The World Health Report 2006 World Health Organization,2006-03-23 The 2006 World Health Report focuses on the chronic shortages of doctors, midwives, nurses and other health care support workers in the poorest countries of the world where they are most needed. This is particularly true in sub-Saharan Africa, which has only four in every hundred global health workers but has a quarter of the global burden of disease, and less than one per cent of the world's financial resources. Poor working conditions, high rates of attrition due to illness and migration, and education systems that are unable to pick up the slack reflect the depth of the challenges in these crisis countries. This report considers the challenges involved and sets out a 10-year action plan designed to tackle the crisis over the next ten years, by which countries can strengthen their health system by building their health workforces and institutional capacity with the support of global partners.

Horror to the Extreme Jinhee Choi,Mitsuyo Wada-Marciano,2009-06-01 This book compares production and consumption of Asian horror cinemas in different national contexts and their multidirectional dialogues with Hollywood and neighboring Asian cultures. Individual essays highlight common themes including technology, digital media, adolescent audience sensibilities, transnational co-productions, pan-Asian marketing techniques, and variations on good vs. evil evident in many Asian horror films. Contributors include Kevin Heffernan, Adam Knee, Chi-Yun Shin, Chika Kinoshita, Robert Cagle, Emilie Yeh Yueh-yu, Neda Ng Hei-tung, Hyun-suk Seo, Kyung Hyun Kim, and Robert Hyland.

Horror Film and Psychoanalysis Steven Jay Schneider,2004-06-28 Psychoanalytic theory has been the subject of attacks from philosophers, cultural critics and scientists who have questioned the cogency of its reasoning as well as the soundness of its premises. Nevertheless, when used to shed light on horror cinema, psychoanalysis in its various forms has proven to be a fruitful and provocative interpretative tool. This volume seeks to find the proper place of psychoanalytic thought in critical discussion of cinema in a series of essays that debate its legitimacy, utility and validity as applied to the horror genre. It distinguishes itself from previous work in this area through the self-consciousness with which psychoanalytic concepts are employed and the theorization that coexists with interpretations of particular horror films and subgenres.

The A to Z of Horror Cinema Peter Hutchings,2009-09-02 Horror is one of the most enduring and controversial of all cinematic genres. Horror films range from the subtle and the poetic to the graphic and the gory but what links them all is their ability to frighten, disturb, shock, provoke, delight, irritate, amuse, and bemuse audiences. Horror's capacity to serve as an outlet to capture the changing patterns of our fears and anxieties has ensured not only its notoriety but also its long-term survival and its international popularity. Above all, however, it is the audience's continual desire to experience new frights and evermore-horrifying sights that continue to make films like *The Exorcist*, *A Nightmare on Elm Street*, *Halloween*, *Night of the Living Dead*, *The Texas Chainsaw Massacre*, *Psycho*, *Ringu*, and *The Shining* captivate viewers. The A to Z of Horror Cinema traces the development of horror cinema from the beginning of the 20th century to the present day. This is done through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries. Entries cover all the major movie villains, including Frankenstein and his monster, the vampire, the werewolf, the mummy, the zombie, the ghost, and the serial killer; the film directors, producers, writers, actors, cinematographers, make-up artists, special effects technicians, and composers who have helped to shape horror history; significant production companies and the major films that have come to stand as milestones in the development of the horror genre; and the different national traditions in horror cinema as well as horror's most popular themes, formats, conventions, and cycles.

Monsters and Mad Scientists Andrew Tudor,1991-01-15 In this book the author provides a systematic history of the horror movie genre, discussing individual movies in detail, while also drawing out the more general patterns in the development of the genre. It is based on an analysis of almost 1000 films.

