Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the

Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Wolf Kahn Justin Spring,2011-09-01 This second edition of the definitive book on artist Wolf Kahn adds his achievements of the past 15 years. A new essay by Karen Wilkin highlights the development of his late style, and a generous selection of paintings and pastels showcases his bold, freewheeling new work. The main text, by Justin Spring, traces Khan's art and life to 1993. An insightful essay by Louis Finkelstein illuminates the fusion of abstraction and representation in the work. Kahn's landscapes evoke a particular sense of place and season, yet they are also universal. His radiant hues, tangy color contrasts, and pervasive sense of light have placed him at the forefront of American representational artists.--Publisher website.
