Golden Dawn Tarot Deck John Maddox Roberts,Robert Wang,Israel Regardie,2004 More than thirty years ago, U.S. Games Systems published the The Golden Dawn Tarot, revealing for the first time many truths and secrets of the Hermetic Order of the Golden Dawn, and its interpretation of the tarot. Dr. Robert Wang has faithfully rendered in authentic detail each card of The Golden Dawn Tarot deck based upon the esoteric notebooks of MacGregor Mathers. The card designs follow the symbolic framework of the Inner Tradition formulated by Mathers. Dr. Israel Regardie, the leading author/scholar in the occult field, skillfully guided the creation of The Golden Dawn Tarot, the last great secret teachings of the Order. The deck is now a classic, its symbols and references familiar to tarot experts everywhere.

The Zodiac Atlas R.S. Clemons,2019-09-12 This book is a shorter, more abbreviated, and cheaper version of my first book, 'The Zodiac Killer Enigma; Cracking the Zodiac Killer Code'. This is not a book about the Zodiac Killer. Hundreds of books, articles, movies, television shows and much more are out there if you want to know about the Zodiac Killer. It is a tale that has been told and retold, written and rewritten, thousands of times. This is something you have never seen before, even if you follow this subject. While the book must cover the basics of the case and introduce new readers to just exactly what a Zodiac Killer is, what he did, and the many letters he had written, the bulk of the book is dedicated to something completely new that most have never seen. Zodiac mailed a map to he newspapers and police with one of the many letters he had written. This map was completely blank except for a compass that had been drawn over a place called Mt. Diablo. Zodiac said this map could be used to find an alleged string of bombs he had planted beside of a road somewhere waiting for a school bus to go by. He also said this map somehow involved something called radians. But no one knew how to use a blank map to find marked locations. For over half a century this remained a mystery, until now. A bomb schematic sent by the mad man and puzzle maker turned out to be one of the keys for this map, one of a couple. An overlay key. Using a method that many examples can found in history and is also taught in the military, he created a map overlay disguised as a bomb drawing. When two points on this drawing are aligned with two points on the map, one being the compass, marked locations can be revealed as well as a section of highway marked with a string of bombs. Whether these bombs were real or not is beside the point (but you would think that the world would want an answer to that question) , what the real mystery and importance of these places are is another question entirely. Zodiac was most famous for the codes he created to taunt the police and not the murders he committed. Only one of his codes was ever said to have been solved while several others remain a mystery to this very day. His most famous unsolved code is called the '340 code" for the 340 symbols that comprise the code in a grid like formation. This book will also delve into the possibility that this code is also an overlay key for this map and it used to find the long sought after radians that Zodiac said we would find. Clues and evidence from his letters go to support this very idea. That is for you to decide. Don't believe what I tell you. Believe what I show you. Believe your own eyes. This may be the key that someone uses to solve the mystery once and for all.

The Zodiac Killer Map R. S. Clemons,2019-09-05 Do you want to know a secret? A secret that no one else has ever seen, about one of the greatest unsolved mysteries of our time, not to mention history, that is actually real? This book will show you. It's all about a mysterious map. A map created by a serial killer, that once unlocked, reveals the marked locations of bombs, murders, and mystery. It all started in San Francisco in the summer of 1969, when a butcher calling himself The Zodiac, mailed this map along with a series of codes to police and newspapers. In the decades that followed, FBI, NSA, CIA, every intelligence agency in the country, code breakers around the globe, millions of dollars, and untold man hours and have all went into trying to solve the mystery of these codes and map. All to no avail, until now. The key to it all, lie hidden in a simple sketch the killer had created. A blueprint he claimed to be a bomb, but wasn't a depiction of a bomb at all. In reality, it was one of the keys to the map. A key meant to be overlaid, exposing a section of highway marked by a string of bombs. This was not the only key to the map. There are more. Do you want to know the secret to the Zodiac Map? The secret of the Zodiac Killer Enigma? Of course, you do. Just click on the link and read the book. This print issue features full color images.
