Made to Play! Joel Henriques, 2011-10-11 Delight young children and encourage play through unique handmade toys. From sewn and stuffed musical instruments to interlocking paper building blocks and wooden animal figurines, the projects in this book are meant to encourage open-ended play. Organized by kid-loving subjects, the toys here follow the themes of Zoo; House; Blocks, Cars & Trucks; Dress-Up; Music; and Art. Overall, the projects here are meant to stimulate imagination, build confidence through success and

enjoyment, and enhance the bond between family and friends through the creation of unique, artistic handmade toys and crafts. The thirty-five projects in this book include a variety of crafts, from drawing to sewing and light woodworking. The toys presented here are made out of wonderfully tactile materials—repurposed fabrics, wood, and paper—and invite opportunities for creative and imaginative play. Every project is easy to complete, made with accessible materials, and requires little time to make. The projects are simple enough that endless variation can come from the making of each, leaving enough room for you to make the item to suit your own personal interests. With a design aesthetic that is clean, simple, and modern, each project is presented with full-color photos and hand-drawn instructional illustrations and templates. Projects include: • Modern Doll House and Doll House Furniture • Portable Zoo Animals • Abstract Vertical Puzzle • Wooden Nature Scene • Bottle-Cap Tambourine • Exploration Cape • Modern Alphabet Game • Shadow Puppet Theater • And more!

Red Ted Art Margarita Woodley, 2013-03-28 Crafting has never been more popular and Maggy Woodley, the creative force behind Red Ted, is passionate about making things with her children, Max, four, and Pippa, two. Using recycled materials and bits and bobs collected when out and about, here are over 60 utterly irresistible things to make with your kids. From adorable peanut shell finger puppets to walnut babies, loo roll marionettes and egg carton fairy lights, fabric mache bowls, stick men and shell crabs, stone

people, and many more, these are projects for all the family to have fun with. And what's more, the end results are so cute and desirable that they look great around the home, or make wonderfully unique and personal gifts. With a funky, modern design and vibrant full colour photography throughout, this is a must-have addition to every young family's bookshelf.

The Strange Case of Origami Yoda (Origami Yoda #1) Tom Angleberger, 2012-08-07 In this funny, uncannily wise portrait of the dynamics of a sixth-grade class and of the greatness that sometimes comes in unlikely packages, Dwight, a loser, talks to his classmates via an origami finger puppet of Yoda. If that weren't strange enough, the puppet is uncannily wise and prescient. Origami Yoda predicts the date of a pop quiz, guesses who stole the classroom Shakespeare bust, and saves a classmate from popularity-crushing embarrassment with some well-timed advice. Dwight's classmate Tommy wonders how Yoda can be so smart when Dwight himself is so clueless. With contributions from his puzzled classmates, Tommy assembles this first case file in the blockbuster bestselling Origami Yoda series, written by Tom Angleberger, author of Star Wars: Return of the Jedi: Beware the Power of the Dark Side, and hailed by School Library Journal as "honest, funny, and immensely entertaining." Elements of Ethology D. Wood-Gush, 2012-12-06 The object of this book is to introduce ethology to agricultural and veterinary students. Today ethology covers many approaches to the study of animal behaviour which are connected

by one unifying concept: all behaviour must be considered in relation to the ecology and evolutionary history of the species under investigation. This may seem to some to put domesticated animals beyond the scope of classical ethology but, while domestication has involved some behavioural changes, we shall see that much of the behaviour of our species of farm livestock differs little from that of their putative ancestors. It is assumed that students using this book will already have studied some physiology. It is also assumed that they are, essentially, practically minded and with this factor in mind I have discussed behaviour in terms of its function, introducing the principles of ethology within functional categories of behaviour. In order to best illustrate these principles I have taken examples from a variety of species and not confined myself to farm livestock and domestic animals, for fundamental ethological research with these species has been patchy. However at the end of each chapter I have given a list of papers pertaining to farm livestock so that the principles of ethology can be seen in a more practical context and to develop this approach further I have also added some practical problems for discussion at the end of each chapter.

Anatomy for Fantasy Artists Glenn Fabry, 2021-09-28 From an Eisner award winning artist, a guide to creating fantasy figures for comics, graphic novels, sci-fi book covers and illustrations, and computer games. Fantasy artists are unlikely to use models to draw from life but, to be successful, their creations must have a grounding in reality. This book teaches the artist the principles of anatomy, from musculature and skeletal structure through to movement. You can then develop your artistic style by breaking and

bending the rules of anatomy through practical exercises and demonstrations, accompanied by incredible finished artworks. The step-by-step exercises help the artist to fully understand the subtle movements that combine to create expressions, and the flowing movements that constitute actions. This is an indispensable guide for anyone interested in improving and developing their fantasy art figures.

At Home with Handmade Books Erin Zamrzla, 2011 Making your own books is easier than you might think, and Erin Zamrzla shows you how, using Japanese methods to produce a range of delightful projects: from easy-to-fold accordion pamphlets to books using the intricate and distinctive Japanese stab stitch bindings. Traditional bookbinding techniques are applied to creative and contemporary projects that will interest a broad range of beginning crafters, DIYers, and book artists. Zamrzla makes all the techniques accessible and completely nonintimidating by providing clear, step-by-step instructions for even the more complicated stitches. Information on the basics of bookbinding, including book terminology, tools, and techniques are included, and many of the projects encourage the creative use of recycled materials. Each project is featured in a full-color photograph

presenting it in a real-life setting. Additional photos and computer-drawn instructional illustrations offer step-by-step details of construction. Projects include: Unfolding Flower Notes: An accordion book that opens into a string of flowers. Tiny Souvenir Book: An accordion book with envelopes for pages so you can collect memories on the go. Return-to-Sender Mail Book: Made using a four-hole stab binding in the hemp-leaf pattern, the pages of this notebook are contained within an envelope cover so you can simply fill the pages, seal the end, and mail it to a friend, who can then add to the pages and send it back to you. Pillowcase Dream Book: Made using a Yamato binding-a simple two-hole stab binding-the cover of this book is sewn from a pillowcase. Tea Bag Tracing Book: The pages of this book are created from tea bags that are bound in a traditional account-book style.
