**Dictionary of Architecture and Building Construction** Nikolas Davies,Erkki Jokiniemi,2008-06-19 With more than 20,000 words and terms individually defined, the Dictionary offers huge coverage for anyone studying or working in architecture, construction or any of the built environment fields. The innovative and detailed cross-referencing system allows readers to track down elusive definitions from general subject headings. Starting from only the vaguest idea of the word required, a reader can quickly track down precisely the term they are looking for. The book is illustrated with stunning drawings that provide a visual as well as a textual definition of both key concepts and subtle differences in meaning. Davies and Jokiniemi's work sets a new standard for reference books for all those interested in the buildings that surround us. **Roman Building** Jean-Pierre Adam,2005-11-01 With over 750 illustrations, Roman Buildings is a thorough and systematic examination of Roman architecture and building practice, looking at large-scale public buildings as well as more modest homes and shops. Placing emphasis on the technical aspects of the subject, the author follows the process of building through each stage -- from quarry to standing wall, from tree to roof timbers -- and describes how these materials were obtained or manufactured. The author also discusses interior decoration and looks at the practical aspects of water supply, heating and roads.

**Dictionary of Architecture and Construction** Cyril M. Harris,1975 Updated and expanded, this Fourth Edition of the most trusted reference in architecture offers the most comprehensive coverage of architectural and construction terms available. This classic dictionary now features nearly 25,000 definitions (including 2,800 new terms), 2,500 illustrations (including 200 new illustrations), and maintains its extraordinary visual appeal and easy-to-read page design.Prepared by a renowned architectural editor in association with expert contributors and incorporating the work of many standards groups, the book presents clear, concise definitions of terms in nearly 80 working areas. The Fourth Edition covers new industry terms which have emerged due to changes in engineering and building technologies, organizations, materials, and legal developments, and has been expanded to include more historic architectural styles. New terms include:LegalArchitectural Barriers ActWheelchair AccessibleMaterialsFibrous ConcreteLatex MortarPolymer-Based StuccoConcrete Compliance ConformityRefractory MortarOrganizationsBuilding Research Establishment (formerly Building Research Station) of Great BritainASTMHistoric Architectural StylesAnglo-PalladianismFrench VictorianIsabellinoMudajarMozarabicNeo-Rococo

**The Guns of Tanith** Dan Abnett,2015-11-01 The fifth novel in Abnett's series finds the troops taking part in an all-out attack on the cities of Phantine. But the helpless are being murdered and one of Gaunt's own men may be responsible. Original.

**Cadian Blood** Aaron Dembski-Bowden,2009 When the Imperial shrine world of Kathur is blighted by Choas, the brave Guardsmen of Cadia are sent to reclaim it. The plague of Nurgle has set in deeply on the planet, forcing the Cadians into battle with an innumerable legion of the infected.

**Provincial Families of the Renaissance** James S. Grubb,2019-12-01 Grubb's comprehensive analysis of his subjects' compelling, if inconspicuous, lives investigates every significant aspect of private experience during the Renaissance: marriage, birth, death, household relations, work, land, social status, and spirituality. Winner of the Society for Italian Historical Studies's Howard R. Marraro Prize Originally published in 1996. Historical writing on the Renaissance has usually focused on the social extremes that co-existed in the great metropolitan centers—on either elites or the underclass. As a result, the world of the middling families and provincial societies remains largely unexplored. Daily experiences in the lesser cities are, however, no less rich and revealing than those of Florence, Venice, and Milan. In addition, writes historian James Grubb, these experiences offer new perspectives from which to reassess familiar assumptions about domestic life in the fifteenth century. Based on memoirs and other records left by thirteen merchant families from the Veneto cities of Verona and Vincenza, Provincial Families of the Renaissance is an engrossing study of daily lives that have until now been overlooked by scholars. Grubb examines the attitudes and experiences of families undistinguished in their modest means and local ambitions from the majority of their compatriots, uncovering a detailed historical landscape rich in social obligations, commercial activities, and religious beliefs. Grubb's comprehensive analysis of his subjects' compelling, if inconspicuous, lives investigates every significant aspect of private experience during the Renaissance: marriage, birth, death, household relations, work, land, social status, and spirituality. In reconstructing provincial life in the Veneto, Grubb discovers in his subjects an independence of mind that mediated their reception of metropolitan ideologies far more than the historiography of the Renaissance might suggest. These unremarkable provincials were agents of their own destiny, influenced in equal measures by prevailing attitudes, local customs, and personal convictions. James Grubb is exploring new terrain in this book. Distinguished by its clarity and eloquence, this is a superior work of historical writing and analysis that merits comparison with the best monographs on the social history of Renaissance Italy.—Gene Brucker, University of California at Berkeley