I Wanna be Me Theodore Gracyk,2001 Gracyk grapples with the ways that rock shapes--limits and expands--our notions of who we can be in the world. [He] sees rock as a mass art, open-ended and open to diverse (but not unlimited) interpretations. Recordings reach millions, drawing people together in communities of listeners who respond viscerally to its sound and intellectually to its messages. As an art form that proclaims its emotional authenticity and resistance to convention, rock music constitutes part of the cultural apparatus from which individuals mold personal and political identities. Going to the heart of this relationship between the music's role in its performers' and fans' self-construction, Gracyk probes questions of gender and appropriation. How can a feminist be a Stones fan or a straight man enjoy the Indigo Girls? Does borrowing music that carries a racial identity always add up to exploitation, a charge leveled at Paul Simon's *Graceland*? Rang[es] through forty years of rock history and offer[s] a trove of anecdotes--Publisher description.

The Horror Film Peter Hutchings,2014-09-11 The Horror Film is an in-depth exploration of one of the most consistently popular, but also most disreputable, of all the mainstream film genres. Since the early 1930s there has never been a time when horror films were not being produced in substantial numbers somewhere in the world and never a time when they were not being criticised, censored or banned. The Horror Film engages with the key issues raised by this most contentious of genres. It considers the reasons for horror's disreputability and seeks to explain why despite this horror has been so successful. Where precisely does the appeal of horror lie? An extended introductory chapter identifies what it is about horror that makes the genre so difficult to define. The chapter then maps out the historical development of the horror genre, paying particular attention to the international breadth and variety of horror production, with reference to films made in the United States, Britain, Italy, Spain and elsewhere. Subsequent chapters explore: The role of monsters, focusing on the vampire and the serial killer. The usefulness (and limitations) of psychological approaches to horror. The horror audience: what kind of people like horror (and what do other people think of them)? Gender, race and class in horror: how do horror films such as *Bride of Frankenstein*, *The Texas Chainsaw Massacre* and *Blade* relate to the social and political realities within which they are produced? Sound and horror: in what ways has sound contributed to the development of horror? Performance in horror: how have performers conveyed fear and terror throughout horror's history? 1970s horror: was this the golden age of horror production? Slashers and post-slashers: from *Halloween* to *Scream* and beyond. The Horror Film throws new light on some well-known horror films but also introduces the reader to examples of noteworthy but more obscure horror work. A final section provides a guide to further reading and an extensive bibliography. Accessibly written, The Horror Film is a lively and informative account of the genre that will appeal to students of cinema, film teachers and researchers, and horror lovers everywhere.

Reconstructing Hybridity Joel Kuortti,Jopi Nyman,2007 This interdisciplinary collection of critical articles seeks to reassess the concept of hybridity and its relevance to post-colonial theory and literature. The challenging articles written by internationally acclaimed scholars discuss the usefulness of the term in relation to such questions as citizenship, whiteness studies and transnational identity politics. In addition to developing theories of hybridity, the articles in this volume deal with the role of hybridity in a variety of literary and cultural phenomena in geographical settings ranging from

the Pacific to native North America. The collection pays particular attention to questions of hybridity, migrancy and diaspora.

Postcolonial Studies Benita Parry,2004-07-31 Parry offers the compelling argument that theoretical work must strive to join remembrance of the material past with a critique of the contemporary condition, remaining unreconciled to the past and unconsolated by the present.

Media, Culture, and Politics in Indonesia Krishna Sen,David T. Hill,2007 Media, Culture, and Politics in Indonesia is about the institutions and policies that determine what Indonesians write, read, watch, and hear. It covers the print media, broadcast radio and television, computers and the internet, videos, films and music. This book argues that the texts of the media can be understood in two broad ways: 1. as records of a national culture and political hegemony constructed by Suharto's New Order and 2. as contradictory, dissident, political and cultural aspirations that reflect the anxieties and preoccupations of Indonesian citizens. Media, Culture, and Politics, now brought back to life as a member of Equinox Publishing's Classic Indonesia series, explains what has escaped state control, not only by self-conscious resistance, but also because of the ownership patterns, technologies, and modes of consumption of media texts and institutions. The role of the media in the downfall of Suharto is examined and the legacy of his New Order is analyzed. This dynamic and innovative text is suitable for all students of Indonesian languages and culture, Asian studies, Southeast Asian studies, cultural studies, media studies, and contemporary politics. Krishna Sen is Professor of Asian Media and Dean of the Humanities Research Centre at Curtin University of Technology, Perth, Western Australia David T. Hill is Professor of Southeast Asian Studies and Fellow of the Asia Research Centre, Murdoch University, Perth, Western Australia

