Tourism, Ethnicity, and the State in Asian and Pacific Societies Michel Picard,Robert E.

Wood,1997-05-01 The expansion of international tourism is changing the relationship between ethnic groups and states around the globe. Yet tourism's importance for the understanding of ethnicity in the modern world has been generally neglected within the field of ethnic studies. This pioneering volume investigates how international tourism development, state policies of ethnic management, and the active responses of local ethnic groups intersect to reshape ethnic identities and ethnic relations in Asian and Pacific societies. It analyzes the ways in which the very meaning of ethnicity and culture are being contested and reworked in the wake of tourism's impact. Following an introduction that explores the close but often ambivalent relationship between tourism promotion and state ethnic policies, individual contributors examine tourism's varied effects in China, Singapore, Malaysia, Thailand, Indonesia, and the island Pacific in rich ethnographic detail.

An Urban History of China Chonglan Fu,Wenming Cao,2019-07-25 This book considers urban development in China, highlighting links between China's history and civilization and the rapid evolution of its urban forms. It explores the early days of urban dwelling in China, progressing to an analysis of residential environments in the industrial age. It also examines China's modern and postmodern architecture, considered as derivative or lacking spiritual meaning or personality, and showcases how China's traditional culture underpins the emergence of China's modern cities. Focusing on the notion of "courtyard spirit" in China, it offers a study of the urban public squares central to Chinese society, and examines the disruption of the traditional Square model and the rise and growth of new architectural models.

The objective of this book is to answer the following questions regarding technical, economic, and social approaches: 1. What is the current state of the environment? Is it clean? 2. How can we make our environment clean and suitable for humans as well as nature? 3. How can we keep our environment clean through sustainable practices? The re-printed research articles and review papers aim to cover the subjects mentioned below: 1. COVID-19 and the sustainability of a clean environment for humans and nature: visions, challenges, and solutions 2. Clean technologies and nature-based approaches, including environmental remediation and resource circulation 3. Global sanitation, hygiene, and public health issues 4. Economic approaches, including the development of economic models, life cycle assessment, and the circular economy 5. Social awareness and effective education on human rights for procuring clean air and water Through including the latest studies in the above-mentioned fields, this book addresses the technicians, economists, social activists, and decision-makers who are concerned about clean environment concepts for sustainable development of the current and next-generation through respectful interactions between humans and nature.

A History of Chinese Science and Technology Yongxiang Lu, 2014-10-20 A History of Chinese Science and Technology (Volumes 1, 2 & 3) presents 44 individual lectures, beginning with Ancient Chinese Science and Technology in the Process of Human Civilizations and An Overview of Ancient Chinese Science and Technology, and continuing with in-depth discussions of several issues in the history of science and the Needham Puzzle, interspersed with topics on Astronomy, Arithmetic, Agriculture, and Medicine, The Four Great Inventions, and various technological areas closely related to clothing, food, shelter, and transportation. This book is the most authoritative work on the history of Chinese Science and Technology. It is the Winner of the China Book Award, the Shanghai Book Award (1st prize), and the China Classics International (State Administration of Press, Publication, Radio, Film and Television of The People's Republic of China) and offers an essential resource for academic researchers and non-experts alike. It originated with a series of 44 lectures presented to top Chinese leaders, which received very positive feedback. Written by top Chinese scholars in their respective fields from the Institute for the History of Nature Sciences, Chinese Academic Sciences and many other respected Chinese organizations, the book is intended for scientists, researchers and

postgraduate students working in the history of science, philosophy of science and technology, and related disciplines. Yongxiang Lu is a professor, former president and member of the Chinese Academy of Sciences.

A Chinese Bestiary Richard E. Strassberg, 2023-11-03 A Chinese Bestiary presents a fascinating pageant of mythical creatures from a unique and enduring cosmography written in ancient China. The *Guideways through Mountains and Seas*, compiled between the fourth and first centuries b.c.e., contains descriptions of hundreds of fantastic denizens of mountains, rivers, islands, and seas, along with minerals, flora, and medicine. The text also represents a wide range of beliefs held by the ancient Chinese. Richard Strassberg brings the *Guideways* to life for modern readers by weaving together translations from the work itself with information from other texts and recent archaeological finds to create a lavishly illustrated guide to the imaginative world of early China. Unlike the bestiaries of the late medieval period in Europe, the *Guideways* was not interpreted allegorically; the strange creatures described in it were regarded as actual entities found throughout the landscape. The work was originally used as a sacred geography, as a guidebook for travelers, and as a book of omens. Today, it is regarded as the richest repository of ancient Chinese mythology and shamanistic wisdom. The *Guideways* may have been illustrated from the start, but the earliest surviving illustrations are woodblock engravings from a rare 1597 edition. Seventy-six of those plates are reproduced here for the first time, and they provide a fine example of the Chinese engraver's art during the late Ming dynasty. This beautiful volume, compiled by a well-known specialist in the field, provides a fascinating window on the thoughts and beliefs of an ancient people, and will delight specialists and general readers alike.

