The Cigarette Century Allan Brandt, 2009-01-06 From agriculture to big business, from medicine to politics, *The Cigarette Century* is the definitive account of how smoking came to be so deeply implicated in our culture, science, policy, and law. No product has been so heavily promoted or has become so deeply entrenched in American consciousness. *The Cigarette Century* shows in striking detail how one ephemeral (and largely useless)

product came to play such a dominant role in so many aspects of our lives—and deaths.

The Taking of Mh370 Jeff Wise, 2019-03-25 The most complete and technically informed account to date of what happened to missing Malaysian airliner MH370. Five years after a state-of-the-art Boeing 777 vanished into the night over the South China Sea, renowned science and aviation author Jeff Wise offers a compelling and detailed account of what happened that night and in the months and years that followed. In his follow-up to *The Plane That Wasn't There*, named the Best Kindle Single of 2015, Wise walks readers

through the many developments that have taken place in the meantime and explains why despite spending hundreds of millions of dollars and searching an area of seabed the size of Great Britain, authorities were unable to locate the plane's wreckage. Officials and independent experts were stunned by their failure, but Wise predicted it four years ago. Here he distills the fruits of exhaustive research and arrives at a conclusion that upends our understanding of what humans are capable of, both technologically and morally. Jeff Wise a science journalist specializing in aviation and psychology. A licensed pilot of gliders and light airplanes, he has also written for New York, the New York Times, Time, Businessweek, Esquire, Details, and many others. He is also the author of Extreme Fear: The Science of Your Mind in Danger. A native of Massachusetts, he lives outside New York City with his wife and two sons.
