*Arnie, the Doughnut* Laurie Keller,2018-12-18 This ebook includes audio narration. A deliciously imaginative story about friendship—from the author / illustrator of *The Scrambled States of America*. Arnie was fascinated as he watched the customers stream into the bakery. One by one, doughnuts were chosen, placed in paper bags, and whisked away with their new owners. Some went by the dozen in giant boxes. Good-bye! Arnie yelled to each doughnut. Have a good trip! This is so exciting! Arnie beamed. I wonder who will choose ME? At first glance, Arnie looks like an average doughnut—round, cakey, with a hole in the middle, iced and sprinkled. He was made by one of the best bakeries in town, and admittedly his sprinkles are candy-colored. Still, a doughnut is just a doughnut, right? WRONG! Not if Arnie has anything to say about it. And, for a doughnut, he sure seems to have an awful lot to say. Can Arnie change the fate of all doughnuts—or at least have a hand in his own future? Well, you'll just have to read this funny story and find out for yourself. This title has Common Core connections Arnie, the Doughnut is a 2004 Bank Street - Best Children's Book of the Year.

*Transforming Acquisitions and Collection Services* Michelle Flinchbaugh,Chuck Thomas,Rob Tench,2019-09-15 This book explores ways in which libraries can reach new levels of service, quality, and efficiency while minimizing cost by collaborating in acquisitions. In consortial acquisitions, a number of libraries work together, usually in an existing library consortia, to leverage size to support acquisitions in each individual library. In cross-functional acquisitions, acquisitions collaborates to support other library functions. For the library acquisitions manager, technical services manager, or the library director, awareness of different options for effective consortial and cross-functional acquisitions allows for the optimization of staff and resources to reach goals. This work presents those options in the form of case studies as well as useful analysis of the benefits and challenges of each. By supporting each other's acquisitions services in a consortium, libraries leverage size to get better prices, and share systems and expertise to maximize resources while minimizing costs. Within libraries, the acquisitions function can be combined with other library functions in a unit with more than one purpose, or acquisitions can develop a close working relationship with another unit to support their work. This book surveys practice at different libraries and at different library consortia, and presents a detailed description and analysis of a variety of practices for how acquisitions units support each other within a consortium, and how they work with other library units, specifically collection management, cataloging, interlibrary loan, and the digital repository, in the form of case studies. A final section of the book covers fundamentals of collaboration.

**The Dead Eye and the Deep Blue Sea** Vannak Anan Prum,2018-08-07 Too poor to pay his pregnant wife's hospital bill, Vannak Anan Prum left his village in Cambodia to seek work in Thailand. Men who appeared to be employers on a fishing vessel promised to return him home after a few months at sea, but instead Vannak was hostaged on the vessel for four years of hard labor. Amid violence and cruelty, including frequent beheadings, Vannak survived in large part by honing his ability to tattoo his shipmates--a skill he possessed despite never having been trained in art or having had access to art supplies while growing up. As a means of escape, Vannak and a friend jumped into the water and, hugging empty fish-sauce containers because they could not swim, reached Malaysia in the dark of night. At the harbor, they were taken into a police station . . . then sold by their rescuers to work on a plantation. Vannak was kept as a laborer for over a year before an NGO could secure his return to Cambodia. After five years away, Vannak was finally reunited with his family. Vannak documented his ordeal in raw, colorful, detailed illustrations, first created because he believed that without them no one would believe his story. Indeed, very little is known about what happens to the men and boys who end up working on fishing boats in Asia, and these images are some of the first records. In regional Cambodia, many families still wait for men who have disappeared across the Thai border, and out to sea. *The Dead Eye and the Deep Blue Sea* is a testament to the lives of these many fishermen who are trapped on boats in the Indian Ocean.

*Exploring Universal Basic Income* Ugo Gentilini,Margaret Grosh,Jamele Rigolini,Ruslan Yemtsov,2019-11-25 Universal basic income (UBI) is emerging as one of the most hotly debated issues in development and social protection policy. But what are the features of UBI? What is it meant to achieve? How do we know, and what don't we know, about its performance? What does it take to implement it in practice? Drawing from global evidence, literature, and survey data, this volume provides a framework to elucidate issues and trade-offs in UBI with a view to help inform choices around its appropriateness and feasibility in different contexts. Specifically, the book examines how UBI differs from or complements other social assistance programs in terms of objectives, coverage, incidence, adequacy, incentives, effects on poverty and inequality, financing, political economy, and implementation. It also reviews past and current country experiences, surveys the full range of existing policy proposals, provides original results from micro+tax benefit simulations, and sets out a range of considerations around the analytics and practice of UBI.

**Kathy Griffin's Celebrity Run-Ins** Kathy Griffin,2016-11-22 From #1 New York Times bestselling author Kathy Griffin, an A-Z compendium of her celebrity run-ins, and the jaw-dropping, charming, and sometimes bizarre anecdotes only she can tell about them. Kathy Griffin's *Celebrity Run-Ins* is Kathy's funny, juicy index of all of the celebrities she has met during her many years in show business, bursting with never-before-told stories. Starting with Woody Allen and ending with Warren Zevon, *Kathy Griffin's Celebrity Run-Ins* is a who's who of pop culture: Leonardo DiCaprio, Nick Jonas, Kendall Jenner, Anna Kendrick, Lily Tomlin, Suge Knight, Barbra Streisand, Ashton Kutcher, Queen Latifah, Maria Shriver, Jared Leto, Selena Gomez, Meghan Trainor, Macklemore, Bruno Mars, Aaron Paul, Pink, Pitbull, Sia, Britney

That she and Salman Rushdie trade celebrity stories? That Donald Trump once drove Kathy and Liza Minelli around on a golf cart? That Sidney Poitier has a wicked sense of humor? That Demi Lovato has none? That David Letterman is still scared of Cher? That Channing Tatum is as polite as they come, and Tom Hanks might have the best perspective on fame of anyone? Kathy, that's who. Kathy has met everyone, and after reading this book, you will feel as if you have, too. Kathy Griffin has seen it all. Shocking and sidesplitting, Kathy Griffin's *Celebrity Run-Ins* is an indispensable guide to the stars from one of our most beloved comedians. Can you handle it?

