**4 Mexican Paper Crafts: Simple and Fun Craft Tutorials Inspired by Mexican Artisan Paper Decorations** Ellen Deakin, Harry Olden, 2014-08 Description The Mexican tradition of paper crafting dates back to pre-Hispanic times when the Aztecs made paper from tree bark, called Amate. With the Spanish conquest brightly colored tissue paper or Papel de China arrived on trading boats from the Phillipines and was used in paper crafts. Pinatas, papel picado and paper flowers are important in the festivities of Cinco de Mayo and Dia de los Muertos and are also used to decorate birthday parties, weddings and baby showers amongst other celebrations. From the beginning of Happythought we have been inspired by the beauty and simplicity of these Mexican paper crafts. We have really enjoyed trying our hand at creating our own, with satisfying results! Now we have put together four of our favorite paper craft tutorials for you try in one book. The techniques we have used are not always traditional - the projects are designed to be easy to make and use materials that you hopefully already have at home or in your craft box. The crafts are also designed with little fingers in mind - most of the activities are easy enough for a child to complete, with a little adult supervision! Tutorials How to make a paper star These stunning ornaments are partly inspired by Mexican star pinatas and partly by the beautiful Moravian tin star lanterns made by Mexican artisans. You could also attach your star decorations to a string of fairy lights to make a garland of teeny-tiny star lanterns. We have provided three colorful templates for you to use, or why not create your own using the black and white template as a starting point? How to make paper flowers These simple paper flowers are fun to make and so easy that the whole family can get involved. They can be used to decorate a party or Cinco de Mayo celebration, arranged in vases or as a centerpiece at a wedding, or placed on an ofrenda for Dia de los Muertos. You could also attach one or two flowers to a bobby pin or hair band and create a decorative hair piece! How to make papel picado Papel picado means 'punched' or 'perforated' paper, and traditionally papel picado are made from colored tissue paper and cut using chisels. We wanted to simplify the perforated paper technique so that you could create papel picado with household scissors, and after a bit of experimentation we came up with this easy method of producing your own stunning papel picado. We made ours using crepe paper as it comes in lovely, vibrant colors and we found it much easier to handle than tissue paper, which tends to tear. It also means that your papel picado last longer so you can use them again next year! How to make a mini pinata Ever since we moved our family to South America, we have all fallen head-over-heels for pinatas, so it wasn't long until we felt compelled to try making one of our own. Traditionally, you beat a pinata with a stick until it exploded and all the yummy, shiny contents fell to the ground. Now days, as a safer option, pinatas often come with a string which you pull down on to release the contents. We wanted to make a fully functioning mini pinata, so ours too has a pull string. It's been tried and tested by our children, so we can report that it works beautifully! Templates If you would like to use the templates shown in the tutorial photos they are all free with the book to download from the Happythought website. We have also included templates in this book which you can photocopy and scale up to use for your projects, copy by hand or use as inspiration for your own designs.

*Low-Mess Crafts for Kids* Debbie Chapman, 2018-06-26 A collection of craft ideas for kids that create a minimum of mess.

*MiniEco* Kate Lilley, 2013 MiniEco is the sensational craft blog of Kate Lilley. With over 250,000 followers it has taken on cult status in the international craft community, and that is purely down to Kates fresh, contemporary and beautifully explained and executed craft projects. With a book for children already under her belt, this publication focuses more on adults with 33 pieces including

paper gems, an origami lampshade, macrame hangings, pop-up pixel cards, hama bead candle holders, and tie-dyed furoshiki cloths. The ideas range in complexity from the simple to the advanced, but each one is totally unique and has never before been published. The look of the book will reflect the immaculate, Japanese-inflected minimalism of the MiniEco website, with some high-end production finishes including a die-cut, dust-jacketed paperback binding and boldly pared-back photography. QR codes will link to animated gifs of the craft being made.

Superstars Paul Jackson, 2020-09-19 From bestselling author and expert in paper and art crafts, Paul Jackson, comes this eagerly awaited new project, *Superstars*. Create a galaxy of amazing 3D stars and other geometric shapes with these pre-cut and scored sheets. *Superstars* are simple and quick to fold; based on geometrical solids, the forms are surprisingly sturdy. You can make large and impressive decorations (bring on Christmas!) as well as using the kit as a craft activity in itself - they can be taken apart and used again as many times as you like! Featuring simple instructional videos instead of complex written instructions, these superstars will absorb both experienced paper folders and enthusiastic amateurs. *Superstars* comes with an accompanying booklet that contains easy to follow steps, QR codes, illustrations and photos. The booklet explains the structure of 17 superstars, though there are countless others you can design for yourself as you become familiar with the techniques. The series of online videos that accompany the pack show in detail how to fold the units, how to assemble the basic pyramids and how to make superstars from 6, 12 and 30 units. Paul Jackson is the author of more than 30 books on paper arts and crafts. He has taught the techniques of folding on more than 150 university-level design courses in the UK, Germany, Belgium, the US, Canada and Israel. These include courses of Architecture, Graphic Design, Fashion Design, Textile Design, Jewellery, Product Design, Packaging, Ceramics, Industrial Design, Fine Art, Basic Design and Interior Design. Other bestselling books of his include: *Complete Pleats*, *Cut and Fold Paper Textures*, *Cut and Fold Techniques for Pop-Up Designs*, *Cut and Fold Techniques for Promotional Materials*, *Folding Techniques for Designers*, *How to Make Repeat Patterns* and *Structural Packaging*, all Laurence King.
