Red Ted Art Margarita Woodley,2013-03-28 Crafting has never been more popular and Maggy Woodley, the creative force behind Red Ted, is passionate about making things with her children, Max, four, and Pippa, two. Using recycled materials and bits and bobs collected when out and about, here are over 60 utterly irresistible things to make with your kids. From adorable peanut shell finger puppets to walnut babies, loo roll marionettes and egg carton fairy lights, fabric mache bowls, stick men and shell crabs, stone people, and many more, these are projects for all the family to have fun with. And what's more, the end results are so cute and desirable that they look great around the home, or make wonderfully unique and personal gifts. With a funky, modern design and vibrant full colour photography throughout, this is a must-have addition to every young family's bookshelf.

If Anything Happens I Love You Will McCormack,Michael Govier,2022-09-27 Unimaginable loss yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, *If Anything Happens I Love You* is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from "above" as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose's soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat, Rose is able to introduce healing into the lives of the people she left behind. *If Anything Happens I Love You* may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most importantly, in the fight toward human connection, love, and acceptance.

The Bear Who Stared Duncan Beedie,2017-06-01 A funny and charming picture book with heart from rising star Duncan Beedie - now shortlisted for the Waterstones Children's Book Prize 2017. There once was a bear who liked to stare... and stare... and STARE. Bear doesn't mean to be rude, he's just curious but too shy to say anything. But nobody likes being stared at and it soon gets Bear into trouble. Luckily a goggly-eyed frog helps Bear realise

that sometimes a smile is all you need to turn a stare into a friendly hello.

Alexander and the Terrible, Horrible, No Good, Very Bad Day Judith Viorst, 2009-09-22 Recounts the events of a day when everything goes wrong for Alexander. Suggested level: junior, primary.

The Last Chip Duncan Beedie, 2018-02-22 Percy is a little pigeon, and he's very hungry. Every time he tries to get hold of a scrap of food, bigger, beefier birds bat him away. He's about to give up when someone offers him her very last chip. A moving and uplifting story. A percentage of royalties of the UK edition will go to a homeless charity.

Google SketchUp 6 3DVinci, 2007-01 Even though SketchUp is one of the most user-friendly interfaces, some users still need some assistance to use the program. Most of the the information in this book is taken from the online tutorials, but most people don;t learn easily from watching a movie, so the author has put it on paper and designed it to get you to perform the steps yourself. The 'Miscellaneous basic exercises' outlines some of the handy methods devised by expert Google SketchUp users as well as some Google SketchUp developers. This information can be found on the SketchUp User Forum, but the author has sifted through all the forum posts and come up with the short exercises that demonstrate these useful bits.

Francis Ford Coppola's The Godfather Trilogy Nick Browne,1999-11-13 The Godfather trilogy is among the most significant works of Hollywood cinema of the last quarter century. They provide a richly complex look at a whole segment of American life and culture spanning almost the whole century. In six essays, written especially for this volume, The Godfather trilogy is re-examined from a variety of perspectives. Providing analyses on the form and significance of Coppola's achievement, they demonstrate how the filmmaker revised the conventions of the American crime film in the Viet Nam era, his treatment of the capitalism of the criminal underworld and its inherent violence, the power struggles within Hollywood over the film, and the contribution of opera to the epic force and cinematic style of Coppola's vision of an American criminal dynasty. The Godfather articulates the themes, styles, mythologies, performances, and underlying cultural values that have made the film a modern classic.

Hover Car Racer Matthew Reilly,2021 In the world of the near future, the most popular sport in the world is hover car racing. Super fast and dangerous, its heroes are the racers: part fighter pilot, part race - car driver, all superstar. But to get to the Pro Circuit, you must first pass through the International Race School, a brutal cauldron of wild races on even wilder courses, where only the best of the best will survive. This is the story of Jason Chaser, a talented young racer selected to attend the Race School. He's younger than the other students. He's smaller. His trusty car, the Argonaut, is older. But Jason Chaser is no ordinary racer. And as he races against the best drivers in the world he will learn that at Race School winning is everything, that not everyone in this world fights fair, and that you never ever have any friends on the track.

Efficient Learning for the Poor Helen Abadzi,2006 Large-scale efforts have been made since the 1990s to ensure that all children of the world go to school. But mere enrollment is not sufficient, students must become fluent in reading and calculation by the end of grade 2. Fluency is needed to process large amounts of text quickly and use the information for decisions that may ultimately reduce poverty. State-of-the-art brain imaging and cognitive psychology research can help formulate effective policies for improving the

basic skills of low-income students. This book integrates research into applications that extend from preschool brain development to the memory of adult educators. In layman's terms, it provides explanations and answers to questions such as: Why do children have to read fast before they can understand what they read? How do health, nutrition, and stimulation influence brain development? Why should students learn basic skills in their maternal language? Is there such a thing as an untrained teacher? What signs in a classroom show whether students are getting a quality education? How must information be presented in class so that students can retain it and use it? What training techniques are most likely to help staff put their learning into use? This book would be useful to policymakers, donor agency staff, teacher trainers, supervisors, and inspectors, as well as university professors and students.

Young Drivers OECD/ECMT Transport Research Centre, European Conference of Ministers of Transport, 2006-10-04 The great over-representation of young drivers in crashes and road fatalities is a serious public health problem that exacts an unacceptable toll in human, social and economic terms. Young drivers account for about 27 per cent of driver fatalities across OECD countries, although people in the same age group represent only about 10 per cent of the population. Furthermore, between 20 and 30 per cent of total traffic fatalities result from crashes involving a young driver. Young male drivers' crash fatality rates are as much as three times those of young female drivers, and remain much higher even when adjusted to factor in their higher rates of exposure. In some countries, young males' relative risk, compared to that of other drivers, is increasing. The high levels of young driver risk result principally from factors of inexperience, age, and gender. This risk is aggravated by the circumstances under which many young people drive - young people, especially men, are over-represented in crashes at high speed, at night, with similarly aged passengers, involving alcohol, and often when not wearing seatbelts. There is no single solution. The goal of reduced young driver crashes must be pursued through a combination of countermeasures involving the licensing process, training and learning methods, enforcement, education and communication, and technology.
