JO PACKHAM

📖 **WHERE WOMEN CREATE** Jo Packham,2005 More than twenty superstars from the world of crafting—including Anna Corba, April Cornell, Sandi Genovese, and Andrea Grossman—offer their expert advice on how to design a work space where creativity can blossom. Like the bestselling *Business of Bliss*, it’s practical, inspirational, and beautiful to behold. Research by *Craft Trends Magazine* reveals that 89% of all crafters are women, and that they want to work in an environment conducive to creating their art. This invaluable and very special guide helps them achieve that goal, whatever their passion. It goes straight to the experts: successful women who have made their mark in more than 10 different creative fields. These top designers and artisans offer insights gleaned from years of experience, reveal how they constructed their own creative spaces, and explain how the reader can make practical use of these decorating, organizational, and inspirational techniques as they go about designing their own work areas. Among the pertinent questions they answer: Where did you like to work as a child? What’s the most important thing about having your own place to work? Are women’s creative spaces different from men’s? How important is it for you to organize your work, and how do you do it? Do you listen to music when you work—and what kind? The featured designers include Wendy Addison, Dena Fishbein, Jill Schwartz, and Suze Weinberg and their fields range from paper crafts to gardening. A selection of the Crafters Choice Book Club & the Homestyle Book Club.

📖 **CINCINNATI MAGAZINE**,2009-12 Cincinnati Magazine taps into the DNA of the city, exploring shopping, dining, living, and culture and giving readers a ringside seat on the issues shaping the region.

📖 **THE OTHER END OF THE LEASH** Patricia McConnell, Ph.D.,2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An applied animal behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

📖 **GOOD MAIL DAY** Jennie Hinchcliff,Carolee Gilligan Wheeler,2009-09-01 “What is a good mail day?” A good mail day is a day when, instead of just bills, catalogs, and advertisements, your postal carrier delivers artful, beautiful, personal mail from friends and acquaintances all over the world. Mail art is a collaborative art form with a long and fascinating history populated by famous artists as well as everyday practitioners. The term “mail art” refers to pieces of art sent through the mail rather than displayed or sold in traditional venues. Mail artists often use inexpensive and recycled materials including postcards, collage, rubber stamps, and photocopied images. Mail art is a truly international activity and a fun way to connect with people in every corner of the globe. Readers will learn to create decorated and illustrated envelopes, faux postage and artistamps, find penpals, make a mail art kit, and much more!

📖 **SLOPPY CRAFT** Elaine Cheasley Paterson,Susan Surette,2015-09-24 Sloppy Craft: Postdisciplinarity and the Crafts brings together leading international artists and critics to explore the possibilities and limitations of the idea of ‘sloppy craft’ – craft that is messy or unfinished looking in its execution or appearance, or both. The contributors address ‘sloppiness’ in contemporary art and craft practices including painting, weaving, sewing and ceramics, consider the importance of traditional concepts of skill, and the implications of sloppiness for a new 21st century emphasis on inter- and postdisciplinarity, as well as for activist, performance, queer and Aboriginal practices. In addition to critical essays, the book includes a ‘conversation’ section in which contemporary artists and practitioners discuss challenges and opportunities of ‘sloppy craft’ in their practice and teaching, and an afterword by Glenn Adamson.

📖 **FACTORY MAN** Beth Macy,2014-07-15 The instant New York Times bestseller about one man’s battle to save hundreds of jobs by demonstrating the greatness of American business. The Bassett Furniture Company was once the world’s biggest wood furniture manufacturer. Run by the same powerful Virginia family for generations, it was also the center of life in Bassett, Virginia. But beginning in the 1980s, the first waves of Asian competition hit, and ultimately Bassett was forced to send its production overseas. One man fought back: John Bassett III, a shrewd and determined third-generation factory man, now chairman of Vaughan-Bassett Furniture Co, which employs more than 700 Virginians and has sales of more than \$90 million. In *Factory Man*, Beth Macy brings to life Bassett’s deeply personal furniture and family story, along with a host of characters from an industry that was as cutthroat as it was colorful. As she shows how he uses legal maneuvers, factory efficiencies, and sheer grit and cunning to save hundreds of jobs, she also reveals the truth about modern industry in America.

