One Degree of Change Larry Jackson,2015-01-23 This book was written for the person who understands that there is so much more for them to accomplish but just can't seem to breakthrough. One of the traps in life is being satisfied with a 211 degree life. This is a very good life and many would characterize it as a successful life. But for the person who should be living at 212 degrees they feel like the oyster with sand in its shell, very agitated. Many times they can't put their finger on what is wrong or what is needed. Even the Christian living a good life before God can feel that something is missing. The thing missing is their purpose. They love the Lord and all that He provides but they realize there is more they should be doing for Him. If you feel like you are not walking in your purpose then this is the book for you! *One Degree of Change: How to Succeed Now!* will open your heart and mind to just how close you really are to accomplishing what the Lord has designed you for. It will provide much needed answers for your advancement. Because you are only one degree from the success you desire.

Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Popular Media Cultures L. Geraghty,2015-04-14 *Popular Media Cultures* explores the relationship between audiences and media texts, their paratexts and interconnected ephemera. Authors focus on the cultural work done by media audiences, how they engage with social media and how convergence culture impacts on the strategies and activities of popular media fans.

Social Media and the 2008 U. S. Presidential Election Emily Metzgar,Albert Maruggi,2009-10 The 2008 U.S. presidential campaign offered a unique opportunity to evaluate the usefulness and applicability of social media technology in the American political environment. This study's assessment of the role that social media played during the 2008 U.S. presidential campaign confirms some widely held tenets of conventional wisdom about social media, but it also indicates that the role of social media as the new sine qua non of American politics is far from certain.

Monsters of Film, Fiction, and Fable Lisa Wenger Bro,Mary Ann Gareis,Crystal O'Leary-Davidson,2018-07-27 Monsters are a part of every society, and ours is no exception. They are deeply embedded in our history, our mythos, and our culture. However, treating them as simply a facet of children's stories or escapist entertainment belittles their importance. When examined closely, we see that monsters have always represented the things we fear: that which is different, which we can't understand, which is dangerous, which is Other. But in many ways, monsters also represent our growing awareness of ourselves and our changing place in a continually shrinking world. Contemporary portrayals of the monstrous often have less to do with what we fear in others than with what we fear about ourselves, what we fear we might be capable of. The nineteen essays in this volume explore the place and function of the monstrous in a variety of media – stories and novels like Baum's Oz books or Gibson's Neuromancer; television series and feature films like *The Walking Dead* or *Edward Scissorhands*; and myths and legends like Beowulf and The Loch Ness Monster – in order to provide a closer understanding of not just who we are and who we have been, but also who we believe we can be – for better or worse.

The Bold World Jodie Patterson,2020-02-11 Inspired by her transgender son, activist Jodie Patterson explores identity, gender, race, and authenticity to tell the real-life story of a family's history and transformation. "A courageous and poetic testimony on family and the self, and the learning and unlearning we must do for those we love."—Janet Mock In 2009, Jodie Patterson, mother of five and beauty entrepreneur, has her world turned upside down when her determined toddler, Penelope, reveals, "Mama, I'm not a girl. I am a boy." The Pattersons are a tribe of unapologetic Black matriarchs, scholars, financiers, Southern activists, artists, musicians, and disruptors, but with Penelope's revelation, Jodie realizes her existing definition of family isn't wide enough for her child's needs. In *The Bold World*, we witness Patterson reshaping her own attitudes, beliefs, and biases, learning from her children, and a whole new community, how to meet the needs of her transgender son. In doing so, she opens the minds of those who raised and fortified her, all the while challenging cultural norms and gender expectations. Patterson finds that the fight for racial equality in which her ancestors were so prominent helped pave the way for the current gender revolution. From Georgia to South

Carolina, Ghana to Brooklyn, Patterson learns to remove the division between me and you, us and them, straight and queer—and she reminds us to celebrate her uncle Gil Scott Heron’s prophecy that the revolution will not be televised. It will happen deeply, unequivocally, inside each and every one of us. Transition, we learn, doesn’t just belong to the transgender person. Transition, for the sake of knowing more and becoming more, is the responsibility of and gift to all. The Bold World is the result, an intimate and exquisite story of authenticity, courage, and love. Praise for The Bold World “In The Bold World, Jodie Patterson makes a case for respecting everyone’s gender identity by way of showing how she came to accept her son, Penelope. In tying that struggle to the struggle for race rights in this country during her own childhood, she paints a vivid picture of the permanent work of social justice.”—Andrew Solomon, bestselling author of The Noonday Demon and Far from the Tree

