Native Peoples of the Plains Linda Lowery,2016-08-01 A long time ago, before the Plains region of the United States was divided up into states such as Nebraska, Colorado, and Wyoming, this land was home to American Indians. Twenty-eight unique Indian nations built homes and gathered food in the Plains. They spoke distinct languages, set up political systems, and made art. They used the natural resources available in their region in order to thrive.

- The Wichita lived in houses made of grass. From the outside, they looked like giant haystacks.
- Omaha and Ponca people wore caps made from eagleskin.
- Lakota men carved flutes to play songs for the girls they hoped to marry.

Many American Indians still live in the Plains region. Explore the history of these various nations and find out how their culture is still alive today.

**Output Measures for Public Library Service to Children** Virginia A. Walter,Association for Library Service to Children,Public Library Association,1992 This manual has been designed as a practical guide to quantifying and measuring the results, or outputs, of public library service to children. The basic output measures presented are tailored to reflect library services to children (defined as persons 14 years old and younger) and their care givers. Six categories of measures are presented: (1) library use (children's library visits per child, building use by children, and furniture/equipment use by children); (2) materials use (circulation of children's materials per child, in-library use of children's materials per child, and turnover rate of children's materials); (3) materials availability (children's fill rate, homework fill rate, and picture book fill rate); (4) information services (children's information transactions per child and children's information transaction completion rate); (5) programming (children's program attendance per child); and (6) community relations (class visit rate, child care center contact rate, and annual number of community contacts). The first of three parts of the manual provides an overview of measurement and evaluation, basic information about statistics and data collection and analysis, and suggestions for managing the measurement effort in a particular library. The second part presents each output measure in detail, including the data elements needed and instructions for calculating the measure. The third part presents some techniques for collecting more subjective data, such as focus groups and user surveys, that may help to understand and interpret the quantitative output measure data. Copies of all of the blank forms needed are appended. (4 references) (BBM)

Trouble for Lucy Carla Stevens,1987-10 Lucy! Get that dog away from here! How often do I have to tell you that he is not to go near the oxen. Lucy's father is touchy because he's worried about her mother, who's expecting a baby any day. The year is 1843 and the Stewart family is emigrating to Oregon by wagon train. And Finn, Lucy's frisky fox terrier, just can't seem to stay out of mischief. One day when the wagons break camp to move on, Finn is nowhere to be found. Lucy knows her father will be angry, but she can't help that. She simply has to sneak away from the wagon train and search for her missing puppy. Carla Stevens' story is based on actual journals of the pioneers' journey to Oregon. The text combines with Ronald Himler's striking illustrations to evoke an exciting time in American history.