📖 **HAND STITCHED CRAZY PATCHWORK** Hazel Blomkamp,2016-03-15 Crazy patchwork has long been a popular subject amongst quilters and embroiderers, allowing them the freedom to be creative and to incorporate a broad range of techniques into their work. In this beautiful book, expert needlecrafter Hazel Blomkamp explores a wide variety of hand-stitching techniques and produces five stunning projects in which everything is created using just fabric, a needle, threads, ribbons and beads. She provides expert guidance on embellishment techniques such as beading, embroidery (with both thread and silk ribbon), needlelace, needle weaving and tatting, as well as on patchwork and quilting. Three projects are worked completely from scratch, and even the patches themselves are created with a needle and thread. The fourth project is a traditional crazy patchwork with hand-stitched embellishments, and the fifth project combine a traditional crazy patchwork with a Jacobean embroidery panel. The book will draw in both embroiderers and quilters, and inspire them to combine their skills in new and exciting ways.

📖 **I KNOW WHY THE CAGED BIRD SINGS** Maya Angelou,2010-07-21 Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. I know Why the Caged Bird Sings captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou’s debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local “powhitetrash.” At eight years old and back at her mother’s side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors (“I met and fell in love with William Shakespeare”) will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. “I know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity.”—James Baldwin From the paperback edition.

📖 **EDIBLE INSECTS** Arnold van Huis,Food and Agriculture Organization of the United Nations,2013 Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Although the majority of consumed insects are gathered in forest habitats, mass-rearing systems are being developed in many countries. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and support livelihoods in both developing and developed countries. It shows the many traditional and potential new uses of insects for direct human consumption and the opportunities for and constraints to farming them for food and feed. It examines the body of research on issues such as insect nutrition and food safety, the use of insects as animal feed, and the processing and preservation of insects and their products. It highlights the need to develop a regulatory framework to govern the use of insects for food security. And it presents case studies and examples from around the world. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. To fully realise this potential, much work needs to be done by a wide range of stakeholders. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

📖 **ORGANIZING YOUR CRAFT SPACE** Jo Packham,2006 Every crafter wants a work space that’s usable, attractive, and well-organised, and here’s how to achieve that goal. Inside this spiral-bound guide, with colour-coded pages for easy reference, are hints, tips, and dos and don’ts for each individual craft. There are craft categories so that individual problems are addressed (Mosaic and stained glass, knitting and crocheting, needlepoint and embroidery, scrapbooking and papercrafts, painting, beading, stencilling and rubber stamping, and sewing and fabric crafts). Plus, professional artists invite you into their studios to see how they keep things orderly, from smart storage to functional surfaces.

📖 **DARK ECOLOGY** Timothy Morton,2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this Oedipal path in Blade Runner (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.

📖 **THAT TIME OF YEAR** Garrison Keillor,2022-10-04 With the warmth and humor we’ve come to know, the creator and host of A Prairie Home Companion shares his own remarkable story. In That Time of Year, Garrison Keillor looks back on his life and recounts how a Brethren boy with writerly ambitions grew up in a small town on the Mississippi in the 1950s and, seeing three good friends die young, turned to comedy and radio. Through a series of unreasonable lucky breaks, he founded A Prairie Home Companion and put himself in line for a good life, including mistakes, regrets, and a few medical adventures. PHC lasted forty-two years, 1,557 shows, and enjoyed the freedom to do as it pleased for three or four million listeners every Saturday at 5 p.m. Central. He got to sing with Emmylou Harris and Renée Fleming and once sang two songs to the U.S. Supreme Court. He played a private eye and a cowboy, gave the news from his hometown, Lake Wobegon, and met Somali cabdrivers who’d learned English from listening to the show. He wrote bestselling novels, won a Grammy and a National Humanities Medal, and made a movie with Robert Altman with an alarming amount of improvisation. He says, “I was unemployable and managed to invent work for myself that I loved all my life, and on top of that I married well. That’s the secret, work and love. And I chose the right ancestors, impoverished Scots and Yorkshire farmers, good workers. I’m heading for eighty, and I still get up to write before dawn every day.” The paperback edition has a new preface by the author.
