Douglas Coupland

Preserver William Shatner,2012-10-09 In the Mirror Universe the tyrannical Emperor Tiberius, once captain of the ISS Enterprise, had great success turning captured alien weaponry to his advantage. Until, that is, his failure to seize the tantalising advances of the ancient First Federation. Now, in the more peaceful universe of the United Federation of Planets, Tiberius sees his second chance. And a new ally will help him take it - his alter ego for whom he has nothing but contempt - Starfleet Captain James T. Kirk. Honorable, idealistic and decent, James T. Kirk is many things Tiberius is not. But he is also a man deeply in love with his wife - and Teilani is dying. To save her life, Kirk is prepared to compromise his ideals and enter into his most dangerous alliance yet. Battling Captain Jean-Luc Picard and a new generation of Starfleet heroes, Kirk must guide Tiberius to a long-abandoned First Federation base which conceals a power so great it will enable Tiberius to conquer the mirror universe - and his own. But on that journey Kirk uncovers long-hidden secrets that raise the stakes far beyond the mere survival of family and friends. At the heart of their quest, something else is waiting: an object from a civilisation whose technology is far more advanced than any Kirk or Tiberius could hope to acquire, placed there for Kirk's eyes only by mysterious aliens who appear to have influenced life within the galaxy over eons of time - a message from the Preservers...

Twelve Years a Slave Solomon Northup,2024-01-04

Filmatised in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Tales of the Dominion War Keith R. A.
DeCandido, 2012-08-14 The Dominion War -- as seen in
seasons 5, 6 and 7 of Star Trek: Deep Space Nine --

introduced a major story arc to the Star Trek universe and brought the Federation closer than it had ever been to total annihilation. Against a background of conflict and chaos, alliances were made and broken, ideals compromised for the sake of survival, fortunes shifted and lives irrevocably shattered as the series explored the impact of war on combatant and civilian alike. It took countless lives and numerous acts of heroism and sacrifice on the part of many people -- human and Klingon, Bajoran and Romulan; yes, and Cardassian too -- to save the day and neutralize the threat of the Dominion. Now top Star Trek authors present twelve new stories of those whose courage helped to win the war, among them Captain Picard from Star Trek: The Next Generation and Captain Calhoun from Star Trek: New Frontier. Featured authors include Greg Cox, Peter David, Kevin Dilmore, Michael Jan Friedman, Dave Galanter, Robert Greenberger, Heather Jarman, Jeffrey Lang, David Mack, Andy Mangels, Michael A. Martin, Josepha Sherman, Susan Schwartz, Dayton Ward and Howard Weinstein.

Microserfs Douglas Coupland, 2011-06-21 From the era-defining author of Generation X comes a novel of overworked coders who escape the serfdom of Bill Gates to forge their own path. They are Microserfs—six code-crunching computer whizzes who spend upward of sixteen hours a day “coding” and eating “flat” foods (food which, like Kraft singles, can be passed underneath closed doors) as they fearfully scan company e-mail to learn whether the great Bill is going to “flame” one of them. But now there’s a chance to become innovators instead of cogs in the gargantuan Microsoft machine. The intrepid Microserfs are striking out on their own—living together in a shared digital flophouse as they desperately try to cultivate well-rounded lives and find love amid the dislocated, subhuman whir and buzz of their computer-driven world.

Diamonds in the Sky Mike Brotherton,2017-10-17 This is a collection of factually based SF edited by Mike Brotherton. Authors include Jerry Oltion, Wil McCarthy, Geoff Landis, Jerry Weinberg, Mike Brotherton, and many more. You can find the source here.

When the Sparrow Falls Neil Sharpson,2021-06-29 Life in the Caspian Republic has taught Agent Nikolai South two rules. Trust No One. And work just hard enough not to make enemies. Here, in the last sanctuary for the dying embers of the human race in a world run by artificial intelligence, if you stray from the path—your life is forfeit. But when a Party propagandist is killed—and is discovered as a “machine”—he’s given a new mission: chaperone the widow, Lily, who has arrived to claim her husband’s remains. But when South sees that she, the first “machine” ever allowed into the country, bears an uncanny resemblance to his late wife, he’s thrown into a maelstrom of betrayal, murder, and conspiracy that may bring down the Republic for good. **WHEN THE SPARROW FALLS** illuminates authoritarianism, complicity, and identity in the digital age, in a page turning, darkly-funny, frightening and touching story that recalls Philip K. Dick, John le Carré and Kurt Vonnegut in equal measure. At the Publisher’s request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Wargaming Compendium Henry Hyde,2013-08-19 An extensive reference guide to the exciting hobby, for beginners as well as longtime players. Wargaming is a fascinating, engrossing, and exciting pastime that encompasses a wide range of different talents. The average wargamer uses the skills of artist, designer, sculptor, illustrator, historian, librarian, researcher, mathematician, and creative writer, as well as the more obvious ones of general, admiral, or air marshal for large games, or perhaps