Subcultures: The Basics Ross Haenfler,2013-10-08 Subcultures: The Basics is an accessible, engaging introduction to youth cultures in a global context. Blending theory and practice to examine a range of subcultural movements including hip hop in Japan, global graffiti writing crews, heavy metal in Europe and straight edge movements in the USA, this text answers the key questions posed by those new to the subject, including: What is a subculture? How do subcultures emerge, who participates and why? What is the relationship between deviance, resistance and the 'mainstream'? How does society react to different subcultural movements? How has global media and virtual networking influenced subcultures? Is there a life 'after' subculture? Tracing the history and development of subcultures to the present day, with further reading and case studies throughout, this text is essential reading for all those studying youth culture in the contexts of sociology, cultural studies, media studies, anthropology and criminology.

White Boys, White Noise: Masculinities and 1980s Indie Guitar Rock Dr Matthew Bannister,2013-01-28 To what extent do indie masculinities challenge the historical construction of rock music as patriarchal? This key question is addressed by Matthew Bannister, involving an in-depth examination of indie guitar rock in the 1980s as the culturally and historically specific production of white men. Through textual analysis of musical and critical discourses, Bannister provides the first book-length study of masculinity and ethnicity within the context of indie guitar music within US, UK and New Zealand 'scenes'. Bannister argues that past theorisations of (rock) masculinities have tended to set up varieties of working-class deviance and physical machismo as 'straw men', oversimplifying masculinities as 'men behaving badly'. Such approaches disavow the ways that masculine power is articulated in culture not only through representation but also intellectual and theoretical discourse. By re-situating indie in a historical/cultural context of art rock, he shows how masculine power can be rearticulated through high, avant-garde, bohemian culture and aesthetic theory: canonism, negation (Adorno), passivity, voyeurism and camp (Andy Warhol and the Velvet Underground), and primitivism and infantilism (Lester Bangs, Simon Reynolds). In a related vein, he also assesses the impact of Freud on cultural theory, arguing that reversing binary conceptions of gender by associating masculinities with an essentialised passive femininity perpetuates patriarchal dualism. Drawing on his own experience as an indie musician, Bannister surveys a range of indie artists, including The Smiths, The Jesus and Mary Chain, My Bloody Valentine and The Go-Betweens; from the US, R.E.M., The Replacements, Dinosaur Jr, Hüsker Dü, Nirvana and hardcore; and from NZ, Flying Nun acts, including The Chills, The Clean, the Verlaines, Chris Knox, Bailter Space, and The Bats, demonstrating broad continuities between these apparently disparate scenes, in terms of gender, aesthetic theory and approaches to popular musical history. The result is a book which raises some important questions about how gender is studied in popular culture and the degree to which alternative cultures can critique dominant representations of gender.

Draculas, Vampires, and Other Undead Forms John Edgar Browning,Caroline Joan "Kay" S. Picart,2009-04-08 Since the publication of Dracula in 1897, Bram Stoker's original creation has been a source of inspiration for artists, writers, and filmmakers. From Universal's early black-and-white films and Hammer's Technicolor representations that followed, iterations of Dracula have been cemented in mainstream cinema. This anthology investigates and explores the far larger body of work coming from sources beyond mainstream cinema reinventing Dracula. Draculas, Vampires and Other Undead Forms assembles provocative essays that examine Dracula films and their movement across borders of nationality, sexuality, ethnicity, gender, and genre since the 1920s. The essays analyze the complexity Dracula embodies outside the conventional landscape of films with which the vampire is typically associated. Focusing on Dracula and Dracula-type characters in film, anime, and literature from predominantly non-Anglo markets, this anthology offers unique perspectives that seek to ground depictions and experiences of Dracula within a larger political, historical, and cultural framework.
