Strengthening Forensic Science in the United States National Research Council,Division on Engineering and Physical Sciences,Committee on Applied and Theoretical Statistics,Policy and Global Affairs,Committee on Science, Technology, and Law,Committee on Identifying the Needs of the Forensic Sciences Community,2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Harvey Potter's Balloon Farm Jerdine Nolen,1994-04-29 Harvey Potter was a very strange fellow indeed. He was a farmer, but he didn't farm like my daddy did. He farmed a genuine, U.S. Government Inspected Balloon Farm. So begins this enchanting original tall tale. Set in the rural south and populated with a truly unforgettable cast of characters--including, if you look very carefully, a rabbit, a Tyrannosaurus rex, a cat, a chicken, a cow, and a pig hidden in each remarkable illustration--this is a book that is filled with wonderful impossibilities and magical imagination. Told in the great tradition of summer nights and front porch yarns, Harvey Potter's Balloon Farm will lift your spirit right off the ground, just as it does Harvey Potter. Harvey Potter was a very strange fellow indeed. He was a farmer but not like any farmer you've ever met. He didn't grow corn, okra, or tomatoes. Harvey Potter grew balloons. No one knew exactly how he did it, but with the help of the light of a full moon, one friendly child catches a peek of just how Harvey Potter does it. And keeps some magic for herself. This is the best sort of fantasy imaginative, inventive, and believable. Harvey Potter is a wonder he's the owner of a genuine U.S. Government Inspected Balloon farm. And Nolen's tale about this man, narrated by the African-American girl who learns balloon-farming magic from him, is equally wondrous.... This title should sail onto every library shelf. May Nolen grow a bumper crop of books. School Library Journal. Downright glorious. Publishers Weekly(starred review).