**Mind Without a Home** Kristina Morgan, 2013-09-03 Experience the inner world of a woman with schizophrenia in this brutally honest, lyrical memoir. Have you ever wondered what it is like in the mind of a person with Schizophrenia? How can one survive day after day unable to distinguish between one's inner nightmares and the everyday realities that most of us take for granted? In her brutally honest, highly original memoir, Kristina Morgan takes us inside her head to experience the chaos, fragmented thinking, and the startling creativity of the schizophrenic mind. With the intimacy of private journal-like entries and the language of a poet, she carries us from her childhood to her teen years when hallucinations began to hijack her mind and into adulthood where she began abusing alcohol to temper the punishing voices that only she could hear. This is no formulaic tale of tragedy and triumph: We feel Kristina's hope as she pursues an education and career and begins to build strong family connections, friendships and intimacy—and her devastation as the insistent voices convince her to throw it all away, destroying herself and alienating everyone around her. Woven through the pages of her life are stories of recovery from alcoholism and the search for her sexual identity in relationships with both women and men. Eventually, her journey takes her to a place of relative peace and stability where she finds the inner resources and support system to manage her chronic illnesses and live a fulfilling life.

**Reel Life Lessons ... So Far** Rico Rodriguez, Laura Morton, 2012-11-06 "I love to entertain people and make them laugh. Whether through Manny or by just being myself, making people laugh is the greatest feeling in the world. Getting an opportunity to do that at my age has taught me a lot. So, I started this journal as a reminder of the most important real and 'reel' life lessons that I hope to never forget. " Barely into his teen years, Rico Rodriguez is living his dream, playing the hilarious and infectious character Manny Delgado on ABC's Emmy Award-winning sitcom *Modern Family*. As his on-screen alter ego, Rico dispenses wisdom with a maturity far beyond his age. In *Reel Life Lessons...So Far*, he shares his own thoughts about growing up, facing life's challenges, and the importance of family. **The Cambridge Handbook of Evolutionary Perspectives on Human Behavior** Lance Workman, Will Reader, Jerome H. Barkow, 2020-03-19 The transformative wave of Darwinian insight continues to expand throughout the human sciences. While still centered on evolution-focused fields such as evolutionary psychology, ethology, and human behavioral ecology, this insight has also influenced cognitive science, neuroscience, feminist discourse, sociocultural anthropology, media studies, and clinical psychology. This handbook's goal is to amplify the wave by bringing together world-leading experts to provide a comprehensive and up-to-date overview of evolution-oriented and influenced fields. While evolutionary psychology remains at the core of the collection, it also covers the history, current standing, debates, and future directions of the panoply of fields entering the Darwinian fold. As such, *The Cambridge Handbook of Evolutionary Perspectives on Human Behavior* is a valuable reference not just for evolutionary psychologists but also for scholars and students from many fields who wish to see how the evolutionary perspective is relevant to their own work.

The Mollusks Charles F. Sturm, Timothy A. Pearce, Ángel Valdés, 2006 Mollusks have been important to humans since our earliest days. Initially, when humans were primarily interested in what they could eat or use, mollusks were important as food, ornaments, and materials for tools. Over the centuries, as human knowledge branched out and individuals started to study the world around them, mollusks were important subjects for learning how things worked. In this volume, the editors and contributors have brought together a broad range of topics within the field of malacology. It is our expectation that these topics will be of interest and use to

amateur and professional malacologists.

The Beauty Bias Deborah L. Rhode, 2010-05-06 It hurts to be beautiful has been a cliché for centuries. What has been far less appreciated is how much it hurts not to be beautiful. The Beauty Bias explores our cultural preoccupation with attractiveness, the costs it imposes, and the responses it demands. Beauty may be only skin deep, but the damages associated with its absence go much deeper. Unattractive individuals are less likely to be hired and promoted, and are assumed less likely to have desirable traits, such as goodness, kindness, and honesty. Three quarters of women consider appearance important to their self image and over a third rank it as the most important factor. Although appearance can be a significant source of pleasure, its price can also be excessive, not only in time and money, but also in physical and psychological health. Our annual global investment in appearance totals close to \$200 billion. Many individuals experience stigma, discrimination, and related difficulties, such as eating disorders, depression, and risky dieting and cosmetic procedures. Women bear a vastly disproportionate share of these costs, in part because they face standards more exacting than those for men, and pay greater penalties for falling short. The Beauty Bias explores the social, biological, market, and media forces that have contributed to appearance-related problems, as well as feminism's difficulties in confronting them. The book also reviews why it matters. Appearance-related bias infringes fundamental rights, compromises merit principles, reinforces debilitating stereotypes, and compounds the disadvantages of race, class, and gender. Yet only one state and a half dozen localities explicitly prohibit such discrimination. The Beauty Bias provides the first systematic survey of how appearance laws work in practice, and a compelling argument for extending their reach. The book offers case histories of invidious discrimination and a plausible legal and political strategy for addressing them. Our prejudices run deep, but we can do far more to promote realistic and healthy images of attractiveness, and to reduce the price of their pursuit.
