Howard Staunton

Garuda Indonesia Jozef Mols,2022-06-20 On January 26, 1949, Garuda Indonesia was officially established as Indonesia's government-owned flag carrier. To begin with, the airline focused on domestic and regional travel. However, in 1962, the Dutch-occupied island of Dutch New Guinea was added to the Indonesian territory and Garuda faced the huge challenge of starting up flights to the very remote and isolated settlements of Irian Jaya. Fortunately, the airline had the assistance of another Indonesian government-owned airline, Merpati, which would later become a feeder and subsidiary of Garuda. In the mid-1980s, a massive reorganization led to Garuda offering international flights, which required the modernization of the entire fleet. The late '90s saw a new management having to cope with the disastrous effects of the Asian financial crisis closely followed by the deregulation of the aviation industry in 2000, which greatly increased competition in the domestic market. Over subsequent years, Garuda has faced many more challenges, from the effects of the 9/11 terrorist attacks and the Bali bombings to the 2003 SARS epidemic and the COVID-19 pandemic. However, despite these setbacks, it has successfully transitioned from a small domestic carrier to a player on the international stage. This fully illustrated volume looks at Garuda's turbulent history from its involvement in Indonesia's postwar struggle for independence to operations during the 2020 COVID-19 pandemic.

Boeing versus Airbus John Newhouse,2008-01-08 The commercial airline industry is one of the most volatile, dog-eat-dog enterprises in the world, and in the late 1990s, Europe's Airbus overtook America's Boeing as the preeminent aircraft manufacturer. However, Airbus quickly succumbed to the same complacency it once

challenged, and Boeing regained its precarious place on top. Now, after years of heated battle and mismanagement, both companies face the challenge of serving burgeoning Asian markets and stiff competition from China and Japan. Combining insider knowledge with vivid prose and insight, John Newhouse delivers a riveting story of these two titans of the sky and their struggles to stay in the air.

The Iranian Space Endeavor Parviz Tarikhi, 2014-07-19 Provides a detailed look at the events and policies surrounding the Iranian space endeavor. For those who see the trend of progress and movement of the Iranian space endeavor from the outside, it can be difficult to understand what goes on behind the scenes. However, for one who observes these events firsthand, they take on a very different meaning. In this book, the author brings new and different profiles of Iran's space endeavor to light. Iran claims to be the ninth leading country in the world capable of manufacturing satellites and launching them, plans to land an astronaut on the Moon within a decade, and says its own president plans to be the first Iranian astronaut to travel into space. The author explains in this book that not all of these claims are quite as they seem. In addition to technical explanations, the book also includes historical, legal, social and cultural aspects of Iran's space program as well. It is the author's goal to create a tangible feeling of Iran's space endeavor for the readers.

Girl Waits With Gun Amy Stewart, 2015-09-01 NATIONAL BESTSELLER. The first in the Kopp Sisters Novel Series, *Girl Waits with Gun* is an enthralling novel based on the forgotten true story of one of the nation's first female deputy sheriffs. Constance Kopp doesn't quite fit the mold. She towers over most men, has no interest in marriage or domestic affairs, and has been isolated from the world since a family secret sent her and her sisters into hiding fifteen years ago. One day a belligerent and powerful silk factory owner runs down their buggy, and a dispute over damages turns into a war of bricks, bullets, and threats as he unleashes his gang on their family farm. When the sheriff enlists her help in convicting the men, Constance is forced to confront her past and defend her family — and she does it in a way that few women of 1914 would have dared. A New York Times Editors' Choice “A smart, romping adventure, featuring some of the most memorable and powerful female characters I've seen in print for a long time. I loved every page as I followed the Kopp sisters through a too-good-to-be-true (but mostly true!) tale of violence, courage, stubbornness, and resourcefulness.”—Elizabeth Gilbert
