Armoured Cruiser Cressy Andrew Choong,2020-03-30 The complete set of builders' plans for the Royal Navy's Victorian era armored cruiser famously sunk during WWI. The builders of British warships created a highly detailed set of plans for each ship upon completion. These highly detailed, multicolored drawings represented the exact appearance and specifications of the ship as it entered service. Today, the National Maritime Museum and Seaforth Publishing are making these invaluable resources available to the public through a series of books featuring high-quality digital reproductions. This volume presents the plans for the armored cruiser HMS Cressy. Launched on December 4th, 1899, it best known for the disaster of September 22nd, 1914, in which Cressy and two sister-ships were sunk by a small submarine. Though obsolete by the First World War, Cressy-class cruisers were innovative ships in their day. In full color, with many close-ups and enlargements, these plans make every aspect of the HMS Cressy clear and comprehensible. Extensive captions point the reader to important features to be found in the plans, and an introduction covers the design's background.

The German Armoured Cruiser SMS Blücher Marsden Samuel,2018-11-19 The SMS Blücher was the last armored cruiser built by the German Empire. She was constructed to counter the new armored cruisers rumored as being built by the British. Blücher was larger than preceding armored cruisers and carried heavier guns but was unable to match the size and armament of the battlecruisers which replaced armored cruisers in the British Royal Navy and - later - the Imperial German Navy (Kaiserliche Marine). When the Germans learned of the true details of these new British ships, called Invincible class, and that they were to be armoured with 12 battleship guns, they realized that the Invincible class was a completely new type of warship, soon to be known as battlecruisers. By the time the Germans learned of this it was too late to turn back and construction of the Blücher took place as scheduled. The ship was named after the Prussian Field Marshal Gebhard von Blücher, the commander of the Prussian forces at the Battle of Waterloo in 1815.

Pyroclastic Rocks Richard V. Fisher,Hans-Ulrich Schmincke,2012-12-06 Pyroclastic Rocks is the first modern comprehensive treatment of what they are and how they were formed. The subject is discussed against a background of plate tectonics theory and

modern advances in volcanology, sedimentology and igneous petrology. The book provides a thorough discussion of magmatic volatiles and pyroclastic processes as well as magma-water interactions. Most of the book is concerned with the wide spectrum of pyroclastic rocks formed on land and under water and by fallout and various flowage mechanisms. Diagenetic processes by which pyroclastic particles are transformed into rocks are discussed in detail. The stratigraphic and tectonic importance of pyroclastic rocks are illustrated using selected case histories. This uniquely integrated account of pyroclastic processes, particles and rocks will prove a valuable aid in reconstructing dynamic aspects of earth evolution as well as predicting future volcanic hazards; understanding sedimentary basins containing petroleum and gas deposits; locating ore deposits in volcanic complexes and heat sources in geothermal prospecting; and facilitating stratigraphic analysis in complex volcanic terrains.

Building the Tatmadaw Maung Aung Myoe, 2009-01-22 Ever since Myanmar regained her independence in January 1948, the Tatmadaw (Myanmar Armed Forces) has been crucial in restoring and maintaining law and order. It is one of the most important institutions in Myanmar politics. Various aspects of the Tatmadaw have been studied. The most notable area of study has been the political role of the military. This study looks at the organizational development of the Myanmar armed forces. It analyses four different aspects of the Tatmadaw: military doctrine and strategy, organization and force structure, armament and force modernization, and military training and officer education. It sets out security perceptions and policies, charting developments in each phase against the situation at the time, and also notes the contributions of the leading actors in the process. Since early 1990s, the Tatmadaw has implemented a force modernization programme. This work studies rationales and strategy behind the force modernization programme and examines the military capabilities of the Tatmadaw. Drawing extensively from archival sources and existing literature, this empirically grounded research argues that, while the internal armed security threat to the state continues to play an important role, it is the external security threat that gives more weight to the expansion and modernization of the Tatmadaw since 1988. It also argues that, despite its imperfections, the Tatmadaw has transformed from a force essentially for counter-insurgency operations into a force capable of fighting in limited conventional warfare.

