Renaissance Fun Philip Steadman, 2021-04-13 Renaissance Fun is about the technology of Renaissance entertainments in stage machinery and theatrical special effects; in gardens and fountains; and in the automata and self-playing musical instruments that were installed in garden grottoes. How did the machines behind these shows work? How exactly were chariots filled with singers let down onto the stage? How were flaming dragons made to fly across the sky? How were seas created on stage? How did mechanical birds imitate real birdsong? What was 'artificial music', three centuries before Edison and the phonograph? How could pipe organs be driven and made to play themselves by waterpower alone? And who were the architects, engineers, and craftsmen who created these wonders? All these questions are answered. At the end of the book we visit the lost 'garden of marvels' at Pratolino with its many grottoes, automata and water jokes; and we attend the performance of Mercury and Mars in Parma in 1628, with its spectacular stage effects and its music by Claudio Monteverdi – one of the places where opera was born. Renaissance Fun is offered as an entertainment in itself. But behind the show is a more serious scholarly argument, centred on the enormous influence of two ancient writers on these subjects, Vitruvius and Hero. Vitruvius's *Ten Books on Architecture* were widely studied by Renaissance theatre designers. Hero of Alexandria wrote the *Pneumatics*, a collection of designs for surprising and entertaining devices that were the models for sixteenth and seventeenth century automata. A second book by Hero *On Automata-Making* – much less well

known, then and now – describes two miniature theatres that presented plays without human intervention. One of these, it is argued, provided the model for the type of proscenium theatre introduced from the mid-sixteenth century, the generic design which is still built today. As the influence of Vitruvius waned, the influence of Hero grew.

The Buddha and the Borderline Kiera Van Gelder, 2010-08-01 Kiera Van Gelder's first suicide attempt at the age of twelve marked the onset of her struggles with drug addiction, depression, post-traumatic stress, self-harm, and chaotic romantic relationships—all of which eventually led to doctors' belated diagnosis of borderline personality disorder twenty years later. *The Buddha and the Borderline* is a window into this mysterious and debilitating condition, an unblinking portrayal of one woman's fight against the emotional devastation of borderline personality disorder. This haunting, intimate memoir chronicles both the devastating period that led to Kiera's eventual diagnosis and her inspirational recovery through therapy, Buddhist spirituality, and a few online dates gone wrong. The Hacker Crackdown Bruce Sterling, 2020-08-11 The bestselling cyberpunk author “has produced by far the most stylish report from the computer outlaw culture since Steven Levy's *Hackers*” (Publishers Weekly). Bruce Sterling delves into the world of high-tech crime and punishment in one of the first

books to explore the cyberspace breaches that threaten national security. From the crash of AT&T's long-distance switching system to corporate cyberattacks, he investigates government and law enforcement efforts to break the back of America's electronic underground in the 1990s. In this modern classic, "Sterling makes the hackers—who live in the ether between terminals under noms de net such as VaxCat—as vivid as Wyatt Earp and Doc Holliday. His book goes a long way towards explaining the emerging digital world and its ethos" (Publishers Weekly). This edition features a new preface by the author that analyzes the sobering increase in computer crime over the twenty-five years since *The Hacker Crackdown* was first published. "Offbeat and brilliant." –Booklist "Thoroughly researched, this account of the government's crackdown on the nebulous but growing computer-underground provides a thoughtful report on the laws and rights being defined on the virtual frontier of cyberspace. . . . An enjoyable, informative, and (as the first mainstream treatment of the subject) potentially important book . . . Sterling is a fine and knowledgeable guide to this strange new world." –Kirkus Reviews "A well-balanced look at this new group of civil libertarians. Written with humor and intelligence, this book is highly recommended." –Library Journal

Developing a Sense of Place Tamara Ashley, Alexis Weedon, 2020-10-07

New Perfume Handbook N. Groom, 1997-06-30 The first edition of this unique book established itself as an unparalleled source of information on perfume. Although it is primarily aimed at perfumers and others in the perfume industry, it has also found substantial sales among a wide range of others including aromatherapists, botanists, and many others who wanted to learn more about this faceted subject. The new edition is now aimed squarely at perfumery marketing specialists and others in the industry world-wide and covers in particular the needs of publicity/advertising teams and journalists, together with sales people and consultants at the counters who like to have a wide range of information at their fingertips. Changes include: an expansion of the number of profiles of the perfume houses, and of the 50 or so new perfumes worthy of record which have been launched since the previous edition. There is also increased coverage of the essences and the plants and other material from which they are derived. Coverage of perfume containers is substantially expanded and linked to other parts of the book.

The Animated Man Michael Barrier, 2008-04-07 Film and television.

The Snowball Alice Schroeder, 2009-09-16 Shortlisted for the Financial Times and Goldman Sachs Business Book of the Year Prize 2008 *The Snowball* is the first and will be the only biography of the world's richest man, Warren Buffett, written with his full cooperation and collaboration. Combining a unique blend of *The Sage of Omaha's* business savvy, life story and philosophy, *The Snowball* is essential reading for anyone wishing to discover and replicate the secrets of his business and life success. Warren Buffett is arguably the world's greatest investor. Even as a child he was fascinated by the concept of risk and probability, setting up his first business at the age of six. In 1964 he bought struggling Massachusetts textile firm Berkshire Hathaway and grew it to be the 12th largest corporation in the US purely through the exercise of sound investing principles - a feat never equalled in the annals of business. Despite an estimated net worth of around US\$62 billion, Buffett leads an intriguingly frugal life taking home a salary of only £50,000 a year. His only indulgence is a private jet, an extravagance he

wryly acknowledges by calling it *The Indefensible*. In 2006, he made the largest charitable donation on record, with most of it going to the Bill & Melinda Gates Foundation. *The Snowball* provides a comprehensive, richly detailed insight into one of the world's most extraordinary and much loved public figures.

Austerlitz W.G. Sebald, 2011-12-06 *Austerlitz*, the internationally acclaimed masterpiece by "one of the most gripping writers imaginable" (*The New York Review of Books*), is the story of a man's search for the answer to his life's central riddle. A small child when he comes to England on a Kindertransport in the summer of 1939, one Jacques Austerlitz is told nothing of his real family by the Welsh Methodist minister and his wife who raise him. When he is a much older man, fleeting memories return to him, and obeying an instinct he only dimly understands, he follows their trail back to the world he left behind a half century before. There, faced with the void at the heart of twentieth-century Europe, he struggles to rescue his heritage from oblivion.
