**The Obamas** Jodi Kantor, 2012-01-10 When Barack Obama won the 2008 presidential election, he also won a long-running debate with his wife Michelle. Contrary to her fears, politics now seemed like a worthwhile, even noble pursuit. Together they planned a White House life that would be as normal and sane as possible. Then they moved in. In the Obamas, Jodi Kantor takes us deep inside the White House as they try to grapple with their new roles, change the country, raise children, maintain friendships, and figure out what it means to be the first black President and First Lady. Filled with riveting detail and insight into their partnership, emotions and personalities, and written with a keen

eye for the ironies of public life, *The Obamas* is an intimate portrait that will surprise even readers who thought they knew the President and First Lady.

*The Audacity of Hope* Barack Obama, 2006-10-17 #1 NEW YORK TIMES BESTSELLER • Barack Obama's lucid vision of America's place in the world and call for a new kind of politics that builds upon our shared understandings as Americans, based on his years in the Senate "In our lowdown, dispiriting era, Obama's talent for proposing humane, sensible solutions with uplifting, elegant prose does fill one with hope."—Michael Kazin, *The Washington Post* In July 2004, four years before his presidency, Barack Obama electrified the Democratic National Convention with an address that spoke to Americans across the political spectrum. One phrase in particular anchored itself in listeners' minds, a reminder that for all the discord and struggle to be found in our history as a nation, we have always been guided by a dogged optimism in the future, or what Obama called "the audacity of hope." *The Audacity of Hope* is Barack Obama's call for a different brand of politics—a politics for those weary of bitter partisanship and alienated by the "endless clash of armies" we see in congress and on the campaign trail; a politics rooted in the faith, inclusiveness, and nobility of spirit at the heart of "our improbable experiment in democracy." He explores those forces—from the fear of losing to the perpetual need to raise money to the power of the media—that can stifle even the best-

intentioned politician. He also writes, with surprising intimacy and self-deprecating humor, about settling in as a senator, seeking to balance the demands of public service and family life, and his own deepening religious commitment. At the heart of this book is Barack Obama's vision of how we can move beyond our divisions to tackle concrete problems. He examines the growing economic insecurity of American families, the racial and religious tensions within the body politic, and the transnational threats—from terrorism to pandemic—that gather beyond our shores. And he grapples with the role that faith plays in a democracy—where it is vital and where it must never intrude. Underlying his stories is a vigorous search for connection: the foundation for a radically hopeful political consensus. Only by returning to the principles that gave birth to our Constitution, Obama says, can Americans repair a political process that is broken, and restore to working order a government that has fallen dangerously out of touch with millions of ordinary Americans. Those Americans are out there, he writes—"waiting for Republicans and Democrats to catch up with them."

**First Cameraman** Arun Chaudhary, 2012-08-21 The first official White House videographer chronicles his time capturing behind-the-scenes moments of the president and his administration. From the early months of the 2008 campaign and through the first two and a half years of the Obama administration, Arun Chaudhary had a unique perspective on the president of the United States. I'm sort of like President Obama's wedding videographer, he explains, if every day was a wedding with the same groom but a constantly rotating set of hysterical guests. Some of the moments Chaudhary captures are small, like the president throwing warm-up pitches deep inside Busch Stadium in St. Louis before the All-Star game. Some are intensely emotional, as when Obama comforts a grieving teenager whose father had died in a devastating tornado. And some are just plain bizarre—like getting thrown out of the Indian parliament by his belt, or being trapped in a White House bathroom

while Obama conducts a YouTube town hall on the other side of the door. Film and politics have been intertwined ever since the first Edison reels rattled in projection halls a century ago. But with the advent of new technologies and a new public that is hungry for images of their leaders, Chaudhary has been in the right place at the right time to participate in the interplay of film and politics at the very highest level. His entertaining and eye-opening book—which includes stories and images of key players such as Barack and Michelle Obama, Joe Biden, and Hillary Clinton, among others—gives readers a unique view of their government and their president in these historic and challenging times.

**Lawless Capitalism** Steven A. Ramirez, 2014-06 In this innovative and exhaustive study, Steven A. Ramirez posits that the subprime mortgage crisis, as well as the global macroeconomic catastrophe it spawned, is traceable to a gross failure of law. The rule of law must appropriately channel and constrain the exercise of economic and political power. Used effectively, it ensures that economic opportunity isn't limited to a small group of elites that enjoy growth at the expense of many, particularly those in vulnerable economic situations. In *Lawless Capitalism*, Ramirez calls for the rule of law to displace crony capitalism. Only through the rule of law, he argues, can capitalism be reconstructed.

Analyzing renewables in six very different countries, the author argues that it is the extent to which states have controlled these vested interests that determines the success or failure of renewables.

