Avatar Tuner Yu Godai,2017-09-05 In the post-apocalyptic Junkyard, a mysterious religious order known only as the Church watches over the brutal competition between

warring tribes as they vie to unify six territories and thereby gain access to Nirvana, the promised land. But the rules of the competition have changed, and the Junkyard has been thrown into chaos after its inhabitants are granted not only demonic transformation powers, but their first taste of human emotion. The Church demands that any tribe seeking entry to paradise must also deliver the strange girl named Sera to them. Serph and the other members of the Embryon struggle to keep Sera safe from enemies on all sides, all while striving to find whatever allies they can in order to beat the Church at their own game. Avatar Tuner, Vol. 2 continues the Quantum Devil Saga, a series inspired by the Shin Megami Tensei video games, which are widely popular in their native Japan and have gained a considerable following in the West. Translated into English for the first time, experience the story of Serph and his tribe as they fight not only to win, but to understand the supernatural forces that govern the Junkyard.

The book covers an immense range of interior styles from 1500 to 1960. In addition, there is a glossary of terms and a historical time chart. The book will prove invaluable to those who visit period homes and, at the same time, will give useful pointers to those planning to restore their own home in a particular period style.

Classroom of the Elite (Light Novel) Vol. 10 Syougo Kinugasa,2022-03-15 POPULARITY CONTEST It's spring, and for the first time in the school's history, no one has been expelled after the third semester exams. As a result, the Advanced Nurturing High School sets a cruel test--each class must choose one of their own members to be expelled. Chaos consumes the first-years as Hirata tries and fails to keep the class from turning on each other, Ichinose strikes a costly bargain with Nagumo, and Ryouen's classmates seem ready to throw him to the wolves. Can Class C make it out of this unscathed--or will they be undone by traitors within?

Shadows Robin McKinley,2013-09-26 A compelling and inventive novel set in a world where science and magic are at odds, by Robin McKinley, the Newbery-winning author of *The Hero and the Crown* and *The Blue Sword*, as well as the classic fantasy titles *Beauty*, *Chalice*, *Spindle's End*, *Pegasus* and *Sunshine* Maggie knows something's off about Val, her mom's new husband. Val is from Oldworld, where they still use magic, and he won't have any tech in his office-shed behind the house. But--more importantly--what are the huge, horrible, jagged, jumpy shadows following him around? Magic is illegal in Newworld, which is all about science. The magic-carrying gene was disabled two generations ago, back when Maggie's great-grandmother was a notable magician. But that was a long time ago. Then Maggie meets Casimir, the most beautiful boy she has ever seen. He's from Oldworld too--and he's heard of Maggie's stepfather, and has a guess about Val's shadows. Maggie doesn't want to know . . . until earth-shattering events force her to depend on Val and his shadows. And perhaps on her own heritage. In this dangerously unstable world, neither science nor magic has the necessary answers, but a truce between them is impossible. And although the two are supposed to be incompatible, Maggie's discovering the world will need both to survive. "A delightful read." --Publishers Weekly "Bound to appeal." --Kirkus Reviews
