- 📖 **YOUNMARES 8 – OCEANS ACROSS BOUNDARIES: LEARNING FROM EACH OTHER** Simon Jungblut,Viola Liebich,Maya Bode,2018-08-29 This open access book presents the proceedings volume of the YOUNMARES 8 conference, which took place in Kiel, Germany, in September 2017, supported by the German Association for Marine Sciences (DGM). The YOUNMARES conference series is entirely bottom-up organized by and for Young Marine Researchers. Qualified early career scientists moderated the scientific sessions during the conference and provided literature reviews on aspects of their research field. These reviews and the presenters’ conference abstracts are compiled here. Thus, this book discusses highly topical fields of marine research and aims to act as a source of knowledge and inspiration for further reading and research.
- 📖 **IMAGE ENCOUNTERS** Lisa Trever,2022-01-11 Moche murals of northern Peru represent one of the great, yet still largely unknown, artistic traditions of the ancient Americas. Created in an era without written scripts, these murals are key to understandings of Moche history, society, and culture. In this first comprehensive study on the subject, Lisa Trever develops an interdisciplinary methodology of “archaeo art history” to examine how ancient histories of art can be written without texts, boldly inverting the typical relationship of art to archaeology. Trever argues that early coastal artistic traditions cannot be reduced uncritically to interpretations based in much later Inca histories of the Andean highlands. Instead, the author seeks the origins of Moche mural art, and its emphasis on figuration, in the deep past of the Pacific coast of South America. Image Encounters shows how formal transformations in Moche mural art, before and after the seventh century, were part of broader changes to the work that images were made to perform at Huacas de Moche, El Brujo, Pa📖 amarca, and elsewhere in an increasingly complex social and political world. In doing so, this book reveals alternative evidentiary foundations for histories of art and visual experience.

- 📖 **THE USE OF DISPERSANTS IN MARINE OIL SPILL RESPONSE** National Academies of Sciences, Engineering, and Medicine,Division on Earth and Life Studies,Board on Environmental Studies and Toxicology,Ocean Studies Board,Committee on the Evaluation of the Use of Chemical Dispersants in Oil Spill Response,2020-04-24 Whether the result of an oil well blowout, vessel collision or grounding, leaking pipeline, or other incident at sea, each marine oil spill will present unique circumstances and challenges. The oil type and properties, location, time of year, duration of spill, water depth, environmental conditions, affected biomes, potential human community impact, and available resources may vary significantly. Also, each spill may be governed by policy guidelines, such as those set forth in the National Response Plan, Regional Response Plans, or Area Contingency Plans. To respond effectively to the specific conditions presented during an oil spill, spill responders have used a variety of response options📖 including mechanical recovery of oil using skimmers and booms, in situ burning of oil, monitored natural attenuation of oil, and dispersion of oil by chemical dispersants. Because each response method has advantages and disadvantages, it is important to understand specific scenarios where a net benefit may be achieved by using a particular tool or combination of tools. This report builds on two previous National Research Council reports on dispersant use to provide a current understanding of the state of science and to inform future marine oil spill response operations. The response to the 2010 Deepwater Horizon spill included an unprecedented use of dispersants via both surface application and subsea injection. The magnitude of the spill stimulated interest and funding for research on oil spill response, and dispersant use in particular. This study assesses the effects and efficacy of dispersants as an oil spill response tool and evaluates trade-offs associated with dispersant use.