lieutenant, commodore, or squadron leader for skirmishes. Aside from calling upon many skills, wargaming also covers many aspects of combat, spanning the history of Earth. With science fiction gaming, we plunge into imagined worlds many thousands of years into the future, and a fantasy gamer, of course, deals with eons of imagined history, as anyone who has read *The Lord of the Rings* will know. A wargamer may find themselves recreating an encounter between a handful of adversaries one day, or a massed battle involving perhaps hundreds of miniature troops the next. Moreover, it is possible to play wargames that recreate warfare on land, on sea, in the air, or even in outer space. This book demonstrates the wonderfully varied hobby of wargaming with miniatures, looking at the broad scope of what it has to offer as well as detailed explanations of how to get involved, including comprehensive rules for gladiator combat, Wild West skirmishes, and the horse and musket era, as well as lots of advice for anyone new to wargaming. Whether you're a complete newcomer to the hobby, or a veteran of many years, you'll find plenty in *The Wargaming Compendium* to entertain and inspire you.

Signals from Passionate Minds Jim Meaders, 2012-02-27

From the pen of the creator of *The Summer of My Fourteenth Year* and *Hitchhiking in Each Other's Mind* comes the next exciting chapter in the life of James and his young love, Lilith. James returns in the third episode of his life and his adventures. Now that the reptilian alien Harmony has been exiled, James is ready to face the future, no matter what comes. Joined by his new-found true love, Lilith, our young hero continues his studies at the art school through the generosity of the Voresha Elders completely unaware of what lies ahead of him. Among other intriguing things, there will be the opportunity to spend several months exploring the sights, the sounds and the smells of

Italy. Join James and Lilith as they explore the unexpected and the delightful surprises that lie in wait ahead of the twosome.

Hardware: The Definitive SF Works of Chris Foss Chris Foss, 2011-09-06 Foss's groundbreaking and distinctive science fiction art revolutionized paperback covers in the 1970s and 80s. Dramatically raising the bar for realism and invention, his trademark battle-weary spacecraft, dramatic alien landscapes and crumbling brutalist architecture irrevocably changed the aesthetic of science fiction art and cinema. Featuring work for books by Isaac Asimov, E. E. 'Doc' Smith, Arthur C. Clarke, A. E. Van Vogt and Philip K. Dick, and film design for Ridley Scott and Stanley Kubrick, this volume brings together many rare and classic images that have never been seen or reprinted before. The first comprehensive retrospective of Chris Foss's SF career. "Chris Foss' name has become pre-eminent among sf artists... He is in love with the monstrous, with angular momentum, with inertia-free projectiles and irresistible objects." — Brian Aldiss "[Foss'] creations are real machines, not just an artist's dreams. They combine the two elements so essential to science fiction: realism and a sense of wonder... A medieval goldsmith of future eons." — Alejandro Jodorowsky

Brothers of the Snake Dan Abnett, 2012-01-06 The Iron Snakes Chapter has sworn a pledge to protect the Reef Stars from ruin, whatever the cost. Sergeant Priad and the Damocles Squad battle to preserve humanity against the myriad foes that threaten to destroy it.

Engaging with Videogames: Play, Theory and Practice Dawn Stobbart, Monica Evans, 2019-01-04 This volume was first published by Inter-Disciplinary Press in 2014. *Engaging with Videogames* focuses on the multiplicity of lenses through which the digital game can be understood,

particularly as a cultural artefact, economic product, educational tool, and narrative experience. Game studies remains a highly interdisciplinary field, and as such tends to bring together scholars and researchers from a wide variety of fields and analytical practices. As such, this volume includes explorations of videogames from the fields of literature, visual art, history, classics, film studies, new media studies, phenomenology, education, philosophy, psychology, and the social sciences, as well as game studies, design, and development. The chapters are organised thematically into four sections focusing on educational game practices, videogame cultures, videogame theory, and the practice of critical analysis. Within these chapters are explorations of sexual identity and health, videogame history, slapstick, player mythology and belief systems, gender and racial ideologies, games as a 'body-without organs,' and controversial games from Mass Effect 3 to Raid over Moscow. This volume aims to inspire further research in this rapidly evolving and expanding field.

