**Before and After Superflat** Adrian Favell, 2011

This is a history of the Japanese art world from 1990 up to the tsunami of March 2011, and its struggle to find a voice amidst Japan's economic decline and China's economic ascent. It looks at how the pop-culture fantasies of Takashi Murakami, Yoshitomo Nara and the other artists of the Superflat movement came to dominate the art of Japan today. It also delves into what lies behind their imagery of a childish and decadent society unable to face reality.

**Nation Work** Timothy Brook, André

Schmid, 2000-11-08 As increasing attention is drawn to globalization, questions arise about the fate of the nation, a political and social unit that for centuries has seemed the common-sense way to organize the world. In *Nation Work*, Timothy Brook and Andr Schmid draw together eight essays that use historical examples from Asian countries-- China, India, Korea, and Japan--to enrich our understandings of the origin and growth of nations. Asia provides fertile ground for this inquiry, the volume argues, because in Asia the history of the modern nation has been inseparable from global influences in the form of Western imperialism. Yet, while the impetus for building a modern national identity may have come from the need to fashion a favorable place in a world system dominated by Western nations, those engaged in nationalist enterprises found their particular voices more often in relation to tensions within Asia than in relation to more generic tensions

between Asia and the West. With topics ranging from public health measures in nineteenth-century Japan through textual scholarship of Tamil intellectuals, the willful division of Korea's history from China's, the development of China's cotton industry, and the meaning of postnationalism for Chinese artists, the essays reveal the fascinating array of sites at which nation work can take place. This will be essential reading for historians and social scientists interested in Asia. Timothy Brook is Professor of History, Stanford University. Andr Schmid is Assistant Professor of East Asian Studies, University of Toronto.

**Designing Nature** John T. Carpenter, Metropolitan Museum of Art (New York, N.Y.), 2012 Exhibition of paintings, lacquerwork, ceramics, textiles, calligraphy, and other media all in the Rinpa style from 1600 to the present day.

**Edible Insects** Arnold van Huis, Food and Agriculture Organization of the United Nations, 2013 Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Although the majority of consumed insects are gathered in forest habitats, mass-rearing systems are being developed in many countries. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and

support livelihoods in both developing and developed countries. It shows the many traditional and potential new uses of insects for direct human consumption and the opportunities for and constraints to farming them for food and feed. It examines the body of research on issues such as insect nutrition and food safety, the use of insects as animal feed, and the processing and preservation of insects and their products. It highlights the need to develop a regulatory framework to govern the use of insects for food security. And it presents case studies and examples from around the world. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. To fully realise this potential, much work needs to be done by a wide range of stakeholders. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

**Japanese Counterculture** Steven C. Ridgely, 2010  
Explores the significant impact of this countercultural figure of postwar Japan.

**Brand Relevance** David A. Aaker, 2011-01-25  
Branding guru Aaker shows how to eliminate the competition and become the lead brand in your market. This ground-breaking book defines the concept of brand relevance using dozens of case studies—Prius, Whole Foods, Westin, iPad and more—and explains how brand relevance drives market dynamics, which generates opportunities for your

brand and threats for the competition. Aaker reveals how these companies have made other brands in their categories irrelevant. Key points: When managing a new category of product, treat it as if it were a brand; By failing to produce what customers want or losing momentum and visibility, your brand becomes irrelevant; and create barriers to competitors by supporting innovation at every level of the organization. Using dozens of case studies, shows how to create or dominate new categories or subcategories, making competitors irrelevant Shows how to manage the new category or subcategory as if it were a brand and how to create barriers to competitors Describes the threat of becoming irrelevant by failing to make what customer are buying or losing energy David Aaker, the author of four brand books, has been called the father of branding This book offers insight for creating and/or owning a new business arena. Instead of being the best, the goal is to be the only brand around-making competitors irrelevant.