The Centre of City: Urban Central Structure Beixiang Shi, Junyan Yang, Yi Zheng, 2021-02-08 This book presents the latest research results related to urban center and urban center. It expounds the theoretical connotation, development models, hierarchical function, and spatial layout of the urban central structure through over 200 figures and tables. In addition, it analyzes the threshold characteristics, structural hierarchy, spatial characteristics, and development rules of urban central structure through field research and quantitative researches on the major urban central structures in Asia. Meanwhile, how to solve the issue of construction and layout of urban central structure in planning and design practice is also covered. The book reveals the laws and spatial characteristics of urban central structure and provides a valuable guide both for urban designers and planners as well as researchers and students working in urban design and planning fields. It sheds new light on better

understanding of the urban central structure.

Urban Planning and Development in China and Other East Asian Countries Guanzeng Zhang, Lan Wang, 2018-10-29 This book examines urban development and its role in planning in China and other Asian cities. Starting with a substantial narrative on the history, development philosophy, and urban form of ancient Asian cities, it then identifies the characteristics of urban society and different phases of development history. It then discusses urbanization patterns in China with a focus on spatial layout of the city clusters in the Yangtze River Delta since the 20th Century. Lastly, it explores institutional design and the legal system of urban planning in China and other Asian cities. As a textbook for the “Model Course in English” for international students listed by the Ministry of Education in China, it helps international researchers and students to understand urban development and planning in Asian cities.

International Wooden Furniture Markets International Tropical Timber Organization, International Trade Centre UNCTAD/WTO., 2005 This publication reviews wooden furniture markets in United States, Canada, China, Japan, Egypt, France, Germany, Belgium, the Netherlands, Luxembourg, Spain, Italy, Denmark, and Sweden. It also includes statistical data, selected German furniture standards, a list of useful contacts in China, and list of members of the Global Forest and Trade Network.

Beyond Representation Wen Fong, 1992 Beyond Representation surveys Chinese painting and calligraphy from the eighth to the fourteenth century, a period during which Chinese society and artistic expression underwent profound changes. A fourteenth-century Yuan dynasty (1279 - 1368) literati landscape painting presents a world that is totally different from that portrayed in the monumental landscape images of the early Sung dynasty (960 - 1279). To chronicle and explain the evolution from formal representation to self-expression is the purpose of this book. Wen C. Fong, one of the world's most eminent scholars of Chinese art, takes the reader through this evolution, drawing on the outstanding collection of Chinese painting and calligraphy in The Metropolitan Museum of Art, New York. Focusing on 118 works, each illustrated in full color, the book significantly augments the

standard canon of images used to describe the period, enhancing our sense of the richness and complexity of artistic expression during this six-hundred-year era.

The Last Days of Old Beijing Michael Meyer, 2010-07-23 Journalist Michael Meyer has spent his adult life in China, first in a small village as a Peace Corps volunteer, the last decade in Beijing--where he has witnessed the extraordinary transformation the country has experienced in that time. For the past two years he has been completely immersed in the ancient city, living on one of its famed hutong in a century-old courtyard home he shares with several families, teaching English at a local elementary school--while all around him progress closes in as the neighborhood is methodically destroyed to make way for high-rise buildings, shopping malls, and other symbols of modern, urban life. The city, he shows, has been demolished many times before; however, he writes, the epitaph for Beijing will read: born 1280, died 2008...what emperors, warlords, Japanese invaders, and Communist planners couldn't eradicate, the market economy can. *The Last Days of Old Beijing* tells the story of this historic city from the inside out--through the eyes of those whose lives are in the balance: the Widow who takes care of Meyer; his students and fellow teachers, the first-ever description of what goes on in a Chinese public school; the local historian who rallies against the government. The tension of preservation vs. modernization--the question of what, in an ancient civilization, counts as heritage, and what happens when a billion people want to live the way Americans do--suffuse Meyer's story.