**Designing Obama** Scott Thomas, 2010

*The Obama Nation* Jerome R. Corsi, 2008-08-05 In this thoroughly researched and documented book, the #1 New York Times bestselling co-author of *Unfit for Command: Swift Boat Veterans Speak Out Against John Kerry* explains why the extreme leftism of an Obama presidency would leave the United States weakened, diminished and divided, why Obama must be defeated -- and how he can be. Barack Obama stepped onto the national political stage when the then-Illinois State senator addressed the 2004 Democratic National Convention. Soon after Obama was elected to the U.S. Senate, author Jerome Corsi began researching Obama's personal and political background. Scrupulously sourced with more than 600 footnotes, *The Obama Nation* is the result of that research. By tracing Obama's career and influences from his early years in Hawaii and Indonesia, the beginnings of his political career in Chicago, his voting record in the Illinois legislature, his religious training and his adoption of Christianity through to his recent involvement in Kenyan politics, his political advisors and fundraising associates and his meteoric campaign for president, Jerome Corsi shows that an Obama presidency would, in his words, be a repeat of the failed extremist politics that have characterized and plagued Democratic Party politics since the late 1960s. In this stunning and comprehensive new book, the reader will learn about: Obama's extensive connections with Islam and radical politics, from his father and step-father's Islamic backgrounds, to his Communist and socialist mentors in Hawaii and Chicago, to his long-term and close associations with former Weather Underground heroes William Ayers and Bernadette Dohrn -- associations much closer than heretofore revealed by the press. Barack and Michelle's 20-year-long religious affiliation with the black-liberation theology of former Trinity United Church of Christ Reverend Jeremiah Wright, whose sermons have

always been steeped in a rage first expressed by Franz Fanon , Stokely Carmichael and Malcolm X, a rage that Corsi shows has deep meaning for Obama. Obama's continuing connections with Kenya, the homeland of his father, through his support for the candidacy of Raila Odinga, the radical socialist presidential contender who came to power amid Islamist violence and church burnings. Obama's involvement in the slum-landlord empire of the Chicago political fixer Tony Rezko, who helped to bankroll Obama's initial campaigns and to purchase of Barack and Michelle's dream-home property. The background and techniques of the Obama campaign's cult of personality, including the derivation of the words hope and change. Obama's far-left domestic policy, his controversial votes on abortion, his history of opposition to the Second Amendment, his determination to raise capital-gains taxes, his impractical plan to achieve universal health care, and his radical plan to tax Americans to fund a global-poverty-reduction program. Obama's naïve, anti-war, anti-nuclear foreign-policy, predicated on the reduction of the military, the eradication of nuclear weapons and an overconfidence in the power of his personality, as if belief in change alone could somehow transform international politics, achieve nuclear-weapons disarmament and withdrawal from Iraq without adverse consequences, for us, for the Iraqis or for Israel. Meticulously researched and documented, The Obama Nation is the definitive source for information on why and how Barack Obama must be defeated -- not by invective and general attacks, but by detailed arguments that are well-researched and fact-based.

**Rising Star** David Garrow, 2017-05-09 New York Times Bestseller **Rising Star** is the definitive account of Barack Obama's formative years that made him the man who became the forty-fourth president of the United States—from the Pulitzer Prize-winning author of *Bearing the Cross* Barack Obama's speech at the 2004 Democratic National Convention instantly catapulted him into the national spotlight and led to his election four years later as America's first African-American president.

In this penetrating biography, David J. Garrow delivers an epic work about the life of Barack Obama, creating a rich tapestry of a life little understood, until now. *Rising Star: The Making of Barack Obama* captivantly describes Barack Obama's tumultuous upbringing as a young black man attending an almost-all-white, elite private school in Honolulu while being raised almost exclusively by his white grandparents. After recounting Obama's college years in California and New York, Garrow charts Obama's time as a Chicago community organizer, working in some of the city's roughest neighborhoods; his years at the top of his Harvard Law School class; and his return to Chicago, where Obama honed his skills as a hard-knuckled politician, first in the state legislature and then as a candidate for the United States Senate. Detailing a scintillating, behind-the-scenes account of Obama's 2004 speech, a moment that labeled him the Democratic Party's rising star, Garrow also chronicles Obama's four years in the Senate, weighing his stands on various issues against positions he had taken years earlier, and recounts his thrilling run for the White House in 2008. In *Rising Star*, David J. Garrow has created a vivid portrait that reveals not only the people and forces that shaped the future president but also the ways in which he used those influences to serve his larger aspirations. This is a gripping read about a young man born into uncommon family circumstances, whose faith in his own talents came face-to-face with fantastic ambitions and a desire to do good in the world. Most important, *Rising Star* is an extraordinary work of biography—tremendous in its research and storytelling, and brilliant in its analysis of the all-too-human struggles of one of the most fascinating politicians of our time.

**Good Economics for Hard Times** Abhijit V. Banerjee, Esther Duflo, 2019-11-12 The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.
