The grooming chapter (10 sections) is extensive, with a schedule of tasks, a breakdown of each, step-by-step bathing, the importance of proper drying, brushing (puppy and adult), tangles, coat products, nail clipping (with photos), tear stains, and more. The coat is one of this breed's most defining features; this Pomeranian book covers it all with puppy to adult coat transitions, trimmings, shedding, and fur loss issues with home remedies to help restore the coat. The training sections are exceptional with step-by-step instructions to curb barking (every single barking scenario along with training for each), heeling alongside you, meet & greets with other dogs, nipping, humping, begging, over-zealous licking, command training, instilling proper hierarchy, socialization and desensitization, and much more. The Exercise & Activity chapter covers requirements, fun things to do, dog park safety, weather-related adjustments, and much more. This book doesn't slow down for a moment, with incredibly extensive health information (30+ sections) covering every issue the Pomeranian is prone to, conditions that affect toy breeds, and relevant issues seen with canines in general, including an outstanding allergy chapter. Never second-guess yourself, wondering what to

do. Within this Pomeranian care book are the results of two puppy-growth studies of 249 Pom puppies that tracked first-year weights, comprehensive owner survey results exploring appearance, behavior, and health of 3,695 Pomeranians, statistics regarding life expectancy, and an entire chapter dedicated to keeping your Pom safe. Throughout this book are sidebars, charts, beautiful photos (b&w), and supplemental aids. How Stella Learned to Talk Christina Hunger, 2021-05-04 INSTANT NEW YORK TIMES BESTSELLER An incredible, revolutionary true story and surprisingly

simple guide to teaching your dog to talk from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. When speech-language pathologist Christina Hunger first came home with her puppy, Stella, it didn't take long for her to start drawing connections between her job and her new pet. During the day, she worked with toddlers with significant delays in language development and used Augmentative and Alternative Communication (AAC) devices to help them communicate. At night, she wondered: If dogs can understand words we say to them, shouldn't they be able to say words to us? Can dogs use AAC to communicate with humans? Christina decided to put her theory to the test with Stella and started using a paw-sized button programmed with her voice to say the word "outside" when clicked, whenever she took Stella out of the house. A few years later, Stella now has a bank of more than thirty word buttons, and uses them daily either individually or together to create near-complete sentences. *How Stella Learned to Talk* is part memoir and part how-to guide. It chronicles the journey Christina and Stella have taken together, from the day they met, to the day Stella "spoke" her first word, and the other breakthroughs they've had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their pets. Filled with conversations that Stella and Christina have had, as well as the attention to developmental detail that only a speech-language pathologist could know, *How Stella Learned to Talk* will be the indispensable dog book for the new decade.