Hirohito's War Francis Pike, 2016-09-08 Named one of Foreign Affairs' Best Books of 2016 In his magisterial 1,208 page narrative of the Pacific War, Francis Pike's Hirohito's War offers an original interpretation, balancing the existing Western-centric view with attention to the Japanese perspective on the conflict. As well as giving a 'blow-by-blow' account of campaigns and battles, Francis Pike offers many challenges to the standard interpretations with regards to the causes of the war; Emperor Hirohito's war guilt; the inevitability of US Victory; the abilities of General

MacArthur and Admiral Yamamoto; the role of China, Great Britain and Australia; military and naval technology; and the need for the fire-bombing of Japan and the eventual use of the atom bomb on Hiroshima and Nagasaki. Hirohito's War is accompanied by additional online resources, including more details on logistics, economics, POWs, submarines and kamikaze, as well as a 1930-1945 timeline and over 200 maps.

Turkish Cinema Gönül Dönmez-Colin, 2008-11-15 Films often act as a prism that refracts the issues facing a nation, and Turkish cinema in particular serves to encapsulate the cultural and social turmoil of modern-day Turkey. Acclaimed film scholar Gönül Dönmez-Colin examines here the way that national cinema reveals the Turkish quest for a modern identity. Marked by continually shifting ethnic demographics, politics, and geographic borders, Turkish society struggles to reconcile modern attitudes with traditional morals and centuries-old customs. Dönmez-Colin examines how contemporary Turkish filmmakers address this struggle in their cinematic works, positing that their films revolve around ideas of migration and exile, and give voice to previously subsumed “denied identities” such as that of the Kurds. Turkish Cinema also crucially examines how these films confront taboo subjects such as homosexuality, incest, and honor killings, issues that have only become viable subjects of discussion in the new generation of Turkish citizens. A deftly written and thought-provoking study, Turkish Cinema will be invaluable for scholars of Middle East studies and cinephiles alike.

Mirage Men Mark Pilkington, 2010-07-29 Seeking the truth about UFOs in America, Mark Pilkington and John Lundberg uncover a 60 year-old story stranger than any conspiracy thriller. Through the fascinating account of their quest Mark Pilkington reveals the long history of UFOria and its parallels in little known tales from the murky worlds of espionage, psychological warfare and advanced military technology. Along the way he discovers that the truth about flying saucers is stranger and more complex than either the ufologists or debunkers would have us believe. As he crossed the US meeting intelligence agents, disinformation specialists and UFO hunters Pilkington was confronted with

a dizzying array of ever more outrageous claims and counter claims. As a result he began to suspect that, instead of covering up stories of crashed flying saucers, alien contacts and secret underground bases, the US intelligence agencies had actually been promoting them all along. Meanwhile he has to deal with his own uncertainties, the suspicions of the UFO community and a partner who is starting to believe that conspiracy theorists might be right after all. With a fresh, funny and objective approach, Pilkington is the ideal guide to steer us through these strange territories, where nothing is quite as it seems and reality is just a matter of managing perceptions.

X-15 Photo Scrapbook Tony R. Landis, Dennis R. Jenkins, 2003 The North American X-15 was the last in a line of manned rocket-powered research airplanes built during the 1950s to explore ever-faster and higher flight regimes. This was an era before computers were commonplace, and the only way to investigate the unknown was to go there. The program was launched in 1954 specifically to produce the first hypersonic (velocities greater than five times the speed of sound) manned aircraft. Forward-thinking researchers also decided to design the airplane to fly to the edge of space, long before the manned space program had begun in earnest. An in-depth history of the X-15 program may be found in *Hypersonic: The Story of the North American X-15* by Dennis R. Jenkins and Tony R. Landis. This book is a collection of illustrations that were assembled for *Hypersonic* but would not fit into the finished work. Since many of these are significant and most have never before been published, it was decided to print this scrapbook as a companion volume to *Hypersonic*. With over 350 b/w and 50 color photos, this scrapbook provides an excellent visual look at a very exciting research program. Dimensions (width x height): 9 x 9 inches # of pages 108 # of color

photographs: 400 b/w & color photos
