The Great International Paper Airplane Book

Jerry Mander,Howard Luck Gossage,George Dippel,1998-08 Paper airplanes as serious science? No longer shamefully relegated to the back rows of elementary-school sports stadiums, paper airplanes come into their own with this amusing -- and instructive -- book. The Great International Paper Airplane Book documents the proceedings of the first (and possibly only) International Paper Airplane Competition conducted by Scientific American. In addition to the behind-the-scenes story and official records of the Competition, readers will discover intriguing mini-essays on the historical, aesthetic, technological, and folkloric aspects of the paper airplane and on its startling implications for the future of aviation. Best of all, there are dozens of cut-fold-and-fly-them-yourself planes to experiment with. Combining real science with outright fun, this book appeals to paper airplane enthusiasts and would-be aviators of every age.

Water+Ink Coloring Book Winter 2020 Kim

Winberry,2019-07-22 I begin my paintings with a sketch and application of colorful/bright pigment and water to the paper. I disrupt the blends with salt or water, watching as one color blossoms in water, as another color starts to travel across the paper. I utilize India Ink to demarcate changes, also adding swirls other artifacts, in the aim to achieve whimsy. My coloring books are my paintings! I run the paintings through filters and drop the color from them, leaving the lines so that you can add your own color. But wait, there's more... I've added an Augmented Reality component to this. Wonder what colors I used for that piece in the corner there? Take out

your phone, download the Zappar app from your app store and zap the code. What happens? At the very least an image of the original painting will pop up and you can see what it looks like, side by side with the coloring page. Beyond that, you'll meet Mist, my liaison to the AR world. She will be a recurring character in all my AR work. Stay tuned and enjoy.
