Three Sheets Zane Lamprey,2010-03-16 Most people have a few drinks to relax after work. For Zane Lamprey, however, having a few (or a few too many) drinks is work. But he’s not complaining. Zane has circled the globe knocking back an endless variety of booze while capturing his imbibing exploits for the cult-hit TV show Three Sheets. And now the Indiana Jones of alcohol consumption has gathered a round of his most amusing adventures, fascinating factoids, and tips for adventurous tipplers into this, the ultimate pub crawler’s memoir. Join him as he ventures, glass in hand, to • Ireland, where whiskey was invented, drinking is a way of life, and beer is the best medicine • Tanzania, where the popular “bee brew,” engortorogi, was accidentally discovered by a woman trying to poison her two-timing husband • Las Vegas, where the scary-to-look-at, tasty-to-sip, and impossible-to-finish-alone Witch Doctor is a better bet than the gaming tables, and a bacon martini is a savory way to wash down Sin City’s famed \$777 burger • Japan, where the celebrated sake is brewed like beer and once featured saliva as a secret ingredient • Poland, where vodka is the equivalent of America’s apple pie (one of the most popular brands is infused with flakes of gold) and lovers of beer constitute an official political party Zane also sips champagne in the French region that gave the bubbly its name and heads to Tequila, Mexico to sample the infamous local spirit from the blue agave plant. He also bellies up to bars in Scotland, Jamaica, Argentina, New Zealand, Belgium, St. Martin, South Africa, and Taiwan. Each destination is a new adventure in libation. Packed with anecdotes, recipes and drinking games, and more hangover remedies than you can shake a swizzle stick at, Three Sheets makes for a delightfully intoxicating cocktail.

Kissing Architecture Sylvia Lavin,2011-05-09 Architecture's growing intimacy with new types of art Kissing Architecture explores the mutual attraction between architecture and other forms of contemporary art. In this fresh, insightful, and beautifully illustrated book, renowned architectural critic and scholar Sylvia Lavin develops the concept of kissing to describe the growing intimacy between architecture and new types of art—particularly multimedia installations that take place in and on the surfaces of buildings—and to capture the sensual charge that is being designed and built into architectural surfaces and interior spaces today. Initiating readers into the guilty pleasures of architecture that abandons the narrow focus on function, Lavin looks at recent work by Pipilotti Rist, Doug Aitken, the firm Diller Scofidio + Renfro, and others who choose instead to embrace the viewer in powerful affects and visual and sensory atmospheres. Kissing Architecture is the first book in a cutting-edge new series of short, focused arguments written by leading critics, historians, theorists, and practitioners from the world of urban development and contemporary architecture and design. These books are intended to spark vigorous debate. They stake out the positions that will help shape the architecture and urbanism of tomorrow. Addressing one of the most spectacular and significant developments in the current cultural scene, Kissing Architecture is an entertainingly irreverent and disarmingly incisive book that offers an entirely new way of seeing--and experiencing--architecture in the age after representation.

Burnished Rows of Steel Jeremy Davies,2016-01-05 Most who read the Declaration of Independence find three foundational liberties promised to our citizens: life, liberty, and the pursuit of happiness. An increasing number of citizens seem to be discovering the fourth: the right to alter or abolish a form of government that leads invariably to tyranny. Since leaving the military and his security contracting work behind, Dave has been preparing himself for the time when exercising the right to alter or abolish may become necessary. When he is approached on behalf of some powerful men who are prepared to risk their fortune to strike a blow against the political tyranny embodied by the president, Dave is prepared to accept the role of assassin. As he prepares to accept the mission of a lifetime, an alternate narrative begins to unfold. He struggles to discover whether the hit will be on behalf of a besieged gun maker or whether it has been orchestrated by members of the president’s own party, who feel that his death would rescue the chances of their party heading into an election. As the motive becomes clear, so does Dave’s course of action. He is caught in a race against time to thwart their plans, not for the leader of a country but for the life of a friend.
