient morbidity. In addition, state of the art free vascular transfer for maxillary and mandibular reconstruction is extensively discussed, with a particular focus on indications and step-by-step technique. The authors are well-known experts in their field who are keen to share their extensive experience and preferred approaches. The book is intended for all oral and maxillofacial surgeons, head and neck surgeons, and plastic and reconstruction surgeons who wish to increase their knowledge on the latest modalities of maxillary and mandibular reconstruction.

Meaningful Making 2 Paulo Blikstein,Sylvia Libow Martinez,Heather Allen Pang,2019-03-08 Meaningful Making 2 is a second volume of projects and strategies from the Columbia University FabLearn Fellows. This diverse group of leading K-12 educators teach in Fab Labs, makerspaces, classrooms, libraries, community centers, and museums--all with the goal of making learning more meaningful for every child. A learning revolution is in the making around the world. Enthusiastic educators are using the new tools and technology of the maker movement to give children authentic learning experiences beyond textbooks and tests. The FabLearn Fellows work at the forefront of this movement in all corners of the globe. In this book, the FabLearn Fellows share all new inspirational lesson ideas, strategies, and recommended projects across a broad range of age levels. Illustrated with color photos of real student work, the Fellows take you on a tour of the future of learning, where children make sense of the world by making things that matter to them and their communities. To read this book is to rediscover learning as it could be and should be--a joyous, mindful exploration of the world, where the ultimate discovery is the potential of every child.

The Soviet Army Department of the Army,2019-07-19 The Soviet Army: Operations and Tactics FM 100-2-1 This field manual is part of FM series 100-2, The Soviet Army. The other volumes are FM 100-2-2, The Soviet Army: Specialized Warfare and Rear Area Support, and FM 100-2-3, The Soviet Army: Troops, Organization and Equipment. These manuals cannot stand alone, but should be used interchangeably. These field manuals serve as the definitive source of unclassified information on Soviet ground forces and their interaction with other services in combined arms warfare. These manuals represent the most current unclassified information and they will be updated periodically. More information would become available in the event of war or national emergency. Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a HUBZONE SDVOSB. <https://usgovpub.com>

Star Trek: Destiny #1: Gods of Night David Mack,2008-09-30 The first novel in an epic crossover trilogy uniting characters from every corner of the Star Trek universe, revealing the shocking origin and final fate of the Federation's most dangerous enemy—the Borg. Half a decade after the Dominion War and more than a year after the rise and fall of Praetor Shinzon, the galaxy's greatest scourge returns to wreak havoc upon the Federation—and this time its goal is nothing less than total annihilation. Elsewhere, deep in the Gamma Quadrant, an ancient mystery is solved. One of Earth's first generation of starships, lost for centuries, has been found dead and empty on a desolate planet. But its discovery so far from home has raised disturbing questions, and the answers harken back to a struggle for survival that once tested a captain and her crew to the limits of their humanity. From that terrifying flashpoint begins an apocalyptic odyssey that will reach across time and space to reveal the past, define the future, and show three captains—Jean-Luc Picard of the U.S.S. Enterprise, TM William Riker of the U.S.S. Titan, and Ezri Dax of the U.S.S Aventine—that some destinies are inescapable.

Morphogenetic Engineering René Doursat,Hiroki Sayama,Olivier Michel,2012-12-13 Generally, spontaneous pattern formation phenomena are random and repetitive, whereas elaborate devices are the deterministic product of human design. Yet, biological organisms and collective insect constructions are exceptional examples of complex systems that are both self-organized and architectural. This book is the first initiative of its kind toward establishing a new field of research, Morphogenetic Engineering, to explore the modeling and implementation of “self-architecturing” systems. Particular emphasis is placed on the programmability and computational abilities of self-organization, properties that are often underappreciated in complex systems science—while, conversely, the benefits of self-organization are often underappreciated in engineering methodologies. Altogether, the aim of this work is to provide a framework for and examples of a larger class of “self-architecturing” systems, while addressing fundamental questions such as br” How do biological organisms carry out morphogenetic tasks so reliably? br” Can we extrapolate their self-formation capabilities to engineered systems?br” Can physical systems be endowed with information (or informational systems be embedded in physics) so as to create autonomous morphologies and functions?br” What are the core principles and best practices for the design and engineering of such morphogenetic systems?

Tomoko Fuse's Origami Art Tomoko Fuse,2020-05-19 Tomoko Fuse has been one of the world's premier origami artists for more than 35 years. This beautifully photographed book examines the three-dimensional geometric designs she is famous for. Fuse, often referred to as the queen of origami, discovered the art of folding paper at just seven years old. She has come a long way since then, having had her work highlighted in exhibitions around the world, including Paris Origami (Carrousel du Louvre, 1998), On Paper (Crafts Council London, 2002) and her solo show Yorokobi (Bauhaus Dessau, 2004). In addition to teaching, folding and writing, she also collaborated with designer Denis Guidone for Milan Design Week 2018 and was a featured artist in Nova's episode The Origami Revolution (February, 2017). An artistic anthology of her most impressive work, Tomoko Fuse's Origami Art can serve multiple purposes: as inspiration for an experienced origami folder; as a truly impressive coffee table book for the artistically-minded; or as a push for intermediate folders to try their hand at modular origami models.

Power and Justice Xudong Zhao,2019-04-10 This book discusses the relationship, interaction and conflict between everyday life and various institutions in a specific village in North China, with a focus on the formal and informal legal systems. It vividly describes the village’s “legal construction problems” as well as the customs and laws, and such it can be seen as a historical and innovative comment on China’s problems. The book is based on the author’s field investigations assessing vast amounts of material concerning local organizations, formal and informal authorities, economic exchange, religious rituals, as well as interviews with villagers and numerous court files. It presents an in-depth exploration of “pluralism of authority” in China’s rural society, and examines how various authorities were formed. It also summarizes how various local disputes are resolved and discusses the villagers’ understanding of the concept of “justice.” Lastly, it suggests ways in which national law and local customs could communicate and collaborate.
