Red Sky at Night Elly MacKay, 2018-05-01 A memorable collection of weather sayings, beautifully arranged in story form and illustrated by renowned paper artist Elly MacKay. Red sky at night, sailor's delight. And, the next morning, when the dew is on the grass, no rain will come to pass. These are the perfect conditions for a grandfather to take his grandchildren out on a fishing trip. Especially since, as the saying goes, when the wind is from the West, then the fishes bite the best. The family takes a boat out on the lake, fishing and swimming and eventually camping out on a nearby island, taking full advantage of the gorgeous weather. But the next day . . . red sky in the morning, sailors take warning! The family ventures back home just in time to avoid a rainstorm. But not to worry -- the more rain, the more rest. Fair weather's not always best. Acclaimed paper artist Elly MacKay illustrates a lovely family narrative through the use of weather aphorisms, creating a beautiful and informational story which will appeal to children's timeless fascination with the natural world.

It's a chase that leads from the bustling American metropolis all the way to Berlin, the dark heart of the Nazi regime... a chase of screeching taxis and motorcycle escapes, of a fantastic battle between a German U-boat and an autogyro over Coney Island! Like marionettes dangling from invisible hands, neither Allies nor Axis agents can tell if they are the puppeteers... or the dolls whose strings get cut! Behind it all, The Shadow looms, a master of men with cold, hollow laughter and blazing .45 pistols! Take a Tea Towel Jemima Schlee,2015-08-23 Clean, crisp and practical. That sums up the classic linen tea towel, and also this innovative new title. Take a tea towel contains 16 projects, four for each of the main four areas in the home: bathroom, kitchen, laundry and workroom, all using hardwearing Irish linen tea towels. Embellishing the pieces with different techniques such as dip dying, embroidery, fabric painting, and photo transfers each project has an aesthetic simplicity and is practical and hardwearing. Linen is a very durable, strong fabric. The author, Jemima Schlee, has used the beautiful, timeless Irish linen glass cloth because the nostalgic, striped glass cloth sits comfortably in any interior as simple, practical and timeless. But, of course any natural-fibre cloth in linen, cotton or a linen-cotton mix, and of roughly the same dimensions, can be substituted to make the reader's projects more personal. The humble tea towel is a wonderful thing. Classic gingham or striped cloths, bright French jacquard, kitsch maps of childhood holiday destinations - whether made from cotton or linen they are hard wearing and iron to a crisp fresh finish. The book will appeal to people who want to learn to sew, those who want to develop their sewing skills, for those with a love of simple, clean design and an appreciation of the utilitarian simplicity of Shaker design. This multi-craft project book teaches machine- and hand-sewing techniques and also includes different ways of adorning fabrics: dying, embroidery, fabric painting, photo transfers, Dorset button making, and many more.

The Book of Great American Firecrackers Jack Nash,2016-08-28 Including 183 color and black-and-white images of vintage photos and packaging, plus values for American firecracker collectibles, this is the first book to focus on US firecrackers. Many pyroabilia guides cover Chinese firecrackers, but the US's history is just as colorful, from fireworks' inception into American celebrations as a replacement for dangerous celebratory gun and cannon fire, until the final federal ban with the Child Protection Act of 1966. Fireworks made the 4th of July the best holiday ever, for generations of boys especially. Beginning with a brief history of the firecracker and how it came to America, the book details the types the US produced a wide array, from Cherry Bombs and Silver Salutes to Ash Cans and Torpedoes. Also covered are how the US Industrial Revolution impacted fireworks, as well as the innovations throughout the American industry, from its successes to the factory disasters.

Community Building and Early Public Relations Donnalyn Pompper,2021 From the start, women were central to a century of westward migration in the U.S. Community Building and Early Public Relations: Pioneer Women's Role on and after the Oregon Trail offers a path forward in broadening PR's Caucasian/White male-gendered history in the U.S. Undergirded by humanist, communitarian, critical race theory, social constructionist

perspectives, and a feminist communicology lens, this book analyzes U.S. pioneer women's lived experiences, drawing parallels with PR's most basic functions--relationship building, networking, community building, boundary spanning, and advocacy. Using narrative analysis of diaries and reminiscences of women who travelled 2,000+ miles on the Oregon Trail in the mid-to-late 1800s, Pompper uncovers how these women filled roles of Caretaker/Advocate, Community Builder of Meeting Houses and Schools, served a Civilizing Function, offered Agency and Leadership, and provided Emotional Connection for Social Cohesion. Revealed also is an inevitable paradox as Caucasian/White pioneer women's interactional qualities made them complicit as colonizers forever altering indigenous peoples' way of life. This book will be of interest to undergraduate and graduate PR students, PR practitioners, and researchers of PR history and social identity intersectionalities. It encourages us to expand the definition of PR to include community building and to revise linear timeline and evolutionary models to accommodate voices of women and people of color prior to the 20th century--

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
