Doug Benoliel

American Graffiti Margo Thompson, 2015-09-15 The first appearances of graffiti "tags" (signatures) on New York City subway trains in the early 1970s were discarded as incidents of vandalism or the rough, violent cries of the ignorant and impoverished. However, as the graffiti movement progressed and tags became more elaborate and ubiquitous, genuine artists emerged whose unique creativity and unconventional media captured the attention of the world. Featuring gallery and street works by several contributors to the graffiti scene, this book offers insight into the lives of urban artists, describes their relationship with the bourgeois art world, and discusses their artistic motivation with unprecedented sensitivity.

The content is carefully curated by the influential artist and Museum of Graffiti co-founder Alan KET, and the striking cover and book design is made by none other than Noah from the legendary AOK and TFP crews.

The Underground Graffiti Sketchbook Echo, 2011 The heyday of London Underground graffiti began in the mid-1980s, which saw an explosion of hip hop culture across the UK. The subway art of American graffiti artists and the release of U.S. hip hop had fired the imaginations of a generation of British kids, and UK graffiti artists or writers began unleashing their creativity in small clubs, on walls, and on overground and Underground train carriages up and down the land. With *The Underground Graffiti Sketchbook*, today's graffiti artists can go back to the medium's roots and find inspiration without risk of electrocution or arrest. There are 54 line drawings of carriages on high-grade uncoated art paper. Water+Ink Coloring Book Winter 2020 Kim

Winberry, 2019-07-22 I begin my paintings with a sketch and application of colorful/bright pigment and water to the paper. I disrupt the blends with salt or water, watching as one color blossoms in water, as another color starts to travel across the paper. I utilize India Ink to demarcate changes, also adding swirls and other artifacts, in the aim to achieve whimsy. My coloring books are my paintings! I run the paintings through filters and drop the color from them, leaving the lines so that you can add your own color. But wait, there's more... I've added an Augmented Reality component to this. Wonder what colors I used for that piece in the corner there? Take out your phone, download the Zappar app from your app store and zap the code. What happens? At the very least an image of the original painting will pop up and you can see what it looks like, side by side with the coloring page. Beyond that, you'll meet Mist, my liaison to the AR world. She will be a recurring character in all my AR work. Stay tuned and enjoy.

Music Scenes Andy Bennett, Richard A. Peterson, 2004

While more than 80 percent of the world's commercial music is controlled by four multinational firms, most music is made and enjoyed in diverse situations divorced from such corporate behemoths. These fourteen original essays examine the fascinating world of music scenes, those largely inconspicuous sites where clusters of musicians,

producers, and fans explore their common musical tastes and distinctive lifestyle choices. Although most music scenes come and go with hardly a trace, they nevertheless give immense satisfaction to their participants, and a few - New York bop jazz, Merseybeat, Memphis rockabilly, London punk, Bronx hip-hop - achieve fame and spur musical innovations. To date, serious study of the scenes phenomenon has focused mainly on specific music scenes while paying less attention to recurrent dynamics of scene life, such as how individuals construct and negotiate scenes to the various activities. This volume remedies that neglect. The editors distinguish between three types of scenes - local, translocal, and virtual - which provide the organizing framework for the essays. Aspects of local scenes, which are confined to specific areas, are explored through essays on Chicago blues, rave, karaoke, teen pop, and salsa. The section on translocal scenes, which involve the coming together of scattered local scenes around a particular type of music and lifestyle, includes articles on Riot Grrrls, goths, art music, and anarcho-punk. Aspects of virtual scenes, in which fans communicate via the internet, are illustrated using alternative country, the Canterbury sound, postrock, and Kate Bush fans. Also included is an essay that shows how the social conditions in places where jazz was made influenced that music's development.

Paper Paul Sloman, 2009 Focusing on all aspects of paper manipulation, this title covers a wide range of techniques including drawing, painting, sculpture, collage, paper folding, cut-out, pop-up, and installation.