The Body Broken Lynne Greenberg, 2009-03-24 In the tradition of William Styron’s tour de force *Darkness Visible*, *The Body Broken* is a gorgeously told and intensely moving account of one woman’s extraordinary odyssey into a life of chronic pain—and of the unyielding resilience of the human spirit. At age nineteen, Lynne Greenberg narrowly survived a devastating car crash. When her broken neck healed—or so everyone thought—her recovery was hailed as a medical miracle and she returned to normal life. Years later, she seemed to have it all: a loving husband, two wonderful children, a peaceful home, and a richly satisfying job as a tenured poetry professor. Then, one morning, this blissful façade shattered—the pain in her neck returned in the most vicious way. A life with physical agony ensued. Greenberg realized that she had been living for years on borrowed time. As she and her family navigated an increasingly complicated web of doctors and specialists, Greenberg taught herself to fight her own battles—against a medical system ill-equipped to handle patients with chronic pain, and against the emotional pitfalls of a newly restricted life. Drawing on her family’s support, her own indomitable spirit, and an intense connection to the poetry she taught, Greenberg found the strength to return to a productive and satisfying—if irrevocably changed—life. This deeply personal saga takes us to the heart of a family’s struggle to survive a crisis, and shows us how, at the most profound levels, such an odyssey affects a patient’s marriage, the ability to parent, family, work, and friendships. *The Body Broken* is a powerful, lyrical story of one woman’s remarkable determination and breathtaking courage, as she puts mind over matter in the struggle to reclaim her life.

Congressional Elections Paul S. Herrnson, 2015-11-17 In *Congressional Elections: Campaigning at Home and in Washington* author Paul Herrnson combines top-notch research with real-world politics as he argues that successful candidates run two campaigns: one for votes, the other for resources. Using campaign finance data, original survey research, and hundreds of interviews with candidates and political insiders, Herrnson looks at how this dual strategy affects who wins and how it ultimately shapes the entire electoral system. The Seventh Edition considers the impact of the Internet and social media on campaigning; the growing influence of interest groups in the wake of the Supreme Court’s *Citizens United* ruling; and the influence of new voting methods on candidate, party, and voter mobilization tactics.

News of the Weird Chuck Shepherd, John J. Kohut, Roland Sweet, 1989 For news junkies and fans of the bizarre-but-true, here is an outrageous collection of all-real, all-weird news stories culled from the nation’s mainstream newspapers. Line art throughout.

Moon-face and Other Stories Jack London, 1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. *The Son of the Wolf* (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, *The Call of the Wild* (1903), which tells the story of the dog Buck, who, after his master’s death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including *The Sea-Wolf* (1904), *White Fang* (1906), *South Sea Tales* (1911), and *Jerry of the South Seas* (1917). One of London’s most interesting novels is the semi-autobiographical *Martin Eden* (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

They Marched Into Sunlight David Maraniss, 2003-10-14 David Maraniss tells the epic story of Vietnam and the sixties through the events of a few gripping, passionate days of war and peace in October 1967. With meticulous and captivating detail, *They Marched Into Sunlight* brings that catastrophic time back to life while examining questions about the meaning of dissent and the official manipulation of truth—issues that are as relevant today as they were decades ago. In a seamless narrative, Maraniss weaves together the stories of three very different worlds: the death and heroism of soldiers in Vietnam, the anger and anxiety of antiwar students back home, and the confusion and obfuscating behavior of officials in Washington. To understand what happens to the people in these interconnected stories is to understand America’s anguish. Based on thousands of primary documents and 180 on-the-record interviews, the book describes the battles that evoked cultural and political conflicts that still reverberate.

Building School 2.0 Chris Lehmann, Zac Chase, 2015-07-31 Ninety-five propositions for creating more relevant, more caring schools There is a growing desire to reexamine education and learning. Educators use the phrase school 2.0 to think about what schools will look like in the future. Moving beyond a basic examination of using technology for classroom instruction, *Building School 2.0: How to Create the Schools We Need* is a larger discussion of how education, learning, and our physical school spaces can—and should—change because of the changing nature of our lives brought on by these technologies. Well known for their work in creating Science Leadership Academy (SLA), a technology-rich, collaborative, learner-centric school in Philadelphia, founding principal Chris Lehmann and former SLA teacher Zac Chase are uniquely qualified to write about changing how we educate. The best strategies, they contend, enable networked learning that allows research, creativity, communication, and collaboration to help prepare students to be functional citizens within a modern society. Their model includes discussions of the following key concepts: Technology must be ubiquitous, necessary, and invisible Classrooms must be learner-centric and use backwards design principles Good technology can be better

than new technology Teachers must serve as mentors and bring real-world experiences to students Each section of Building School 2.0 presents a thesis designed to help educators and administrators to examine specific practices in their schools, and to then take their conclusions from theory to practice. Collectively, the theses represent a new vision of school, built off of the best of what has come before us, but with an eye toward a future we cannot fully imagine.
