One-Hour Wargames Neil Thomas,2014-09-03 A fun and practical new approach to wargaming that lets you complete a game in about an hour—includes rule sets and scenarios for most popular periods. One of the biggest problems facing wargamers is finding the time to actually play. Most commercially available games require several hours to set up and see to a conclusion; some can even take a whole day or weekend to complete. Apart from time, lack of space can also keep wargamers from enjoying their favorite pastime. In One-hour Wargames, veteran gamer and rule-writer Neil Thomas has addressed both problems. Now it is practical to play a satisfying game in around an hour on a normal dining table or living room floor. The book contains 8 all-new sets of very simple rules for various periods—from Ancient to WW2—and thirty stimulating scenarios which can be played using any of them. All the rules and scenarios are intended to be played on a 3ft x 3ft battlefield. The rules only require a small number of miniatures, so this really is an ideal way for

new gamers, or veterans trying a new period, to get started with minimal investment of time and money. Also ideal for a quick game in the evening with a friend. Also included are sections on campaigns and solo games.

Appendix N Jeffro Johnson,2017-06-28 APPENDIX N: The Literary History of Dungeons & Dragons is a detailed and comprehensive investigation of the various works of science fiction and fantasy that game designer Gary Gygax declared to be the primary influences on his seminal role-playing game, Dungeons & Dragons. It is a deep intellectual dive into the literature of SF/F's past that will fascinate any serious role-playing gamer or fan of classic science fiction and fantasy. Author Jeffro Johnson, an expert role-playing gamer, accomplished Dungeon Master and three-time Hugo Award Finalist, critically reviews all 43 works and authors listed by Gygax in the famous appendix. In doing so, he draws a series of intelligent conclusions about the literary gap between past and present that are surprisingly relevant to current events, not only in the fantastic world of role-playing, but the real world in which the players live.

Battletech Technical Readout 3085 Catalyst Game Labs,2010-10-13 In December 3076, Devlin Stone marshaled the nations of the Inner Sphere and began Operation SCOUR. The two-year final push to Terra was the bloodiest fighting seen in centuries. In the end, Terra had been freed with the Word of Blake

scattered to the darkest corners of the universe. Stepping into that vacuum, Stone forged a new Terran Hegemony in The Republic of the Sphere. With the end of the Jihad, the survivors are rebuilding their shattered armies, introducing new machines to replace those whose factories ceased to exist in the fires of the Jihad. BattleTech Technical Readout: 3085 gives a detailed look at the machines introduced during the waning days of the Jihad and into the founding days of Devlin Stones Republic of the Sphere. This book includes the latest Mechs, battle armor, aerospace and vehicles as well as new late-Jihad support vehicles. In addition, this sourcebook heralds the long-awaited update of Technical Readout: Project Phoenix, featuring brand-new art and additional variants. Conventional infantry make their Technical Readout debut with fifty-six individual infantry formations from classic foot infantry to xeno-planetary soldiers. And finally, after more than twenty years of silence, Land-Air BattleMechs explode back into a Technical Readout with a look at the original four LAMs and their Star League history.
