Poor Women and Children in the European Past John Henderson, Richard Wall, 1994 Women and children have always featured prominently among the critically disadvantaged. Poor Women and Children in the European Past provides a comparative survey of the poverty experienced by women and children in Europe by testing the applicability of the outline of the poverty life-cycle. Among the issues raised in a perceptive and wide-ranging introduction by the editors, John Henderson and Richard Wall, are the distinctive nature of women's poverty over the life-cycle, the relationship between family and demographic systems and the level of poverty, and the relative generosity of public and private charity provided by a range of European societies.

Routledge Handbook of Mental Health Law Brendan D. Kelly, Mary Donnelly, 2023-10-12 Mental health law is a rapidly evolving area of practice and research, with growing global dimensions. This work reflects the increasing importance of this field, critically discussing key issues of controversy and debate, and providing up-to-date analysis of cutting-edge developments in Africa, Asia, Europe, the Americas, and Australia. This is a timely moment for this book to appear. The United Nations' Convention on the Rights of Persons with Disabilities (2006) sought to transform the landscape in which mental health law is developed and implemented. This Convention, along with other developments, has, to varying degrees, informed sweeping legislative reforms in many countries around the world. These and other developments are discussed here. Contributors come from a wide range of countries and a variety of academic backgrounds including ethics, law, philosophy, psychiatry, and psychology. Some contributions are also informed by lived experience, whether in person or as family members. The result is a rich, polyphonic, and sometimes discordant account of what mental health law is and what it might be. The Handbook is aimed at mental health scholars and practitioners as well as students of law, human rights, disability studies, and psychiatry, and campaigners and law- and policy-makers.

Racial Profiling Karen S. Glover, 2009-08-16 Karen S. Glover investigates the social science practices of racial profiling inquiry, examining their key influence in shaping public understandings of race, law, and law enforcement. Commonly manifesting in the traffic stop, the association with racial minority status and criminality challenges the fundamental principle of equal justice under the law as described in the U.S. Constitution. Communities of color have long voiced resistance to racialized law and law enforcement, yet the body of knowledge about racial profiling rarely engages these voices. Applying a critical race framework, Glover provides in-depth interview data and analysis that demonstrate the broad social and legal realms of citizenship that are inherent to the racial profiling phenomenon. To demonstrate the often subtle workings of race and the law in the post-Civil Rights era, the book includes examination of the 1996 U.S. Supreme Court's Whren decision—a judicial pronouncement that allows pretextual action by law enforcement and thus widens law enforcement powers in decisions concerning when and against whom law is applied.
