Communicating Protected Areas Denise Hamú, Elisabeth Auchincloss, Wendy Goldstein, 2004 Protected areas operate within complex ecological and social systems, presenting challenges that cannot be resolved by technical solution alone. Achieving the management objectives of protected areas requires a social approach in which strategic communication is a key instrument. This publication explores the often underestimated potential of communication, sharing valuable experiences from protected areas across the world, drawing on papers presented at the Vth IUCN World Parks Congress, 2003 and others.

**Shaping the Future of ICT** Ibrahim M. M. El Emary, Anna Brzozowska, 2017-09-19 The International Conference on Communications, Management, and Information Technology (ICCMIT'16) provides a discussion forum for scientists, engineers, educators and students about the latest discoveries and realizations in the foundations, theory, models and applications of systems inspired on nature, using computational intelligence methodologies, as well as in emerging areas related to the three tracks of the conference: Communication Engineering, Knowledge, and Information Technology. The best 25 papers to be included in the book will be carefully reviewed and selected from numerous submissions, then revised and expanded to provide deeper insight into trends shaping future ICT.

*Meiobenthology* Olav Giere, 2013-03-14 This is a comprehensive treatise on meiobenthology, the science of small animals which live, often disregarded even by zoologists, in huge numbers in all aquatic sediments. Covering all the scientific literature on the subject, particular emphasis is placed on ecological and systematic aspects. After a survey of the biotope conditions and important methods, the animals are introduced in a systematic account. This is followed by a report on the meiobenthos in relevant biotopes. The book concludes with an analysis of the productive role and the position of meiofauna in the food web and perspectives for future research.

The theme of the conference was Emerging Research for Knowledge Management in Organizations. The 59 papers accepted for KMO 2018 were selected from 141 submissions and are organized in topical sections on: Knowledge management models and analysis; knowledge sharing; knowledge transfer and learning; knowledge and service innovation; knowledge creation; knowledge and organization; information systems and information science; knowledge and technology management; data mining and intelligent science; business and customer relationship management; big data and IoT; and new trends in IT.

**Sustainable Human Resource Management** Tamás Bányai, 2019-10-30 The concept of sustainability is important for companies both in the case of SMEs and worldwide multinational companies. Some key factors to help a company achieve its sustainability objectives are based on human resource management. Sustainable human resource management is a typical cross-functional task that becomes increasingly important at the strategic level of a company. Industry 4.0 technologies, Internet of Things, and competitive demands, as signs of globalization, have led to significant changes across the organizational structures and human resource strategies of companies. The increasing importance of sophisticated human resource strategies in the life of companies and the intention to find optimal design and operation strategies for sustainable human resource management were a motivation for launching this book. This book offers a selection of papers which explain the impact of smart human resource management on economy. Authors from 14 countries published working examples and case studies resulting from their research in this field. The aim of this book is to help students at the level of BSc, MSc, and PhD level, as well as managers and researchers, to understand and appreciate the concept, design, and implementation of sustainable human resource management solutions.

**Luxury Marketing** Klaus-Peter Wiedmann, Nadine Hennigs, 2012-11-10 The luxury market has transformed from its traditional conspicuous consumption model to a new experiential luxury sensibility that is marked by a change in how consumers define luxury. In a global context, it is crucial to understand why consumers buy luxury, what they believe luxury is, and how their perception of luxury value impacts their buying behavior. This handbook aims to provide a holistic approach to luxury marketing with respect to the characteristics and the key challenges and opportunities of luxury brand management. Therefore, the multifaceted contributions by authors from different parts of the world will offer both a research and management perspective of luxury marketing and deliver a concentrated body of knowledge with contributions from diverse elements.

This colorful and comprehensive book is the perfect addition to every book shelf at home or school.

*Anthropogenic Geomorphology* József Szabó, Lóránt Dávid, Denes Loczy, 2010-04-10 Anthropogenic geomorphology studies society's impact on the geographical environment, and especially on the Earth's surface. This volume provides guidance to students discussing the basic topics of anthropogenic geomorphology. The chapters cover both its system, and its connections with other sciences, as well as the way the subject can contribute to tackling today's practical problems. The book represents all fields of geomorphology, giving an introduction to the diversity of the discipline through examples taken from a range of contexts and periods, and focusing on examples from Europe. It is no accident that anthropogenic geomorphology has been gaining ground within geomorphology itself. Its results advance not only the theoretical development of the science but can be applied directly to social and economic issues. Worldwide, anthropogenic geomorphology is an integral and expanding part of earth sciences curricula in higher education, making this a timely and relevant text.

*Anthropological Approaches to Understanding Consumption Patterns and Consumer Behavior* Chkoniya, Valentina, Madsen, Ana Oliveira, Bukhrashvili, Paata, 2020-04-03 Anthropology is a science specialized in the study of the past and present of societies, especially the study of humans and human behavior. The disciplines of anthropology and consumer research have long been separated; however, it is now believed that joining them will lead to a more profound knowledge and understanding of consumer behaviors and will lead to further understanding and predictions for the future. Anthropological Approaches to Understanding Consumption Patterns and Consumer Behavior is a cutting-edge research publication that examines an anthropological approach to the study of the consumer and as a key role to the development of societies. The book also provides a range of marketing possibilities that can be developed from this approach such as understanding the evolution of consumer behavior, delivering truly personalized customer experiences, and potentially creating new products, brands, and services. Featuring a wide range of topics such as artificial intelligence, food consumption, and neuromarketing, this book is ideal for marketers, advertisers, brand managers, consumer behavior analysts, managing directors, consumer psychologists, academicians, social anthropologists, entrepreneurs, researchers, and students.
