From creating flag books and fishbones, to blizzards and nesting boxes, you'll gain an invaluable insight into the work of two skilled artists with this fun read! With the help of their thorough instructions and simple illustrations, you'll be on your way to becoming a pro paper crafter in no time at all – Sew magazine A wonderful insight into the work of a truly skilled artist – PaperCrafter The renowned and influential book artist Hedi Kyle shows you step-by-step how to create her unique designs using folding techniques in The Art of the Fold. Bookbinding and paper craft projects include flag books, blizzard books, the fishbone fold, and nesting boxes. Written by the doyenne of artists' books, Hedi Kyle, The Art of the Fold is a wonderful insight into the work of a truly skilled artist. Hedi will show you how to bind a book and fold paper to create over 35 of her cut-fold book designs. The book is beautifully illustrated with Hedi's finished works of art. An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers – how eager I was to explore its possibilities and to share it with whoever was interested. The Flag Book, as I now call it, is a simple accordion and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format allows for easy access, storage and retrieval of information. Yet what happens when the book is stripped away of centuries of preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of The Art of the Fold attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a new direction. When Richard dared me to teach at the Center one evening a week, I was hooked. My career as a book conservator and a book artist has now spanned over 45 years. As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with decrepit books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in Philadelphia have shown me, in retrospect, that the more I taught, t

*The Enchanted Hour* Meghan Cox Gurdon, 2019-01-15 A Wall Street Journal writer's conversation-changing look at how reading aloud makes adults and children smarter, happier, healthier, more successful and more closely attached, even as technology pulls in the other direction. A miraculous alchemy occurs when one person reads to another, transforming the simple stuff of a book, a voice, and a bit of time into complex and powerful fuel for the heart, brain, and imagination. Grounded in the latest neuroscience and behavioral research, and drawing widely from literature, *The Enchanted Hour* explains the dazzling cognitive and social-emotional benefits that await children, whatever their class, nationality or family background. But it's not just about bedtime stories for little kids: Reading aloud consoles, uplifts and invigorates at every age, deepening the intellectual lives and emotional well-being of teenagers and adults, too. Meghan Cox Gurdon argues that this ancient practice is a fast-working antidote to the fractured attention spans, atomized families and unfulfilling ephemera of the tech era, helping to replenish what our devices are leaching away. For everyone, reading aloud engages the mind in complex narratives; for children, it's an irreplaceable gift that builds vocabulary, fosters imagination, and kindles a lifelong appreciation of language, stories and pictures. Bringing together the latest scientific research, practical tips, and reading recommendations, *The Enchanted Hour* will both charm and galvanize, inspiring readers to share this invaluable, life-altering tradition with the people they love most.