**Creation Cries Out! The Mazzaroth** Paul Sides,2015-01-01 Creation Cries Out! is the first book in The Original Revelation series. The 14 books in The Original Revelation clearly define the great deception, the false religion, the false messiah, the true Messiah, the Kingdom of God (Yahuah), and the renewed covenant. In this first book Creation Cries Out! we begin our search for the truth with a journey back to Creation to define the message written in the stars by our Creator Yahuah. We reclaim that message to His Glory. We will take a critical look at the origin of mankind, the fall of the angelic realm, myths of the gods that rules over humanity, myths of giants, myths of vampires, and more to help us understand the world in which our ancient ancestors lived. A world communicated throughout the Ages using Mythology as their means of communication. We'll look at the truth behind the myths. We'll explain the origin of the many solar messiahs throughout history, and much more. Creation Cries Out! 3rd Edition - The book of the Mazzaroth, is the most complete book ever written on what the Bible calls the Mazzaroth and what we today call the Zodiac. It is the Heavenly Scroll and source of all the prophets in the Bible. In the Mazzaroth the Plan of Salvation is laid out by the Creator and the Messiah's role is defined. In the Mazzaroth, we find the first prophesies of: - The Sabbath - The Ages of mankind - The first and second comings of the Messiah - The Messiah ben Joseph (suffering servant) - The Messiah ben David (conquering King) - The Fall and Spring Feast Cycles of Yahuah - The Wedding Portrait, the Bride and Bridegroom - The Two Houses of Israel - The source of all pagan kings and Christs - The age of individual life (70 years) ... and much more. In this book I explain how Yahuah used the Zodiac to witness the Gospel to all the prophets, Abraham, the Galatians, Sha'ul (Paul the Apostle), and John the revelator. I explain in detail the visions of Ezekiel, Daniel, and John in Revelation and how they were told to Behold! The Heavenly Scroll and described the Enoch Zodiac in great detail. I explain how the Mazzaroth/Zodiac is the real meaning behind the English word heaven. I bring to light many scriptures throughout the Bible that are specifically speaking of the Zodiac/Heavenly Scroll. In this book, difficult concepts are explained in plain English. I address the question does the Bible condemn the Zodiac, or proclaim it? What is divination, what is the difference between a Prophet and a Soothsayer? What is Astrology and is there a righteous example of it? This book is 430 pages of fully illustrated and well defined Truth that has alluded mankind since the creation of man. I explain how the message in the Zodiac has been perverted and the Battle of the Ages between the Truth of the Creator and sun worship comes down to the Zodiac. The false messiah is defined by the corrupted message found in the Zodiac. The True Messiah is the fulfillment of the Original Revelation from Yahuah to all mankind found written in the stars. This book lays the foundation for The Original Revelation Series.

**The Old Testament in Byzantium** Paul Magdalino,Robert S. Nelson,2010 The Old Testament in Byzantium contains papers from

a Dumbarton Oaks symposium based on an exhibition of early Bible manuscripts titled *In the Beginning: Bibles before the Year 1000*. Topics include manifestations of the holy books in Byzantine manuscript illustration, architecture, and government, as well as in Jewish Bible translations.

**Energy and Seismic Renovation Strategies for Sustainable Cities** Giuseppe Margani, 2019 The principle of sustainability should be strictly connected with safety, since both aim to conserve resources: in the case of sustainability, the resources are typically thought of as environmental, while in the case of safety, the resources are basically human. In spite of this common ground, discussions on sustainability usually give insufficient attention to safety. In the last years the EU has made large investments to increase the energy efficiency of the existing building stock, paving the way for a low-carbon future; however, less effort has been made to enhance its seismic resilience. Therefore, the safety and, consequently, the sustainability of towns situated in earthquake-prone countries remain inadequate. In such countries, energy renovation actions should be combined with seismic retrofitting. However, a number of barriers considerably limit the real possibility of extensively undertaking combined retrofit actions, especially for multi-owner housing and high-rise buildings. These barriers are of different kinds: technical (e.g., unfeasibility and/or ineffectiveness of conventional retrofit solutions), financial (e.g., high renovation costs, insufficient incentives/subsidies), organizational (e.g., occupants' disruption and relocation, renovation consensus by condominium ownerships), and cultural/social (insufficient information and skills, lack of adequate policy measures for promoting renovation actions). This book aims to overcome these barriers and to bridge the gap between sustainability and safety, so to conserve both human and environmental resources.

