Elements of Ethology D. Wood-Gush, 2012-12-06 The object of this book is to introduce ethology to agricultural and veterinary students. Today ethology covers many approaches to the study of animal behaviour which are connected by one unifying concept: all behaviour must be considered in relation to the ecology and evolutionary history of the species under investigation. This may seem to some to put domesticated animals beyond the scope of classical ethology but, while domestication has involved some behavioural changes, we shall see that much of the behaviour of our species of farm livestock differs little from that of their putative ancestors. It is assumed that students using this book will already have studied some physiology. It is also assumed that they are, essentially,

practically minded and with this factor in mind I have discussed behaviour in terms of its function, introducing the principles of ethology within functional categories of behaviour. In order to best illustrate these principles I have taken examples from a variety of species and not confined myself to farm livestock and domestic animals, for fundamental ethological research with these species has been patchy. However at the end of each chapter I have given a list of papers pertaining to farm livestock so that the principles of ethology can be seen in a more practical context and to develop this approach further I have also added some practical problems for discussion at the end of each chapter.

MiniEco Kate Lilley, 2013 MiniEco is the sensational craft blog of Kate Lilley. With over 250,000 followers it has taken on cult status in the international craft community, and that is purely down to Kates fresh, contemporary and beautifully explained and executed craft projects. With a book for children already under her belt, this publication focuses more on adults with 33 pieces including paper gems, an origami lampshade, macrame hangings, pop-up pixel cards, hama bead candle holders, and tie-dyed furoshiki cloths. The ideas range in complexity from the simple to the advanced, but each one is totally unique and has never before been published. The look of the book will reflect the immaculate, Japanese-inflected minimalism of the MiniEco website, with some high-end production finishes including a die-cut, dust-jacketed paperback binding and boldly pared-back photography. QR codes will link to animated gifs of the craft being made.

Introduction to Crystallography Frank Hoffmann, 2020-07-31 This book invites you on a systematic tour through the fascinating world of crystals and their symmetries. The reader will gain an understanding of the symmetry of external crystal forms (morphology) and become acquainted with all the symmetry elements needed to classify and describe crystal structures. The book explains the context in a very vivid, non-mathematical way and

captivates with clear, high-quality illustrations. Online materials accompany the book; including 3D models the reader can explore on screen to aid in the spatial understanding of the structure of crystals. After reading the book, you will not only know what a space group is and how to read the International Tables for Crystallography, but will also be able to interpret crystallographic specifications in specialist publications. If questions remain, you also have the opportunity to ask the author on the book's website.

At Home with Handmade Books Erin Zamrzla, 2011 Making your own books is easier than you might think, and Erin Zamrzla shows you how, using Japanese methods to produce a range of delightful projects: from easy-to-fold accordion pamphlets to books using the intricate and distinctive Japanese stab stitch bindings. Traditional bookbinding techniques are applied to creative and contemporary projects that will interest a broad range of beginning crafters, DIYers, and book artists. Zamrzla makes all the techniques accessible and completely nonintimidating by providing clear, step-by-step instructions for even the more complicated stitches. Information on the basics of bookbinding, including book terminology, tools, and techniques are included, and many of the projects encourage the creative use of recycled materials. Each project is featured in a full-color photograph presenting it in a real-life setting. Additional photos and computer-drawn instructional illustrations offer step-by-step details of construction. Projects include: Unfolding Flower Notes: An accordion book that opens into a string of flowers. Tiny Souvenir Book: An accordion book with envelopes for pages so you can collect memories on the go. Return-to-Sender Mail Book: Made using a four-hole stab binding in the hemp-leaf pattern, the pages of this notebook are contained within an envelope cover so you can simply fill the pages, seal the end, and mail it to a friend, who can then add to the pages and send it back to you. Pillowcase Dream Book: Made using a Yamato binding-a simple two-hole stab binding-the cover of this book is sewn from a pillowcase. Tea Bag Tracing Book: The pages of this book are created from tea bags that are bound in a traditional account-book style.
