The Mom Test Rob Fitzpatrick,2013-10-09 The Mom Test is a quick, practical guide that will save you time, money, and heartbreak. They say you shouldn't ask your mom whether your business is a good idea, because she loves you and will lie to you. This is technically true, but it misses the point. You shouldn't ask anyone if your business is a good idea. It's a bad question and everyone will lie to you at least a little . As a matter of fact, it's not their responsibility to tell you the truth. It's your responsibility to find it and it's worth doing right . Talking to customers is one of the foundational skills of both Customer Development and Lean Startup. We all know we're supposed to do it, but nobody seems willing to admit that it's easy to screw up and hard to do right. This book is going to show you how customer conversations go wrong and how you can do better.

Nicolaes Witsen and Shipbuilding in the Dutch Golden Age A. J. Hoving,Diederick Wildeman,2012-03-29 In 1671, Dutch diplomat and scientist Nicolaes Witsen published a book that served, among other things, as an encyclopedia for the “shell-first” method of ship construction. In the centuries since, Witsen’s rather convoluted text has also become a valuable source for insights into historical shipbuilding methods and philosophies during the “Golden Age” of Dutch maritime trade. However, as André Wegener Sleeswyk’s foreword notes, Witsen’s work is difficult to access not only for its seventeenth-century Dutch language but also for the vagaries of its author’s presentation. Fortunately for scholars and students of nautical archaeology and shipbuilding, this important but chaotic work has now been reorganized and elucidated by A. J. Hoving and translated into English by Alan Lemmers. In *Nicolaes Witsen and Shipbuilding in the Dutch Golden Age*, Hoving, master model builder for the Rijksmuseum in Amsterdam, sorts out the steps in Witsen’s method for building a seventeenth-century pinas by following them and building a model of the vessel. Experimenting with techniques and materials, conducting research in other publications of the time, and rewriting as needed to clarify and correct some vital omissions in the sequence, Hoving makes Witsen’s work easier to use and understand. *Nicolaes Witsen and Shipbuilding in the Dutch Golden Age* is an indispensable guide to Witsen’s work and the world of his topic: the almost forgotten basics of a craftsmanship that has been credited with the flourishing of the Dutch Republic in the seventeenth century. Start with Why Simon Sinek, 2011-12-27 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.