The Russo-Japanese War 1904-1905 Geoffrey Jukes, 2014-06-06 The Russo-Japanese war saw the first defeat of a major European imperialist power by an Asian country. When Japanese and Russian expansionist interests collided over Manchuria and Korea, the Tsar assumed Japan would never dare to fight. However, after years of planning, Japan launched a surprise attack on the Russian Port Arthur, on the Liaoyang Peninsula in 1904 and the war that followed saw Japan win major battles against Russia. This book explains the background and outbreak of the war, then follows the course of the fighting at Yalu River, Sha-ho, and finally Mukden, the largest battle anywhere in the world before the First World War.

A History of Japanese Theatre Jonah Salz, 2016-07-14 Japan boasts one of the world's oldest, most vibrant and most influential performance traditions. This accessible and complete history provides a comprehensive overview of Japanese theatre and its continuing global influence. Written by eminent international scholars, it spans the full range of dance-theatre genres over the past fifteen hundred

years, including noh theatre, bunraku puppet theatre, kabuki theatre, shingeki modern theatre, rakugo storytelling, vanguard butoh dance and media experimentation. The first part addresses traditional genres, their historical trajectories and performance conventions. Part II covers the spectrum of new genres since Meiji (1868–), and Parts III to VI provide discussions of playwriting, architecture, Shakespeare, and interculturalism, situating Japanese elements within their global theatrical context. Beautifully illustrated with photographs and prints, this history features interviews with key modern directors, an overview of historical scholarship in English and Japanese, and a timeline. A further reading list covers a range of multimedia resources to encourage further explorations.

Miniature Ship Models Paul Jacobs, 2008-05-30 This book is the first comprehensive history of how the 1:1200 scale and its 1:1250 continental equivalent became accepted as the modern standard for miniature ship models. The origins can be traced back to the first years of the twentieth century and their use as identification aids by the military during the First World War, but when peace came the manufacturers aimed their increasingly sophisticated products at collectors, and acquiring, modifying or scratch-building miniature ship models has been an avidly pursued hobby ever since. This book charts the commercial rise and fall of the manufacturers, and the advancing technology that produces ever more detailed and accurate replicas. The author - himself a lifetime collector and builder of models - looks at the products of each manufacturer, past and present, rating their quality and suggesting why some are regarded as more collectible than others. But the book deals with more than off-the-shelf models, covering subsidiary issues like painting, modifying and diorama settings, and is illustrated throughout with many of the finest examples of the genre. The combination of fascinating background information with stunning visual presentation will make this book irresistible to any collector or enthusiast.

Major Companies of The Far East and Australasia 1990/91 J. Carr, 2012-12-06 This book represents the seventh edition of what has become an established reference work, MAJOR COMPANIES OF THE FAR EAST & AUSTRALASIA. This volume has been carefully researched and updated since publication of the sixth edition, and provides more company data on the most important companies in the region. The information in the book was submitted mostly by the companies themselves, completely free of charge. For the first time, a third volume has been added to the series, covering major companies in Australia and New Zealand. The companies listed have been selected on the grounds of the size of their sales volume or balance sheet or their importance to the business environment of the country in which they are based. The book will be updated and published every year. Any company that considers it is eligible for inclusion in the next edition of MAJOR COMPANIES OF THE FAR EAST & AUSTRALASIA, should write to the publishers. No charge whatsoever is made for publishing details about a principal Asian company. Whilst the publishers have taken every care to ensure accurate reporting of the company information contained in this book, no liability can be accepted by either the publishers, their

editorial staff, or their distributors for any errors or omissions, nor for the consequences thereof. Graham & Trotman Ltd is a member of the Kluwer Academic Publishers Group and publishes over 450 business and technology books. A catalogue is available on request.