**Gardens of the Roman Empire** Wilhelmina F. Jashemski, Kathryn L. Gleason, Kim J. Hartswick, Amina-Aïcha Malek, 2017-12-28 In *Gardens of the Roman Empire*, the pioneering archaeologist Wilhelmina F. Jashemski sets out to examine the role of ancient Roman gardens in daily life throughout the empire. This study, therefore, includes for the first time, archaeological, literary, and artistic evidence about ancient Roman gardens across the entire Roman Empire from Britain to Arabia. Through well-illustrated essays by leading scholars in the field, various types of gardens are examined, from how Romans actually created their gardens to the experience of gardens as revealed in literature and art. Demonstrating the central role and value of gardens in Roman civilization, Jashemski and a distinguished, international team of contributors have created a landmark reference work that will serve as the foundation for future scholarship on this topic. An accompanying digital catalogue will be made available at: [www.gardensoftheromanempire.org](http://www.gardensoftheromanempire.org).

**Voices of the Ritual** Nurit Stadler, 2020 *Voices of the Ritual* analyzes the revival of and manifestation of rituals at female saint shrines in the Holy Land. The book's central claim is that, in the Middle East, a turbulent, often violent political context, states tend to have no clear physical borders, and lands are constantly at stake. In this context, deprived ethno-religious groups with no voice in the political, cultural, media, and legal arenas look for alternative venues to voice their entitlements. Through the book I argue that in Israel/Palestine, religious minorities (Jewish, Christian, Muslim, Druze, and others) employ rituals in various sacred places, especially female saints' shrines, to claim their belonging to and appropriation of territory. At the heart of this book is the question: What does this female ritualistic revival mean-politically, culturally, and spatially? To answer this question, I base my analysis on a long ethnographic study (2003-2017) that analyzes the rise of female sacred shrines, focusing on four dimensions of the ritual: the body in motion, female materiality, place, and the rituals encrypted in the Israel/Palestine landscape. The book sets out to examine the popularity of body rituals in sacred places, and the female themes that stem from these rituals. I show that, in the practices at these shrines, mostly canonical, the idea of the body in motion is central, with rituals imitating birth and the cycle of life using a set of body gestures. These mimetic rituals, performed by men and women, are intimate forces that extend between the female saint and the worshippers. Female materiality strengthens intimacy and creates a bridge between the experience and the material. Minority groups in these venues, Jews and Christians, use these sacred shrines, their female contents and intimate bodily ritualistic experience, to stake a claim to and appropriate the land. The intimacy between saint and worshipper (females and males each in their own modes) created with the body that imitates the cycle of life, and the female material scattered around, are keys to intimate claims to the land, making the land familiar to worshippers. Rituals encrypt female themes into the landscape, a dynamic that is taking place in a zone that has for decades been dominated by violent, masculine-disseminated war and conflict--

**Sacred Power, Sacred Space** Jeanne Halgren Kilde, 2008-07-21 Jeanne Halgren Kilde's survey of church architecture is unlike any other. Her main concern is not the buildings themselves, but rather the dynamic character of Christianity and how church buildings shape and influence the religion. Kilde argues that a primary function of church buildings is to represent and reify three different types of power: divine power, or ideas about God; personal empowerment as manifested in the individual's perceived relationship to the divine; and social power, meaning the relationships between groups such as clergy and laity. Each type intersects with notions of Christian creed, cult, and code, and is represented spatially and materially in church buildings. Kilde explores these categories chronologically, from the early church to the twentieth century. She considers the form, organization, and use of worship rooms; the location of churches; and the interaction between churches and the wider culture. Church buildings have been integral to Christianity, and Kilde's important study sheds new light on the way they impact all aspects of the religion. Neither mere witnesses to transformations of religious thought or nor simple backgrounds for religious practice, church buildings are, in Kilde's view, dynamic participants in religious change and goldmines of information on Christianity itself.

