Earth Observation Science and Applications for Risk Reduction and Enhanced Resilience in Hindu Kush Himalaya Region Birendra Bajracharya,Rajesh Bahadur Thapa,Mir A. Matin,2021-08-14 This open access book is a consolidation of lessons learnt and experiences gathered from our efforts to utilise Earth observation (EO) science and applications to address environmental challenges in the Hindu Kush Himalayan region. It includes a complete package of knowledge on service life cycles including multi-disciplinary topics and practically tested applications for the HKH. It comprises 19 chapters drawing from a decade's worth of experience gleaned over the course of our implementation of SERVIR-HKH – a joint initiative of NASA, USAID, and ICIMOD – to build capacity on using EO and geospatial technology for effective decision making in the region. The book highlights SERVIR's approaches to the design and delivery of information services – in agriculture and food security; land cover and land use change, and ecosystems; water resources and hydro-climatic disasters; and weather and climate services. It also touches upon multidisciplinary topics such as service planning; gender integration; user engagement; capacity building; communication; and monitoring, evaluation, and learning. We hope that this book will be a good reference document for professionals and practitioners working in remote sensing, geographic information systems, regional and spatial sciences, climate change, ecosystems, and environmental analysis. Furthermore, we are hopeful that policymakers, academics, and other informed audiences working in sustainable development and evaluation – beyond the wider SERVIR network and well as within it – will greatly benefit from what we share here on our applications, case studies, and documentation across cross-cutting topics.

Encyclopedia of Ancient and Forbidden Secrets Robert Nye,2019-09-04 Encyclopedia of Ancient and Forbidden Secretscolorings, the S.S. has its own rites, festivals, rituals and burial customs. The spiritual center of the S.S. - dedicated entirely to the development of these and other public rituals, is the Ancestral Heritage Office.Reichsfuhrer S.S., Himmler, is an avid student of the occult. An SS occult research department, the Ahnernerbe (Ancestral Heritage) was established in 1935 with SS Colonel Wolfram von Sievers at its head. Occult research took SS researchers as far afield as Tibet.As soon as the Nazi movement had sufficient funds, it began to organize a number of expeditions to Tibet and these succeeded one another practically without interruption through the present day. It is conjectured that the Nazis wish to find Shambala, an ancient center of power which is said to be accessible through hidden tunnels in Tibet.The strongest influence on Hitler in this regard was Dietrich Eckart (1868-1923). Most biographers have underestimated the influence that Eckart exerted on Hitler. He was the wealthy publisher and editor-in-chief of an anti-semitic journal which he called In Plain German. Eckart was also a committed occultist and a master of magic. As an initiate, Eckart belonged to the inner circle of the Thule Society as well as other esoteric orders.There can be no doubt that Eckart - who had been alerted to Hitler by other Thulists - trained Hitler in techniques of self confidence, self projection, persuasive oratory, body language and discursive sophistry. With these tools, in a short period of time he was able to move the obscure workers party from the club and beer hall atmosphere to a mass movement. The emotion charged lay speaker became an expert orator, capable of mesmerizing a vast audience.

Finnegans Wake James Joyce,2024-03-22 James Joyce's *Finnegans Wake* is a literary masterpiece that defies conventional description. Published in 1939, this enigmatic novel stands as one of the most complex and challenging works in the English language. Set in a dream-like landscape, *Finnegans Wake* delves into the subconscious mind, blurring the boundaries between reality and myth, language and music, past and present. At its heart lies the story of the mythical figure of HCE (Here Comes Everybody), his wife ALP (Anna Livia Plurabelle), and their children, as they navigate a world teeming with cryptic allusions, linguistic puzzles, and literary references. Through a kaleidoscopic blend of languages, dialects, and wordplay, Joyce crafts a narrative that is both bewildering and mesmerizing. *Finnegans Wake* is a linguistic tour de force, challenging readers to unravel its intricate layers of meaning and interpretation. It is a work that invites exploration, experimentation, and endless speculation, leaving an indelible mark on the landscape of modern literature. Joyce's magnum opus continues to fascinate and perplex readers, cementing its place as a seminal work of British literary history. JAMES JOYCE [1882-1941], Irish author, is a key figure in modernist literature with works such as *Dubliners* [1914], *A Portrait of the Artist as a Young Man* [1916], and *Ulysses* [1922].