Before the Deluge Deirdre Chetham, 2002-10-18 Chetham's elegiac book about the towns along the banks of the Three Gorges area of the Yangtze River was written on the very eve of their destruction. After great controversy, the Chinese government has begun construction of the world's largest hydroelectric dam in the Three Gorges section of the Yangtze, a place renowned for its beauty. For over two thousand years, the Yangtze has been the great transport route linking the coast with the west and southwest and providing irrigation for the farms that fed China. Once the dam is completed in 2009, the water level will rise as much as 350 feet in a hundred-mile stretch of the river. The water will submerge over a dozen large cities, almost 1,500 villages and towns, and innumerable historical and cultural sites. Over a million people are being moved, voluntarily or otherwise, altering not only their lives, but the lives of a multitude of others whose existence is intertwined with the river. *Before the Deluge* captures a sense of the daily life, traditions and history of the people who live along the Upper Yangtze's Three Gorges area. It chronicles the region's past and present with an eye on the disruption of an existing way of life. Perhaps most importantly, it captures a world that is rapidly vanishing under

the rushing waters of one of the world's largest rivers.

Street Culture in Chengdu Di Wang,2003 A study of the lively street culture in Chengdu from 1870 to 1930, this book explores the relationship between urban commoners and public space, the role of community and neighborhood in public life, and how the reform movement and Republican revolution transformed everyday life in this inland city.

Researching Chinese English: the State of the Art Zhichang Xu,Deyuan He,David Deterding,2017-05-01 This volume offers a timely collection of original research papers on the various features and issues surrounding Chinese English, one of the varieties in World Englishes with a large and increasing number of learners and users. The five sections entitled 'Researching Chinese English Pronunciation', 'Researching Chinese English Lexis, Grammar and Pragmatics', 'Researching Perceptions, Attitudes and Reactions towards Chinese English', 'Researching Cultural Conceptualizations and Identities in Chinese English', and 'Chinese Scholarship on Chinese English', bring together three generations of Chinese and overseas researchers, both established and emerging, who offer lively dialogues on the current research, development and future of Chinese English. The introductory chapter by the editors on the state-of-the-art of researching Chinese English, and a concluding chapter by a leading researcher in World Englishes on the future directions for researching Chinese English make this an essential title for those who wish to gain insights on Chinese English.

The 1937 – 1938 Nanjing Atrocities Suping Lu,2021-08-26 This book presents a comprehensive overview of the Nanjing Massacre, together with an in-depth analysis of various aspects of the event and related issues. Drawing on original source materials collected from various national archives, national libraries, church historical society archives, and university libraries in China, Japan, Germany, United Kingdom and the United States, it represents the first English-language academic attempt to analyze the Nanjing Massacre in such detail and scope. The book examines massacres and other killings, in addition to other war crimes, such as rape, looting, and burning. These atrocities are then explored further via a historical analysis of Chinese survivors' testimony, Japanese soldiers' diaries, Westerners' eyewitness accounts, the news coverage from American and British correspondents, and

American, British and German diplomatic dispatches. Further, the book explores issues such as the role and function of the International Committee for Nanking Safety Zone, burial records of massacre victims, post-war military tribunals, controversies over the Nanjing Massacre, and the 100-Man Killing Contest. This book is intended for all researchers, scholars, graduate and undergraduate students, and members of the general public who are interested in Second World War issues, Sino-Japanese conflicts, Sino-Japan relations, war crimes, atrocity and holocaust studies, military tribunals for war crimes, Japanese atrocities in China, and the Nanjing Massacre.

The Living Tree Weiming Tu, 1994 The underlying themes of this volume are the relations between a central cultural core, situated in China, and the various peripheral communities around the world where large numbers of Chinese have settled, and the way those relations have changed over time. What does it mean today to be Chinese? These questions have many dimensions, which are addressed in varied ways by eleven of the leading scholars of Chinese intellectual life from several parts of the globe. In the twentieth century, China experienced a level of cultural confusion it had never before known. One product of the turmoil was an unprecedented rate of emigration. Another was the challenging of traditional Chinese culture by several Western ideologies, including Marxism. The whole concept of modernity, with all its ambiguities, had profound effects on many aspects of the Chinese world, both in China and abroad. These essays attempt to illuminate how the events of the twentieth century in China affected the Chinese living outside China and suggest important reciprocal influences.
