The Barrett Rifle Chris McNab,2016-03-24 The Barrett M82A1 and its derivatives are among the most successful sniping rifles ever manufactured. Now entering its fourth decade of service, the short-recoil, semi-automatic system is capable of firing a devastating .50-caliber round with lethal accuracy over distances of more than 2km. Unconfirmed reports from Afghanistan in 2012 accredit the Barrett with one of history's longest ever kills at 2,815m. This is the technical history of a rifle initially developed as a sporting firearm, but which evolved into a long-range sniping rifle and a formidable military anti-materiel tool, designed to neutralize everything from enemy vehicles to parked aircraft. Adopted by snipers across the world, the Barrett rifles have seen active service in Operation Desert Storm, Iraq, and Afghanistan and have become an important addition to police, armed services, and Special Forces units alike.

American Sniper Chris Kyle,Scott McEwen,Jim DeFelice,2012-01-03 The #1 New York Times bestselling memoir of U.S. Navy Seal Chris Kyle, and the source for Clint Eastwood's blockbuster, Academy-Award nominated movie. "An amazingly detailed account of fighting in Iraq--a humanizing, brave story that's extremely readable." – PATRICIA CORNWELL, New York Times Book Review Jaw-dropping...Undeniably riveting. –RICHARD ROEPER, Chicago Sun-Times From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

He can support special operations missions and is able to engage selected targets from concealed positions at ranges and under conditions that are not possible for the normal rifleman. This field manual provides doctrinal guidance on the mission, personnel, organization, equipment, training, skills, and employment of the Special Forces sniper. It describes those segments of sniping that are unique to Special Forces soldiers and those portions of conventional sniping that are necessary to train indigenous forces. It is intended for use by commanders, staffs, instructors, and soldiers at training posts, United States Army schools, and units. This manual addresses three distinct audiences: Commanders - It provides specific guidance on the nature, role, candidate selection, organization, and employment of sniper personnel. Trainers - It provides a reference for developing training programs. Snipers - It contains detailed information on the fundamental knowledge, skills, and employment methods of snipers throughout the entire operational continuum. The most common measurements that the sniper uses are expressed throughout the text and in many cases are US standard terms rather than metric. Appendix A consists of conversion tables that may be used when mission requirements or environments change. The weapons used by SF are a constant source of interest and speculation, as are SF training, methods and vehicles. The armories of these elite units have developed rapidly to meet their demands and the ever more sophisticated threat. They include for example suppressed piston-driven carbines, programmable grenade launchers that airburst behind hidden enemy and sniper rifles of extreme accuracy and range. This highly researched book gives the reader a privileged insight into this secret world exploring the custom-built weapons that operators carry on capture/kill missions in the 21st Century.

The Sterling Submachine Gun Matthew Moss, 2018-11-29 Designed by a motorcycle racer turned small-arms engineer, George Patchett, the submachine gun that eventually became known as the Sterling was developed during World War II. Some suggest it first saw action during Operation Infatuate with No. 4 Commando, before becoming fully adopted by the British Army in 1953 as the Sterling Machine Carbine (L2A1). It was centre stage for many of Britain's post-colonial conflicts from Malaya to Kenya and from Yemen to Northern Ireland. The silenced L34A1 Sterling-Patchett entered service in 1966 and first saw action deep in the jungles of Vietnam in the hands of the elite special forces of Australia, New Zealand and the United States during prisoner snatches and reconnaissance patrols. Employing first-hand accounts and painstaking technical analysis, this engaging account features carefully selected archive photography and specially commissioned colour artwork depicting the submachine gun that armed British and other forces for nearly 60 years.

The German Sniper Badge 1944-1945 Rolf Michaelis, 2012 Hitler created the Sniper Badge on August 20, 1944, to impel soldiers to train and be used as snipers. Thus the strategic importance of single combat was stressed in highly stylized propaganda. Since the soldiers themselves to a special extent were in sight of the enemy troops, unlike the members of other service arms, experienced the death of their enemies directly, the numbers of volunteers did not reach the planned extent. In this concise history, this badge, as well as the actions of German snipers, is examined and includes color images of badges, weapons, awards, soldbuchs, and war era photos.

Blood Gun Money Ioan Grillo, 2021-02-23 "An eye-opening and riveting account of how guns make it into the black market and into the hands of criminals and drug lords."--Adam Winkler From the author of El Narco and winner of the Maria Moors Cabot Prize, a searing investigation into the enormous black market for firearms, essential to cartels and gangs in the drug trade and contributing to the epidemic of mass shootings. The gun control debate is revived with every mass shooting. But far more people die from gun deaths on the street corners of inner city America and across the border as Mexico's powerful cartels battle to control the drug trade. Guns and drugs aren't often connected in our heated discussions of gun control-but they should be. In Ioan Grillo's groundbreaking new work of investigative journalism, he shows us this connection by following the market for guns in the Americas and how it has made the continent the most murderous on earth. Grillo travels to gun manufacturers, strolls the aisles of gun shows and gun shops, talks to federal agents who have infiltrated biker gangs, hangs out on Baltimore street corners, and visits the ATF gun tracing center in West Virginia. Along the way, he details the many ways that legal guns can cross over into the black market and into the hands of criminals, fueling violence here and south of the border. Simple legislative measures would help close these loopholes, but America's powerful gun lobby is uncompromising in its defense of the hallowed Second Amendment. Perhaps, however, if guns were seen not as symbols of freedom, but as key accessories in our epidemics of addiction, the conversation would shift. Blood Gun Money is that conversation shifter.

So Not Happening Jenny B. Jones, 2009-05-04 New York's social darling just woke up in a nightmare: Oklahoma. Problem is, it's right where God wants her. Bella

Kirkwood had it all: A-list friends at her prestigious private school, Broadway in her backyard, and Daddy's MasterCard in her wallet. Then her father, a plastic surgeon to the stars, decided to trade her mother in for a newer model. When Bella's mom falls in love with a man she met on the Internet--a factory worker with two bratty sons--Bella has to pack up and move in with her new family in Truman, Oklahoma. On a farm no less! Forced to trade her uber-trendy NYC lifestyle for down-home charm, Bella feels like a pair of Rock & Republic jeans in a sea of Wranglers. At least some of the people in her new high school are pretty cool. Especially the hunky football player who invites her to lunch. And maybe even the annoying--but kinda hot--editor of the school newspaper. But before long, Bella smells something rotten in the town of Truman, and it's not just the cow pasture. With her savvy reporter's instincts, she is determined to find the story behind all the secrets. How can a girl go on when her charmed life is gone and God appears to be giving her the total smackdown?