Towards Sustainable Global Food Systems Ruerd Ruben,Jan Verhagen,2019-04-30 One of the major knowledge challenges in the domain of Resilient and Sustainable Food Systems refers to the integration of perspectives on consumption, patterns that support public health, inclusive value chains, and environmentally sustainable food production. While there is a long record of the analysis of separate interventions, this special issue generates integrated insights, provides cross-cutting perspectives, and outlines practical and policy solutions that address these global challenges.The collection of papers promotes the view that sustainable food systems require thorough insights into the structure and dynamics of agri-food production systems, the drivers for integrating food value chains and markets, and key incentives for supporting healthier consumer choices. On the production side, potential linkages between agricultural commercialization and intensification and their effects for food security and nutritional outcomes are analyzed. Value Chains are assessed for their contribution to improving exchange networks and markets for food products that simultaneously support efficiency, circularity, and responsiveness. Individual motives and market structures for food consumption need to be understood in order to be able to outline suitable incentives to enhance healthy dietary choice.The contributed papers focus on interfaces between food system activities and processes of adaptive change that are critical for overcoming key constraints and trade-offs between sustainable food and healthy diets.

Dracula in Visual Media John Edgar Browning,Caroline Joan (Kay) Picart,2014-01-10 This is a comprehensive sourcebook on the world's most famous vampire, with more than 700 citations of domestic and international Dracula films, television programs, documentaries, adult features, animated works, and video games, as well as nearly a thousand comic books and stage adaptations. While they vary in length, significance, quality, genre, moral character, country, and format, each of the cited works adopts some form of Bram Stoker's original creation, and Dracula himself, or a recognizable vampiric semblance of Dracula, appears in each. The book includes contributions from Dacre Stoker, David J. Skal, Laura Helen Marks, Dodd Alley, Mitch Frye, Ian Holt, Robert Eighteen-Bisang, and J. Gordon Melton.

Ecosystem-Based Disaster and Climate Resilience Mahua Mukherjee,Rajib Shaw,2021-08-04 This book provides an introduction to the critical role of ecosystem-based disaster risk resilience (Eco-DRR) for building community resilience to multiple environmental risks such as rising heat, water stress, and pollution. Blue-green infrastructure (BGI) is an Eco-DRR tool that is an under-explored paradigm and can respond as one common strategy to targets set by the Sustainable Development Goals (UNDP), Climate Agreements (UNEP), the Sendai Framework (UNISDR), and the New Urban Agenda (UNCHS). Highlighted here in a systematic way is the importance of blue-green infrastructures in resilience building. The purpose is to introduce readers to the challenging context of development and opportunity creation for Eco-DRR. The roles of policy, scientific research, and implementation are presented cohesively. An attractive proposition of the book is a collection of case studies from different parts of the world where integration of BGI is experimented with at various levels of success. It envisages that shared tacit experiences from the realm of practice will further strengthen explicit knowledge. The focus in this book is on need and context building, policy and science (investigation, analysis, and design), case studies, and a road map for the future in four successive parts. Each part is self-sufficient yet linked to its predecessor, successor, or both, as the case may be.

Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Andersonville John McElroy,2000-02-20 The years of 1864-65 were a season of desperate battles, but in that time many more Union soldiers were slain behind the Rebel army lines by starvation and exposure than were killed by cannon and rifle. This is McElroy's account of the horrible spectacle of Andersonville prison, where 70,000 young Union soldiers died under appalling conditions. 150 illustrations.
