But Is It Art? Cynthia Freeland,2002-02-07 In today's art world many strange, even shocking, things qualify as art. In this book, Cynthia Freeland explains why innovation and controversy are valued in the arts, weaving together philosophy and art theory with many fascinating examples. She discusses blood, beauty, culture, money, museums, sex, and politics, clarifying contemporary and historical accounts of the nature, function, and interpretation of the arts. Freeland also propels us into the future by surveying cutting-edge web sites, along with the latest research on the brain's role in perceiving art. Let's Pretend This Never Happened Jenny Lawson,2013-03-05 The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. "Gaspingly funny and wonderfully inappropriate."—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. Stop Teaching Our Kids To Kill, Revised and Updated Edition Lt. Col. Dave Grossman,Gloria Degaetano,2014-08-05 Completely revised and updated, a much-needed call to action for every parent, teacher, and citizen to help our children and stop the wave of killing and violence gripping America's youth Newtown, Aurora, Virginia Tech, Columbine. There is no bigger or more important issue in America than youth violence. Kids, some as young as ten years old, take up arms with the intention to murder. Why is this happening? Lt. Col. Dave Grossman and Gloria DeGaetano believe the root cause is the steady diet of violent entertainment kids see on TV, in movies, and in the video games they play—witnessing hundreds of violent images a day. Offering incontrovertible evidence based on recent scientific studies and research, they posit that this media is not just conditioning children to be violent and see killing as acceptable but teaching them the mechanics of killing as well. *Stop Teaching Our Kids to Kill* supplies the statistics, interprets the copious research that exists on the subject, and suggests the many ways to make a difference in your home, at school, in your community, in the courts, and in the larger world. In using this book, parents, educators, social-service workers, youth advocates, and anyone interested in the welfare of our children will have a solid foundation for effective action and prevention of future Columbines, Jonesboros, and Newtowns.

What were these kids really like, and what was it like to live one's teenage years in front of the camera? Dustin Diamond, *Saved by the Bell*'s Samuel Screech Powers, pulls back the curtains to reveal the truth about being a child star in Hollywood. Diamond shows what happens when kids grow up too fast, too rich, and too famous. Book jacket.

Music and Levels of Narration in Film Guido Heldt,2013 *Music and Levels of Narration in Film* is the first book-length study to synthesize scholarly contributions toward a narrative theory of film music. Moving beyond the distinction between diegetic and nondiegetic music—or music that is not understood as part of a film's story world—Guido Heldt systematically discusses music at different levels of narration, from the extrafictional to focalizations of subjectivity. Heldt then applies this conceptual toolkit to study the narrative strategies of music in individual films, as well as genres, including musicals and horror films. The resulting volume will be an indispensable resource for anyone researching or studying film music or film narratology. Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Generation Multiplex Timothy Shary,2009-01-27 When teenagers began hanging out at the mall in the early 1980s, the movies followed. Multiplex theaters offered teens a wide array of perspectives on the coming-of-age experience, as well as an escape into the alternative worlds of science fiction and horror. Youth films remained a popular and profitable genre through the 1990s, offering teens a place to reflect on their evolving identities from adolescence to adulthood while simultaneously shaping and maintaining those identities. Drawing examples from hundreds of popular and lesser-known youth-themed films, Timothy Shary here offers a comprehensive examination of the representation of teenagers in American cinema in the 1980s and 1990s. He focuses on five subgenres—school, delinquency, horror, science, and romance/sexuality—to explore how they represent teens and their concerns, how these representations change over time, and how youth movies both mirror and shape societal expectations and fears about teen identities and roles. He concludes that while some teen films continue to exploit various notions of youth sexuality and violence, most teen films of the past generation have shown an increasing diversity of adolescent experiences and have been sympathetic to the particular challenges that teens face.