*Hops and Glory* Pete Brown, 2011-08-19 The original India Pale Ale was pure gold in a glass; a semi-mythical beer specially invented, in the 19th century, to travel halfway around the world, through storms and tropical sunshine, and arrive in perfect condition for a long, cold drink on an Indian verandah. But although you can still buy beers with 'IPA' on the label they are, to be frank, a pale imitation of the original. For the first time in 140 years, a keg of Burton IPA has been brewed with the original recipe for a voyage to India by canal and tall ship, around the Cape

of Good Hope; and the man carrying it is the award-winning Pete Brown, Britain's best beer write. Brazilian pirates and Iranian customs officials lie ahead, but will he even make it that far, have fallen in the canal just a few miles out of Burton? And if Pete does make it to the other side of the world with 'Barry' the barrel, one question remains: what will the real IPA taste like? Weaving first-class travel writing with assured comedy, Hops and Glory is both a rollicking, raucous history of the Raj and a wonderfully entertaining, groundbreaking experiment to recreate the finest beer ever produced.

**Imagining the Global** Fabienne Darling-Wolf, 2014-12-22 Based on a series of case studies of globally distributed media and their reception in different parts of the world, *Imagining the Global* reflects on what contemporary global culture can teach us about transnational cultural dynamics in the 21st century. A focused multisited cultural analysis that reflects on the symbiotic relationship between the local, the national, and the global, it also explores how individuals' consumption of global media shapes their imagination of both faraway places and their own local lives. Chosen for their continuing influence, historical relationships, and different geopolitical positions, the case sites of France, Japan, and the United States provide opportunities to move beyond common dichotomies between East and West, or United States and "the rest." From a theoretical point of view, *Imagining the Global* endeavors to answer the question of how one locale

can help us understand another locale. Drawing from a wealth of primary sources—several years of fieldwork; extensive participant observation; more than 80 formal interviews with some 160 media consumers (and occasionally producers) in France, Japan, and the United States; and analyses of media in different languages—author Fabienne Darling-Wolf considers how global culture intersects with other significant identity factors, including gender, race, class, and geography. *Imagining the Global* investigates who gets to participate in and who gets excluded from global media representation, as well as how and why the distinction matters.

**Miracle Brew** Pete Brown, 2017-06-01 Beer is the most popular alcoholic drink on the planet, but few who enjoy it know much about how its four ingredients – hops, malted barley, water and yeast – miraculously combine. From the birth of brewing in the Middle East, through the surreal madness of drink-sodden hop-blessings in the Czech Republic and the stunning recreation of the first ever modern beer, *Miracle Brew* is an extraordinary journey through the nature and science of the world's greatest beverage. Along the way, we'll meet and drink with a cast of characters who reveal the magic of beer and celebrate the joy of drinking it.

The Real North Korea Andrei Lankov, 2015 In *The Real North Korea*, Lankov substitutes cold, clear analysis for the overheated rhetoric surrounding this opaque police state. Based on vast expertise, this book reveals how average North Koreans live, how their leaders rule, and how both survive

*Comparative Perspectives on Gender Equality in Japan and Norway* Masako Ishii-Kuntz,Guro Korsnes Kristensen,Priscilla Ringrose,2021-11-28 This book compares perspectives on gender equality in Norway and Japan, focusing on family, education, media, and sexuality and reproduction as seen through a gendered lens. What can we learn from a comparison between two countries that stand in significant contrast to each other with respect to gender equality? Norway and Japan differ in terms of historical, cultural and socioeconomic backgrounds. Most importantly, Japan lags far behind Norway when it comes to the World Economic Forum's Gender Gap Report. Rather than taking a narrow approach that takes as its starting point the assumption that Norway has so much 'more' to offer in terms of gender equality, the authors attempt to show that a comparative perspective of two countries in the West and East can be mutually beneficial to both contexts in the advancement of gender equality. The interdisciplinary team of researchers contributing to this book cover a range of contemporary topics in gender equality, including fatherhood and masculinity, teaching and learning in gender studies education, cultural depictions of gender, trans experiences and feminism. This unique collection is suitable for researchers and students of gender studies, sociology, anthropology, Japan studies and European studies.

