Good Economics for Hard Times Abhijit V. Banerjee, Esther Duflo, 2019-11-12 The

winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.

23 Things They Don't Tell You about Capitalism Ha-Joon Chang, 2011-01-02
INTERNATIONAL BESTSELLER For anyone who wants to understand capitalism not as economists or politicians have pictured it but as it actually operates, this book will be invaluable.-Observer (UK) If you've wondered how we did not see the economic collapse coming, Ha-Joon Chang knows the answer: We didn't ask what they didn't tell us about capitalism. This is a lighthearted book with a serious purpose: to question the assumptions behind the dogma and sheer hype that the dominant school of neoliberal economists-the apostles of the freemarket-have spun since the Age of Reagan. Chang, the author of the international bestseller Bad Samaritans, is one of the world's most respected economists, a voice of sanity-and wit-in the tradition of John Kenneth Galbraith and Joseph Stiglitz. 23 Things They Don't Tell You About Capitalism equips readers with an understanding of how global capitalism works-and doesn't. In his final chapter, How to Rebuild the World, Chang offers a vision of how we can shape capitalism to humane ends, instead of becoming slaves of the market.

Fundamentals of Vehicle Dynamics Thomas Gillespie, 2021-04-29 A world-recognized expert in the science of vehicle dynamics, Dr. Thomas Gillespie has created an ideal reference book that has been used by engineers for 30 years, ranging from an

introduction to the subject at the university level to a common sight on the desks of engineers throughout the world. As with the original printing, *Fundamentals of Vehicle Dynamics*, Revised Edition, strives to find a middle ground by balancing the need to provide detailed conceptual explanations of the engineering principles involved in the dynamics of ground vehicles with equations and example problems that clearly and concisely demonstrate how to apply such principles. A study of this book will ensure that the reader comes away with a solid foundation and is prepared to discuss the subject in detail. Ideal as much for a first course in vehicle dynamics as it is a professional reference, *Fundamentals of Vehicle Dynamics*, Revised Edition, maintains the tradition of the original by being easy to read and while receiving updates throughout in the form of modernized graphics and improved readability. Inasmuch as the first edition proved to be so popular, the Revised Edition intends to carry on that tradition for a new generation of engineers.

Urban Poverty and Transport, 2005 This paper reports the results of a survey of 5,000 households in the Greater Mumbai Region conducted in the winter of 2004. The goal of the survey was to better understand the demand for transport services by the poor, the factors affecting this demand, and the inter-linkages between transport decisions and other vital decisions such as where to live and work. This paper, the first of several research outputs, describes the salient facts about travel patterns in Mumbai for both poor and non-poor households. A striking finding of the survey is the extent to which all households-especially poor households-rely on walking. Overall, 44 percent of commuters in Mumbai walk to work. The proportion of the poor who walk to work is even higher-63 percent. Walking is an even higher modal share for nonwork than for work trips.

Municipal Solid Waste Management in Asia and the Pacific Islands Agamuthu Pariatamby, Masaru Tanaka, 2013-09-05 Solid waste management issues, technologies and challenges are dynamic. More so, in developing and transitory nations in Asia. This book, written by Asian experts in solid waste management, explores the current situation in Asian countries including Pacific Islands. There are not many technical books of this kind, especially dedicated to this region of the world. The chapters form a comprehensive, coherent investigation in municipal solid waste (MSW) management, including, definitions used, generation, sustainable waste management system, legal framework and impacts on global warming. Several case studies from Asian nations are included to exemplify the real situation experienced. Discussions on MSW policy in these countries and their impacts on waste management and minimization (if any) are indeed an eye-opener. Undoubtedly, this book would be a pioneer in revealing the latest situation in the Asian region, which includes two of the world's most dynamic nations in the economic growth. It is greatly envisaged to form an excellent source of reference in MSW management in Asia and Pacific Islands. This book will bridge the wide gap in available information between the developed and transitory/developing nations.

Poverty and Famines Amartya Sen, 1983-01-20 The main focus of this book is on the causation of starvation in general and of famines in particular. The author develops the

alternative method of analysis—the 'entitlement approach'—concentrating on ownership and exchange, not on food supply. The book also provides a general analysis of the characterization and measurement of poverty. Various approaches used in economics, sociology, and political theory are critically examined. The predominance of distributional issues, including distribution between different occupation groups, links up the problem of conceptualizing poverty with that of analyzing starvation.

The Shadow Lines Amitav Ghosh, Amitav, 2010-01-26 Opening in Calcutta in the 1960s, Amitav Ghosh's radiant second novel follows two families -- one English, one Bengali -- as their lives intertwine in tragic and comic ways. The narrator, Indian born and English educated, traces events back and forth in time, from the outbreak of World War II to the late twentieth century, through years of Bengali partition and violence, observing the ways in which political events invade private lives.

Confucius Lives Next Door T.R. Reid, 2013-04-24 Those who've heard T. R. Reid's weekly commentary on National Public Radio or read his far-flung reporting in National Geographic or The Washington Post know him to be trenchant, funny, and cutting-edge, but also erudite and deeply grounded in whatever subject he's discussing. In *Confucius Lives Next Door* he brings all these attributes to the fore as he examines why Japan, China, Taiwan, and other East Asian countries enjoy the low crime rates, stable families, excellent education, and civil harmony that remain so elusive in the West. Reid, who has spent twenty-five years studying Asia and was for five years The Washington Post's Tokyo bureau chief, uses his family's experience overseas—including mishaps and misapprehensions--to look at Asia's social miracle and its origin in the ethical values

outlined by the Chinese sage Confucius 2,500 years ago. When Reid, his wife, and their three children moved from America to Japan, the family quickly became accustomed to the surface differences between the two countries. In Japan, streets don't have names, pizza comes with seaweed sprinkled on top, and businesswomen in designer suits and Ferragamo shoes go home to small concrete houses whose washing machines are outdoors because there's no room inside. But over time Reid came to appreciate the deep cultural differences, helped largely by his courtly white-haired neighbor Mr. Matsuda, who personified ancient Confucian values that are still dominant in Japan. Respect, responsibility, hard work--these and other principles are evident in Reid's witty, perfectly captured portraits, from that of the school his young daughters attend, in which the students maintain order and scrub the floors, to his depiction of the corporate ceremony that welcomes new employees and reinforces group unity. And Reid also examines the drawbacks of living in such a society, such as the ostracism of those who don't fit in and the acceptance of routine political bribery. Much Western ink has been spilled trying to figure out the East, but few journalists approach the subject with T. R. Reid's familiarity and insight. Not until we understand the differences between Eastern and Western perceptions of what constitutes success and personal happiness will we be able to engage successfully, politically and economically, with those whose moral center is governed by Confucian doctrine. Fascinating and immensely readable, *Confucius Lives Next Door* prods us to think about what lessons we might profitably take from the Asian Way--and what parts of it we want to avoid.