The Life and Miracles of Thekla Scott Fitzgerald Johnson, 2006 *The Life and Miracles of Thekla* offers a unique view on the reception of classical and early Christian literature in Late Antiquity. This study examines the *Life and Miracles* as an intricate example of Greek writing and attempts to situate the work amidst a wealth of similar literary forms from the classical world. The first half of the *Life and Miracles* is an erudite paraphrase of the famous second-century Acts of Paul and Thekla. The second half is a collection of forty-six miracles that Thekla worked before and during the composition of the collection. This study represents a detailed investigation into the literary character of this ambitious Greek work from Late Antiquity.

**Stilwell's Mission to China** Charles F. Romanus, Riley Sunderland, 1953 An account of General Stilwell's work with the National Government in the execution of his orders to support China and to assist in improving the combat efficiency of the Chinese Army. The famous march from Burma and the Stilwell-Chennault controversy are also described.

**Star Gods of the Maya** Susan Milbrath, 2010-01-01 "A prodigious work of unmatched interdisciplinary scholarship" on Maya astronomy and religion (*Journal of Interdisciplinary History*). Observations of the sun, moon, planets, and stars played a central role in ancient Maya lifeways, as they do today among contemporary Maya who maintain the traditional ways. This pathfinding book reconstructs ancient Maya astronomy and cosmology through the astronomical information encoded in Pre-Columbian Maya art and confirmed by the current practices of living Maya peoples. Susan Milbrath opens the book with a discussion of modern Maya beliefs about astronomy, along with essential information on naked-eye observation. She devotes subsequent chapters to Pre-Columbian astronomical imagery, which she traces back through time, starting from the Colonial and Postclassic eras. She delves into many aspects of the Maya astronomical images, including the major astronomical gods and their associated glyphs, astronomical almanacs in the Maya codices and changes in the imagery of the heavens over time. This investigation yields new data and a new synthesis of information about the specific astronomical events and cycles recorded in Maya art and architecture. Indeed, it constitutes the first major study of the relationship between art and astronomy in ancient Maya culture. "Milbrath has given us a comprehensive reference

work that facilitates access to a very broad and varied body of literature spanning several disciplines.” —Isis “Destined to become a standard reference work on Maya archeoastronomy . . . Utterly comprehensive.” —Andrea Stone, Professor of Art History, University of Wisconsin, Milwaukee

A Thesaurus of English Word Roots Horace Gerald Danner,2014-03-27 Horace G. Danner’s A Thesaurus of English Word Roots is a compendium of the most-used word roots of the English language. As Timothy B. Noone notes in his foreword: “Dr. Danner’s book allows you not only to build up your passive English vocabulary, resulting in word recognition knowledge, but also gives you the rudiments for developing your active English vocabulary, making it possible to infer the meaning of words with which you are not yet acquainted. Your knowledge can now expand and will do so exponentially as your awareness of the roots in English words and your corresponding ability to decode unfamiliar words grows apace. This is the beginning of a fine mental linguistic library: so enjoy!” In A Thesaurus of English Word Roots, all word roots are listed alphabetically, along with the Greek or Latin words from which they derive, together with the roots’ original meanings. If the current meaning of an individual root differs from the original meaning, that is listed in a separate column. In the examples column, the words which contain the root are then listed, starting with their prefixes, for example, dysacousia, hyperacousia. These root-starting terms then are followed by terms where the root falls behind the word, e.g., acouesthesia and acoumeter. These words are followed by words where the root falls in the middle or the end, as in such terms as bradyacusia and odynacusic.. In this manner, A Thesaurus of English Word Roots places the word in as many word families as there are elements in the word. This work will interest linguists and philologists and anyone interested in the etymological aspects of English language.

**Jokhang** Gyurme Dorje,2010 Lying at the center of an ancient network of Buddhist temples in the Great Temple of Lhasa, the Jokhang Temple is the heart of spiritual and economic life in Tibet. This UNESCO World Heritage Site is the atmospheric focal point of Lhasa, from which bustling narrow lanes of commerce radiate outward in all directions.

**Corinth in Contrast** Steven J Friesen,Sarah James,Daniel Schowalter,2013-10-02 In Corinth in Contrast, archaeologists, historians, art historians, classicists, and New Testament scholars examine the stratified nature of social, economic, political, and religious interactions in the city of Corinth from the Hellenistic period to Late Antiquity.
