Long May She Reign Rhiannon Thomas, 2017-02-21 The Girl of Fire and Thorns meets The Queen of the Tearling in this thrilling fantasy standalone about one girl's unexpected rise to power. Freya was never meant to be queen. Twenty-third in line to the throne, she never dreamed of a life in the palace, and would much rather research in her laboratory than participate in the intrigues of the court. However, when an extravagant banquet turns deadly and the king and those closest to him are poisoned, Freya suddenly finds herself on the throne. She may have escaped the massacre, but she is far from safe. The nobles don't respect her, her councillors want to control her, and with the mystery of who killed the king still unsolved, she knows that a single mistake could cost her the kingdom—and her life. Freya is determined to survive, and that means uncovering the murderers herself. Until then, she can't trust anyone. Not her advisers. Not the king's dashing and enigmatic illegitimate son. Not even her own father, who always wanted the best for her but also wanted more power for himself. As Freya's enemies close in and her loyalties are tested, she must decide if she is ready to rule and, if so, how far she is willing to go to keep the crown.

Stories for Kids Who Want to Save the World Carola Benedetto, Luciana Ciliento, 2022-03-22 Sixteen biographies of extraordinary people--ranging from Sebastião Salgado to Björk and Greta Thunberg--who came of age fighting climate change. Every person has a path in life, one that is intertwined with the fate of the earth. The life stories in this collection begin and end with that realization. First, as children, in different countries and eras, they witness how humans provoke environmental degradation. Each leads a life that not only minimizes their individual contribution to climate change at a local scale, but also that of their generation on a global scale. Then, as adults, they recognize the maturity and agency acquired at that moment which defined their lives. The biographies depict concrete initiatives that contribute to climate preservation, from a physicist who promotes organic farming techniques in India to a designer that only uses ecological fabrics and dyes in Italy. Rock climber Yvon Chouinard, biologist Rachel Carson, and designer Adriana Santanocito are included in this diverse cast of environmental activists. Together they show us that regardless of culture, class, or profession it is never too early or late to find your way to improve the world our children will inhabit. The stakes couldn't be higher: Our house is on fire, as Greta Thunberg rightly said.