*Man Walks Into A Pub* Pete Brown,2011-08-11 It's an extraordinary tale of yeast-obsessed monks and teetotal prime ministers; of how pale ale fuelled

an Empire and weak bitter won a world war; of exploding breweries, a bear in a yellow nylon jacket and a Canadian bloke who changed the drinking habits of a nation. It's also the story of the rise of the pub from humble origins through an epic, thousand-year struggle to survive misunderstanding, bad government and misguided commerce. The history of beer in Britain is a social history of the nation itself, full of catastrophe, heroism and an awful lot of hangovers. 'a pleasant antidote to more po-faced histories of beer' Guardian 'Like a good drinking companion, Brown tells a remarkable story: a stream of fascinating facts, etymologies and pub-related urban phenomena' TLS 'Packed with bar-room bet-winning facts and entertaining digressions, this is a book into which every pub-goer will want to dip.' Express

**Idols and Celebrity in Japanese Media Culture** P. W. Galbraith, J. G. Karlin, 2012-08-30 This is the most complete and compelling account of idols and celebrity in Japanese media culture to date. Engaging with the study of media, gender and celebrity, and sensitive to history and the contemporary scene, these interdisciplinary essays cover male and female idols, production and consumption, industrial structures and fan movements.

**The Olympics in East Asia** William W. Kelly, Susan Brownell, 2011-02

Craft: An Argument Pete Brown, 2020-06-25 The craft beer boom is the biggest thing to hit brewing and drinking for more than a generation. What started off as a small band of idealistic

hobby brewers is now a multi-billion-dollar global industry, but even its most passionate fans can't actually agree what 'craft beer' is, with some arguing that it's simply marketing hype, and others claiming it doesn't exist at all. Award-winning beer writer Pete Brown digs into this decades-long argument and in doing so, creates a fascinating, complex and hugely satisfying answer. He dismantles the main attempts to define the term 'craft beer' and argues that it is, in fact, undefinable, before shifting emphasis from beer to the broader, older idea of craft in search of answers. He shows that arguments around craft beer have largely forgotten what craft is all about – if they were even aware in the first place. He explores the ever-changing nature of work, the meaning of knowledge, the evolution of language and the ways in which we engage with our immediate environment and the wider world. Arriving back at beer from such an oblique angle, he rediscovers the real reasons why so many people are so passionate about craft beer, and argues that situating beer in a broader understanding of craft shows that the term is rich in meaning, even if it can't be pinned down to a measurable definition. Written in Brown's trademark pub stool conversational style, *Craft: An Argument* provides a new perspective on the biggest trend in global food and drink, as well as making you long for a beer.

**Ambient Media** Paul Roquet, 2016-02-01 *Ambient Media* examines music, video art, film, and literature as tools of atmospheric design in contemporary Japan, and what it means to use media

as a resource for personal mood regulation. Paul Roquet traces the emergence of ambient styles from the environmental music and Erik Satie boom of the 1960s and 1970s to the more recent therapeutic emphasis on healing and relaxation. Focusing on how an atmosphere works to reshape those dwelling within it, Roquet shows how ambient aesthetics can provide affordances for reflective drift, rhythmic attunement, embodied security, and urban coexistence. Musicians, video artists, filmmakers, and novelists in Japan have expanded on Brian Eno's notion of the ambient as a style generating "calm, and a space to think," exploring what it means to cultivate an ambivalent tranquility set against the uncertain horizons of an ever-shifting social landscape. Offering a new way of understanding the emphasis on "reading the air" in Japanese culture, Ambient Media documents both the adaptive and the alarming sides of the increasing deployment of mediated moods. Arguing against critiques of mood regulation that see it primarily as a form of social pacification, Roquet makes a case for understanding ambient media as a neoliberal response to older modes of collective attunement—one that enables the indirect shaping of social behavior while also allowing individuals to feel like they are the ones ultimately in control.

Japanese Cinema Alastair Phillips, Julian Stringer, 2007-12-18 Japanese Cinema includes twenty-four chapters on key films of Japanese cinema, from the silent era to the present day, providing a comprehensive introduction to Japanese cinema history and Japanese culture and society.

Studying a range of important films, from Late Spring, Seven Samurai and In the Realm of the Senses to Godzilla, Hana-Bi and Ring, the collection includes discussion of all the major directors of Japanese cinema including Ozu, Mizoguchi, Kurosawa, Oshima, Suzuki, Kitano and Miyazaki.
